Rethinking Media Change The Aesthetics Of Transition:

Rethinking Media Change David Thorburn, Henry Jenkins, 2004-09-17 The essays in *Rethinking Media Change* center on a variety of media forms at moments of disruption and cultural transformation The editors introduction sketches an aesthetics of media transition patterns of development and social dispersion that operate across eras media forms and cultures The book includes case studies of such earlier media as the book the phonograph early cinema and television It also examines contemporary digital forms exploring their promise and strangeness A final section probes aspects of visual culture in such environments as the evolving museum movie spectacles and the virtual window The contributors reject apocalyptic scenarios of media revolution demonstrating instead that media transition is always a mix of tradition and innovation an accretive process in which emerging and established systems interact shift and collude with one another

Convergence Culture Henry Jenkins, 2008-09 What the future fortunes of Gramsci's writings will be we cannot know However his permanence is already sufficiently sure and justifies the historical study of his international reception The present collection of studies is an indispensable foundation for this Eric Hobsbawm from the preface Antonio Gramsci is a giant of Marxian thought and one of the world's greatest cultural critics Antonio A Santucci is perhaps the world's preeminent Gramsci scholar Monthly Review Press is proud to publish for the first time in English Santucci's masterful intellectual biography of the great Sardinian scholar and revolutionary Gramscian terms such as civil society and hegemony are much used in everyday political discourse Santucci warns us however that these words have been appropriated by both radicals and conservatives for contemporary and often self-serving ends that often have nothing to do with Gramsci's purposes in developing them Rather what we must do and what Santucci illustrates time and again in his dissection of Gramsci's writings is absorb Gramsci's methods These can be summed up as the suspicion of grand explanatory schemes the unity of theory and practice and a focus on the details of everyday life With respect to the last of these Joseph Buttigieg says in his *Nota* Gramsci did not set out to explain historical reality armed with some full-fledged concept such as hegemony rather he examined the minutiae of concrete social economic cultural and political relations as they are lived in by individuals in their specific historical circumstances and gradually he acquired an increasingly complex understanding of how hegemony operates in many diverse ways and under many aspects within the capillaries of society The rigor of Santucci's examination of Gramsci's life and work matches that of the seminal thought of the master himself Readers will be enlightened and inspired by every page

Television Brandcasting Jennifer Gillan, 2014-11-20 *Television Brandcasting* examines U.S. television's utility as a medium for branded storytelling It investigates the current and historical role that television content promotion and hybrids of the two have played in disseminating brand messaging and influencing consumer decision making Juxtaposing the current period of transition with that of the 1950s 1960s Jennifer Gillan outlines how in each era new technologies unsettled entrenched business models an emergent viewing platform threatened to undermine an established one and content

Mobile Screens Nanna Verhoeff,2025-10-01 As far as interaction with screens is concerned the given technology of particular interactive devices entails an ambiguous status of screens what is shown on the screen has to do with how one interacts with it that is we can

almost literally see what we are doing This study is devoted to a theoretical exploration of intersections between mobility and
visuality from a historical comparative perspective addressing the mobility of visual experience and the screen based access
to such experiences in a range of case studies The author develops the concept through five chapters and analyzes a variety
of contemporary screen technologies and the cultural practices involving these screen based configurations the ways in
which we engage with screens as interfaces with spatial temporal and haptic experiences **What is Media Archaeology?**

Jussi Parikka,2013-04-23 This cutting edge text offers an introduction to the emerging field of media archaeology and
analyses the innovative theoretical and artistic methodology used to excavate current media through its past Written with a
steampunk attitude What is Media Archaeology examines the theoretical challenges of studying digital culture and memory
and opens up the sedimented layers of contemporary media culture The author contextualizes media archaeology in relation
to other key media studies debates including software studies German media theory imaginary media research new
materialism and digital humanities What is Media Archaeology advances an innovative theoretical position while also
presenting an engaging and accessible overview for students of media film and cultural studies It will be essential reading for

Visions of Electric Media Ivy Roberts,2025-10-01 Visions of Electric Media is an historical examination into the early
history of television as it was understood during the Victorian and Machine ages How did the television that we use today
develop into a functional technology What did Victorians expect it to become How did the vision of television change once
viewers could actually see pictures on a screen We will journey through the history of television from the first indications of
live communications in technology and culture in the late nineteenth century to the development of electronic televisual
systems in the early twentieth century Along the way we will investigate the philosophy folklore engineering practices and
satires that went into making television a useful medium **Cinematicity in Media History** Jeffrey Geiger,2015-03-02

Highlights the complex ways in which media anticipate interfere with and draw on one other **New Media, 1740-1915**

Lisa Gitelman,Geoffrey B. Pingree,2003 A cultural history of media that were new media in the eighteenth nineteenth and
twentieth centuries *Democracy and New Media* Henry Jenkins,David Thorburn,Brad Seawell,2004 Essays on the promise
and dangers of the Internet for democracy **Survey of Media** Stacey O. Irwin,2024-09-10 An accessible and exciting new
textbook that provides students with an in depth historical and conceptual understanding of the nature and function of media
in society Stacey O Irwin contextualizes media objects and experiences including cinema TV phones gaming radio and
podcasting journalism publishing advertising and more into three descriptive sections screens sounds and synergies The text
examines how technology is enfolded into the cultural process of contemporary media experience exploring topics such as

social media augmented reality and other trends from the metaverse It also reflects on the impact of legacy media and highlights instrumental moments in media history along the way By examining media history from the perspective of future decision making this textbook explores how media technologies have a positive and negative sociocultural impact This provides students with a more accessible entry point to the topic and readers are left with a well rounded understanding of media and the interplay between media culture technology and society Each chapter concludes with things to consider and additional takeaways to enhance student learning This is an essential text for students taking classes such as Introduction to Mass Media Survey of Media Media History Media and Society and Media Culture *History of Participatory Media* Anders Ekström, Solveig Jülich, FRANS LUNDGREN, Per Wisselgren, 2012-07-26 This book argues for a historical perspective on issues relating to the notion of participatory media Working from a broad concept of media including essays on the 19th century press early sound media photography exhibitions television and the internet the book offers a broad empirical approach to different modes of audience participation from the mid 19th century to the present Using the insights from the historical case studies the book also explores some of the key concepts in discussions on the politics of participation arguing for a theoretical perspective sensitive to the asymmetries that characterize the distribution of agency in the relationship between media and users Scholarly discussions on participatory media now occur in several fields This book argues that all of these discussions are all too often obscured by a rhetoric of newness assuming that participatory media is something unique in history radical and revolutionary By challenging the historiography implicit in this rhetoric the book also engages in a discussion of issues of more general relevance to the multidisciplinary field of media history
