eternity      **Retiring** Teresa M. Amabile, Lotte Bailyn, Marcy Crary, Douglas T. Hall, Kathy E. Kram, 2024-10-02 Retirement as a major life transition can be both thrilling and challenging in unexpected ways Written by acclaimed authors in the fields of business leadership careers and work this book goes beyond the typical financial and health related advice on retirement providing insights to guide you in broader areas of your life identity issues relationship challenges and questions about creating a new retirement life structure that works for you With lively engaging writing the book tells the detailed retirement transition stories of 14 people and draws on over 200 interviews with 120 people to explore how retiring involves a reconstruction of both the person and their life structure You ll gain wisdom on the common themes and the wildly different approaches people take to the four big tasks of retiring making the retirement decision detaching from work both tangibly and psychologically building a new life structure for retirement and settling into a relatively stable retirement life but prepared to restructure again as life unfolds into the future Throughout each chapter you ll see how the dynamic interplay of self life structure and external context affect a retiring person s day to day experience in the final months of their career as well as their early years of retirement and how life satisfaction depends largely on alignment among the three At the same time you ll learn how family friends and colleagues as well as the organization the person is retiring from can play a crucial role This book is for you if you are seeking deep nuanced insight into and practical advice on the psychological social and life restructuring aspects of retirement that can make all the difference for life satisfaction It is also for you if you are a family member or friend of a retiring person a helping professional or an organizational leader who cares about your older workers and the value they bring to your organization even as they depart      **Retiring Retirement** Rodney Macready, 2022-05-03 In Retiring Retirement Rodney Macready doesn t believe retirement is a biblical concept especially the way it s practiced in today s Western culture with a sense of entitlement His aim is to challenge readers to think about retirement and what the Bible has to say in relation to it He encourages retirees to continue to be productive and contribute to the Kingdom and challenges us to evaluate our current concept of retirement by exploring what the Bible says about it      *Chinese Senior Migrants and the Globalization of Retirement* Nicole DeJong Newendorp, 2020-09-08 The 21st century has seen growing numbers of seniors turning to migration in response to newfound challenges to traditional forms of retirement and old age support such as increased longevity demographically aging populations and global neoliberal trends reducing state welfare Chinese born migrants to the U S serve as an exemplary case of this trend with 30 percent of all migrants since 1990 being at least 60 years old This book tells their story arguing that they demonstrate the significance of age as a mediating factor that is fundamentally important for considering how migration is experienced The subjects of this study are situated at the crossroads of Chinese immigrant and Chinese American experiences embodying many of the ambiguities and paradoxes that complicate common understandings of each group These are older individuals who have waited their whole lives to migrate to the U S to rejoin family but often experience unanticipated family conflict when they arrive They are retirees living at the

social and economic margins of American society who nonetheless find significant opportunities to achieve meaningful retired lifestyles They are members of a diaspora spanning vast regional and ideological differences yet their wellbeing hinges on everyday interactions with others in this diverse community Their stories highlight the many possibilities for mutual engagement that connect Chinese and American ways of being and belonging in the world Retiring?
