Literary Analysis Essay on Alice Munro's Short Story, "Boys and Girls" Essay

Introduction

Alice Munro's short story, "Boys and Girls," explores the various roles that both men and women are perceived to have in society. She does all that by focusing on the story of a young girl who discovers what it means for one to be born as a girl. The girl grows up in the mid 20th century in Canada. She lived with her family, consisting of her mother, father, and little brother. A variety of gender roles always characterized the girl's whole life. The author never gives the main character a name hence being referred to as a protagonist meaning an individual without any name or any power of her own. The first gender conflicts depict itself because her younger brother had a name, meaning he was more important and also had his power (Munro 7). The protagonist of the story is based on the fact that the girl's life rotated around the house mist, especially in the kitchen, while that of the boy rotated around being with his father helping him out on the farm. It is therefore important to consider what factors result in the gender conflict, how the protagonist struggles to find an identity of her own, and why there are different expectations between a girl and a boy.

The protagonist in Munro's story is forced by her gender to have a whole complex of behaviors on her own. An example of this behavior is when she resists working with her father by asking questions. That form of resistance that she presents can be linked through the social expectations of how a girl behaves and through the girl's reluctant complicity. She becomes confused between gaining the respect she deserves from her father and her awareness about the kind of job that her father does. The fact that her brother betrayed her makes her think she is not part of the "outside" world chores (Chang 32). However, she is as well not convinced with her mother's world. She eventually becomes unsure of whether the label functions as a form of liberating or enslaving her.

Gender Identity

A key factor that plays a significant role in gender identity in the short story is the fact of accepting who people are. Initially, the protagonist was always against working with her mother. Eventually, she realizes that it is part of her predetermined fate that she is supposed to fit the molded gender stereotype. Since the girl faces much hardship throughout her life, she eventually accepts that her brother is the man that should take her place and help her father with the farm activities and that she is expected to concentrate on her womanhood. The story generalizes on gender identity and most of the stereotypes that society has and illustrates how a young child moves to adulthood. Since the rite of passage cannot be avoided, it is evident that the girl could not as well avoid her true gender identity. As the girl grows, she starts expressing her feel like a woman, who initiates her development from being a young girl to an adult and, more specifically, an adult woman.

Initially, the girl believes that she can be of greater value to her father. However, all that fades away once she realizes how the society views and expects of her. The girl always admired helping her father on the farm. She was impressed with the attention that her father always gave her whenever she was doing the house chores. That was evident when the salesman came to their home and found

Reading Alice Munro with Jacques Lacan Jennifer Murray, 2016-10-01 It is unlikely that Jacques Lacan and Alice Munro were ever aware of each other's work Yet because of Munro's intuitive grasp of the complexities of human subjectivity and her ability to articulate subtleties and ambiguities her fiction shares many of the insights of Lacan's theoretical advancements of the same period They are both concerned with bringing the obscure undercurrents of the psyche to light Jennifer Murray's *Reading Alice Munro with Jacques Lacan* brings the works of the writer and the psychoanalyst into dialogue offering innovative interpretations of a selection of Munro's stories Approached from a Lacanian perspective a close reading of Munro's texts reveals the libidinal energy at the heart of the stories and offers particular insight into aspects such as shame and humiliation feelings that Munro presents with disconcerting acuity Taking into account stories both of childhood and of adult experiences Murray analyses the child's bewilderment as she confronts the incomprehensibility of parental injunctions and symbolic functions while stories about women later in life speak of subjectivity in the field of

The Canadian author Alice Munro, recognized as one of the world's finest short story writers, published some seventeen books between 1968 and 2014 and was awarded the third Man Booker International Prize in 2009 and the Nobel Prize in Literature in 2013. This worldwide recognition of her career calls for a look back at her very first collection of short stories *Dance of the Happy Shades*, published in 1968 and composed of fifteen stories written between 1953 and 1967. Some forty-five years after the publication of this first volume, worldwide specialists of her work examine the first steps of a great writer and offer new critical perspectives on a debut collection that already foreshadows some of the patterns and themes of later stories. Contributors adopt a variety of approaches from the fields of narratology, gender studies, psychoanalysis and genetic criticism, amongst others, to illuminate the main stylistic features, narrative strategies, literary traditions, modes of writing and generic traits of the stories in *Dance of the Happy Shades*. **Alice Munro** Carol Mazur, Cathy Moulder, 2007-04-23
