Rough Justice: Perspectives on Lower Criminal Courts John Ancona Robertson, 1974 Performing Judicial Authority in the Lower Courts Sharyn Roach Anleu, Kathy Mack, 2017-05-10 Judicial authority is constituted by everyday practices of individual judicial officers balancing the obligations of formal law and procedure with the distinctive interactional demands of lower courts *Performing Judicial Authority in the Lower Courts* draws on extensive original independent empirical data to identify different ways judicial officers approach and experience their work It theorizes the meanings of these variations for the legitimate performance of judicial authority The central theoretical and empirical finding presented in this book is the incomplete fit between conventional norms of judicial performance emphasizing detachment and impersonality and the practical day to day judicial work in high volume time pressured lower courts Understanding the judicial officer as the crucial link between formal abstract law the legal institution of the court and the practical tasks of the courtroom generates a more complete theory of judicial legitimacy which includes the manner in which judicial officers present themselves and communicate their decisions in court *The National Manpower Survey of the Criminal Justice System* National Planning Association, 1978 The National Manpower Survey of the Criminal Justice System: Courts National Planning Association, National Institute of Law Enforcement and Criminal Justice, 1978 **The national manpower survey of the criminal justice system** National Institute of Law Enforcement and Criminal Justice, 1978 *Resolution of Minor Disputes* United States. Philips,1998-04-16 A text that will appeal to any reader interested in the relation of language to the law or vice versa Ideological Diversity in Courtroom Discourse focuses on the guilty plea as both a distinct procedure and a dialogue constrained by boundaries The book argues that although judges uniformly see themselves as formally and impartially ensuring the constitutional right to due process a considerable variety exists in the interactions between judges and defendants Susan Philips relates in much detail how this diversity stems from the judges various interpretations of written law from their personal attitudes toward control of the courtroom and from their individual and politicized views regarding due process She also shows how the ideological struggles in a given courtroom are central yet largely hidden or denied Such findings will contribute significantly to the study of how speakers create realities through their use of language *Catalog of Copyright Entries.
