Isis Unveiled: A Master-Key to the Mysteries of Ancient and Modern Science and Theology (Complete) Helena Petrovna Blavatsky, 1919-01-01 The work now submitted to public judgment is the fruit of a somewhat intimate acquaintance with Eastern adepts and study of their science It is offered to such as are willing to accept truth wherever it may be found and to defend it even looking popular prejudice straight in the face It is an attempt to aid the student to detect the vital principles which underlie the philosophical systems of old The book is written in all sincerity It is meant to do even justice and to speak the truth alike without malice or prejudice But it shows neither mercy for enthroned error nor reverence for usurped authority It demands for a spoliated past that credit for its achievements which has been too long withheld It calls for a restitution of borrowed robes and the vindication of calumniated but glorious reputations Toward no form of worship no religious faith no scientific hypothesis has its criticism been directed in any other spirit Men and parties sects and schools are but the mere ephemera of the world's day Truth high seated upon its rock of adamant is alone eternal and supreme We believe in no Magic which transcends the scope and capacity of the human mind nor in miracle whether divine or diabolical if such imply a transgression of the laws of nature instituted from all eternity Nevertheless we accept the saying of the gifted author of Festus that the human heart has not yet fully uttered itself and that we have never attained or even understood the extent of its powers Is it too much to believe that man should be developing new sensibilities and a closer relation with nature The logic of evolution must teach as much if carried to its legitimate conclusions If somewhere in the line of ascent from vegetable or ascidian to the noblest man a soul was evolved gifted with intellectual qualities it cannot be unreasonable to infer and believe that a faculty of perception

is also growing in man enabling him to descry facts and truths even beyond our ordinary ken Yet we do not hesitate to accept the assertion of Biff that the essential is forever the same Whether we cut away the marble inward that hides the statue in the block or pile stone upon stone outward till the temple is completed our NEW result is only an old idea The latest of all the eternities will find its destined other half soul in the earliest It was while most anxious to solve these perplexing problems that we came into contact with certain men endowed with such mysterious powers and such profound knowledge that we may truly designate them as the sages of the Orient To their instructions we lent a ready ear They showed us that by combining science with religion the existence of God and immortality of man s spirit may be demonstrated like a problem of Euclid For the first time we received the assurance that the Oriental philosophy has room for no other faith than an absolute and immovable faith in the omnipotence of man s own immortal self We were taught that this omnipotence comes from the kinship of man s spirit with the Universal Soul God The latter they said can never be demonstrated but by the former Man spirit proves God spirit as the one drop of water proves a source from which it must have come Tell one who had never seen water that there is an ocean of water and he must accept it on faith or reject it altogether But let one drop fall upon his hand and he then has the fact from which all the rest may be inferred After that he could by degrees understand that a boundless and fathomless ocean of water existed Blind faith would no longer be necessary he would have supplanted it with KNOWLEDGE When one sees mortal man displaying tremendous capabilities controlling the forces of nature and opening up to view the world of spirit the reflective mind is overwhelmed with the conviction that if one man s spiritual Ego can do this much the capabilities of the Father Spirit must be relatively as much vaster as the whole ocean surpasses the single drop in volume and potency Ex nihilo nihil fit prove the soul of man by its wondrous powers you have proved God In our studies mysteries were shown to be no mysteries Names and places that to the Western mind have only a significance derived from Eastern fable were shown to be realities Reverently we stepped in spirit within the temple of Isis to lift aside the veil of the one that is and was and shall be at Sa s to look through the rent curtain of the Sanctum Sanctorum at Jerusalem and even to interrogate within the crypts which once existed beneath the sacred edifice the mysterious Bath Kol The Filia Vocis the daughter of the divine voice responded from the mercy seat within the veil and science theology every human hypothesis and conception born of imperfect knowledge lost forever their authoritative character in our sight The one living God had spoken through his oracle man and we were satisfied Such knowledge is priceless and it has been hidden only from those who overlooked it derided it or denied its existence

Yoga Body Mark Singleton, 2010-02-10 Yoga is so prevalent in the modern world practiced by pop stars taught in schools and offered in yoga centers health clubs and even shopping malls that we take its presence and its meaning for granted But how did the current yoga boom happen And is it really rooted in ancient Indian practices as many of its adherents claim In this groundbreaking book Mark Singleton calls into question many commonly held beliefs about the nature and origins of postural yoga asana and suggests a radically new way of understanding the meaning

of yoga as it is practiced by millions of people across the world today Singleton shows that contrary to popular belief there is no evidence in the Indian tradition for the kind of health and fitness oriented asana practice that dominates the global yoga scene of the twenty first century Singleton s surprising and surely controversial thesis is that yoga as it is popularly practiced today owes a greater debt to modern Indian nationalism and even more surprisingly to the spiritual aspirations of European bodybuilding and early 20th century women s gymnastic movements of Europe and America than it does to any ancient Indian yoga tradition This discovery enables Singleton to explain as no one has done before how the most prevalent forms of postural yoga like Ashtanga Bikram and Hatha yoga came to be the hugely popular phenomena they are today Drawing on a wealth of rare documents from archives in India the UK and the USA as well as interviews with the few remaining now very elderly figures in the 1930s Mysore asana revival Yoga Body turns the conventional wisdom about yoga on its head Isis Unveiled Helena Petrovna Blavatsky,1886 **The Publishers Weekly** ,1928 **Catalog of Copyright Entries.
