Understanding Victims And Restorative Justice

Dignan, James, 2004-11-01 Although the topics dealt with are complex the author has been very successful in presenting and exploring them clearly Students may find particularly helpful the summary at the end of each chapter of the main points covered in that section The Legal Executive the real strength of this book lies in the critical thinking that arises from the juxtaposition of two very much unfinished debates the question of how victims are treated by the justice system and the practices and implications of restorative justice I feel this book is particularly important because it reframes a whole series of debates and practices which otherwise might be in danger of getting stuck That this is also undertaken by someone who is extremely knowledgeable about the subject matter and perceptive in relation to key issues is an added bonus Vista Two of the principal and most influential developments within criminal justice policy taking in a variety of common law jurisdictions during the past thirty years have been the rise of the victim movement and the emergence of a distinctive set of practices that have become associated with the term restorative justice Understanding Victims and Restorative Justice examines the origins of and the relationship between these two sets of developments and seeks to assess their strengths and weaknesses in meeting the needs of victims as part of the overall response to crime Written in a lively and accessible style this book is of benefit to students from a range of disciplines including criminology sociology and the law Also helpful to professionals practitioners and policymakers working in voluntary agencies within the criminal justice system

than on the abuser it addresses the harm caused to survivors by those who enable their abuse who fail to protect them or fail to believe them Marinari offers radical solutions for the development of restorative justice programs and policy initiatives including practical guidelines for practitioners and new directions for academic research *Restorative Justice* Ruth Ann Strickland, 2004 Restorative justice employed in both ancient and modern societies is designed to repair the harm that a criminal offense inflicts on victims offenders and communities Today backlogged court dockets dissatisfaction with the adversarial process and overcrowded prisons have incited a necessary discussion of alternatives for dealing with the accused and the convicted This book examines how restorative justice works promoting healing by emphasizing the restoration of victims emotional and material losses creating forums for negotiation problem solving and dialogue between affected parties and empowering communities and victims by inviting their participation Restorative Justice discusses the method s beneficial and detrimental effects on and implications for defendants victims the courtroom workgroup corrections and the community

Victims and Restorative Justice Inge Vanfraechem, Daniela Bolívar Fernández, Ivo Aertsen, 2015-05-15 Restorative justice aims to address the consequences of crime by encouraging victims and offenders to communicate and discuss the harm caused by the crime that has been committed In the majority of cases restorative justice is facilitated by direct and indirect dialogue between victims and offenders but it also includes support networks and sometimes involves professionals such as police lawyers social workers or prosecutors and judges In theory the victim is a core participant in restorative justice and the restoration of the harm is a first concern In practice questions arise as to whether the victim is actively involved in the process what restoration may entail whether there is a risk of secondary victimisation and whether the victim is truly at the heart of the restorative response or whether the offender remains the focal point of attention Using a combination of victimological literature and empirical data from a European research project this book considers the role and the position of the victim in restorative justice practices focusing on legislative organisational and institutional frameworks of victim offender mediation and conferencing programmes at a national and local level as well as the victims personal needs and experiences The findings are essential reading for academics and students engaged in the study of justice victimology and law The publication will also be valuable to policymakers and professionals such as social workers lawyers and mediators

The Role of Community in Restorative Justice Fernanda Rosenblatt, 2015-04-17 Although restorative justice is probably one of the most talked about topics in contemporary criminology little has been written about how community involvement in restorative justice translates into practice While advocates have presented the community as an essential pillar of restorative justice the rationale for why and how this is the case remains underdeveloped and largely unchallenged This book offers an empirical and theoretical explanation of what community involvement means and what work it does in restorative justice Drawing on an empirical case study and the wider sociological literature *The Role of Community in Restorative Justice* examines the involvement of the community in one selected practice of restorative justice and also

considers the implications of the English and Welsh experience for development of a more coherent framework for operationalizing community involvement in restorative justice practices It is argued that restorative justice programmes need to start from a more concrete and up to date notion of community While operationalizing community involvement they need to acknowledge all at once the importance of place the importance of family links friendship and other social ties and the importance of similar social traits and identities This book is essential reading for students researchers and academics in the fields of criminology criminal justice sociology community studies policy studies social policy and socio legal studies This book will also be valuable reading for a variety of practitioners and policymakers particularly working with restorative justice and youth justice

The Limits of Forgiveness Maria Mayo,2021-05-06 Demystifying an unrealistic ideal Maria Mayo questions the contemporary idealization of unconditional forgiveness in three areas of contemporary life so called Victim Offender Mediation involving cases of criminal injury the work of the Truth and Reconciliation Commission in post apartheid South Africa and the pastoral care of victims of domestic violence She shows that an emphasis on unilateral and unconditional forgiveness puts disproportionate pressure on the victims of injustice or violence and misconstrues the very biblical passages especially in Jesus teaching and actions on which advocates of unconditional forgiveness rely

The Emotional Dynamics of Law and Legal Discourse Heather Conway,John Stannard,2016-12-15 In his seminal work Emotional Intelligence Daniel Goleman suggests that the common view of human intelligence is far too narrow and that emotions play a much greater role in thought decision making and individual success than is commonly acknowledged The importance of emotion to human experience cannot be denied yet the relationship between law and emotion is one that has largely been ignored until recent years However the last two decades have seen a rapidly expanding interest among scholars of all disciplines into the way in which law and the emotions interact including the law s response to emotion and the extent to which emotions pervade the practice of the law In *The Emotional Dynamics of Law and Legal Discourse* a group of leading scholars from both sides of the Atlantic explore these issues across key areas of private law public law criminal justice and dispute resolution illustrating how emotion infuses all areas of legal thought The collection argues for a more positive view of the role of emotion in the

context of legal discourse and demonstrates ways in which the law could in the words of Goleman become more emotionally intelligent

Resisting Punitiveness in Europe? Sonja Snacken, Els Dumortier, 2013-03-01 This volume provides an important and exciting contribution to the knowledge on punishment across Europe Over the past decade punitiveness has been studied through analyses of increased or new forms of punishment in western countries Comparative studies on the other hand have illustrated important differences in levels of punitiveness between these countries and have tried to explain these differences by looking at risk and protective factors Covering both quantitative and qualitative dimensions this book focuses on mechanisms interacting with levels of punitiveness that seem to allow room for less punitive political choices especially within a European context social policies human rights and a balanced approach to victim rights and public opinion in constitutional democracies The book is split into three sections Punishment and Welfare Chapters look into possible lessons to be learned from characteristics and developments in

Scandinavian and some Continental European countries Punishment and Human Rights Contributions analyze how human rights in Europe can and do act as a shield against but sometimes also as a possible motor for criminalization and penalization Punishment and Democracy The increased political attention to victims rights and interests and to public opinion surveys in European democracies is discussed as a possible risk for enhanced levels of punitiveness in penal policies and evaluated against the background of research evidence about the wishes and expectations of victims of crime and the ambivalence and polycentric consistency of public opinion formations about crime and punishments This book will be a valuable addition to the literature in this field and will be of interest to students scholars and policy officials across Europe and elsewhere

Restorative Policing Kerry

Clamp, Craig Paterson, 2016-10-04 In the UK and elsewhere restorative justice and policing are core components of a range of university programmes however currently no such text exists on the intersection of these two areas of study This book draws together these diverse theoretical perspectives to provide an innovative knowledge rich text that is essential reading for all those engaged with the evolution and practice of restorative policing Restorative Policing surveys the twenty five year history of restorative policing practice during which its use and influence over criminal justice has slowly grown It then situates this experience within a criminological discussion about neo liberal responses to crime control There has been insufficient debate about how the concepts of restorative justice and policing sit alongside each other and how they may be connected or disconnected in theoretical and conceptual terms The book seeks to fill this gap through an exploration of concepts theory policy and practice In doing so the authors make a case for a more transformative vision of restorative policing that can impact positively upon the shape and practice of policing and outline a framework for the implementation of such a strategy This pathbreaking book will be of interest to undergraduate and postgraduate students taking courses on restorative justice policing and crime control as well as professionals interested in the implementation of restorative practices in the police force
