social work and aims to exemplify ways in which social work thought and practice can be advanced through research The SAGE Handbook of Evaluation Ian Shaw, Jennifer C Greene, Melvin M Mark, 2006-07-27 The Handbook succeeds in capturing and presenting evaluation's extensive knowledge base within a global context. In so doing it provides a useful coherent and definitive benchmark on the field's diverse and dynamic purposes, practices, theories, approaches, issues and challenges for the 21st century. The Handbook is an essential reference and map for any serious evaluation practitioner, scholar and student anywhere in the world. Michael Quinn Patton, author of *Utilization Focused Evaluation*. In this comprehensive handbook, an examination of the complexities of contemporary evaluation contributes to the ongoing dialogue that arises in professional efforts to evaluate people-related programs, policies and practices. The SAGE Handbook of Evaluation is a unique and authoritative resource consisting of 25 chapters covering a range of evaluation theories and techniques in a single accessible volume. With contributions from world-leading figures in their fields, overseen by an eminent international editorial board, this handbook is an extensive and user-friendly resource organized in four coherent sections: Role and Purpose of Evaluation in Society; Evaluation as a Social Practice; The Practice of Evaluation; Domains of Evaluation Practice. The SAGE Handbook of Evaluation is written for practicing evaluators, academics, advanced postgraduate students and evaluation clients and offers a definitive benchmark statement on evaluation theory and practice for the first decade of the 21st century. *Qualitative Evaluation* Ian Shaw, 1999-07-28 Looking for a practical introduction to the strategies and methods of qualitative evaluation, Ian Shaw shows how evaluation practice can utilize qualitative approaches to gain an understanding that more traditional quantitative approaches may fail to do. Three broad sections include discussions of the foundations of evaluation and recent trends; evaluation and action programmes; and the practice of evaluation including design, data collection and analysis. Exercises for each chapter show students how to apply the issues, approaches and methods illustrated. Evaluating in Practice Ian Shaw, 2018-10-24 Evaluation is not a self-contained phase of social work practice, one more dimension of the process, but a dimension of every phase. In this fully rewritten and updated second edition of his groundbreaking text *Evaluating in Practice*, Ian Shaw demonstrates how evaluation and inquiry are just as much practice tasks as planning, intervention and review. By demonstrating that good evaluating in practice helps sustain a commitment to evidence, understanding and justice, Shaw shows that for this to be achieved, evaluating in practice must permeate every aspect of social work. He 1. Develops a framework for embedding evaluation and inquiry as a dimension of good practice in social work. 2. Demonstrates the central significance of a methodological practice in social work that adapts, infuses and translates social research methods as a dimension of the different aspects of social work, viz. assessment, planning, intervention, review and outcomes. 3. Facilitates good practice by exemplifying the argument through extensive worked examples and exercises. This book has much to say about the demanding skills that are necessary to achieve this shaping of practice and is a must-read for any social work student or practitioner. **Ethics and Integrity in Research with Children and Young People** Grace
