Secularism and Religion in Nineteenth-Century Germany Todd H. Weir, 2014-04-21 Negotiating the boundaries of the secular and of the religious is a core aspect of modern experience In mid nineteenth century Germany secularism emerged to oppose church establishment conservative orthodoxy and national division between Catholics Protestants and Jews Yet as historian Todd H Weir argues in this provocative book early secularism was not the opposite of religion It developed in the rationalist dissent of Free Religion and even as secularism took more atheistic forms in Freethought and Monism it was subject to the forces of the confessional system it sought to dismantle Similar to its religious competitors it elaborated a clear worldview sustained social milieus and was integrated into the political system Secularism was in many ways Germany's fourth confession While challenging assumptions about the causes and course of the Kulturkampf and modern antisemitism this study casts new light on the history of popular science radical politics and social reform

Bioethics and Secular Humanism H. Tristram Engelhardt, 2011-04-01 Bioethics is vitally important in our day because it represents the critical expression of interest in the proper use of medical science to provide health care Secular humanism is important because it is a central

factor in constructing a common morality that does not make special appeal to such things as religious assumptions The argument of this book therefore will be of profound interest to all who are concerned for the well being of humanity in today's world Imagine the author says Roman Catholics and committed atheists disputing over proper abortion policies Imagine individuals who wish to organize a for profit surrogate mother service confronting individuals who view such endeavors as exploitation of women To what moral premise do they appeal Are power and influence the deciding factors or is it possible to establish certain principles to which all may appeal In answer Professor Engelhardt examines the various meanings of secularity and humanism clearly showing how complex they are Alongside this he demonstrates the diversity of bioethics and the problems of laying a foundation for it Based on these considerations he identifies which ways forward are the most promising The urgency of the task is clear New biomedical possibilities are surfacing at the very time that demands to contain health care costs pose difficult ethical problems

The Deconstruction of

Dualism in Theology Gillian McCulloch, 2002 *Between Horror and Hope* is a study of Paul's metaphorical language of death in Romans 6:1-11. The scholarly debate focuses on two main issues: the origin of the *commentatio mortis* tradition and its development. Dr. Sabou argues that the origin of this terminology is original to Paul; that it was the apostle's own insight into the meaning of Christ's death—a death to sin—and his understanding of the identity of Christ in his death as the anointed Davidic king which guided him to create this metaphor of dying to sin as a way of describing the relationship of the believer with sin. On the development of this language of death, the author argues that this language conveys two aspects: horror and hope. The first is discussed in the context of crucifixion, in which Paul explains the believer's death to sin by presenting Christ's death as the death of the anointed Davidic king who won the victory over sin and death by rising from the dead. Paul affirms that believers are coalesced with what was proclaimed about Christ's death and resurrection, thereby allowing him to assert that the releasing of the body from the power of sin is a result of crucifixion. This crucifixion is the condemnation inflicted on our past lives in the age inaugurated by Adam's sin, and this is such a horrible event that believers have to stay away from sin since sin leads to such punishment. In contrast, hope is presented in the context of burial. The believer's burial with Christ points to the fact that they are part of Christ's family, and this is accomplished by the overwhelming action of God by which he pushes us toward the event of Christ's death—an act pictured in baptism. It is this burial with Christ that allows believers to share with Christ in newness of life.

Sacro-Egoism John S. Knox, 2016-05-10 *Sacro Egoism: The Rise of Religious Individualism in the West* discusses the relationship between secularization, participation in religious practices and belief, and the emergence of radical individualized expressions of faith in the West. Using McMinnville, Oregon, as a case study, it presents the data collected and analyzed from several churches, denominations, and spiritual settings in that unassuming town and compares it to the results of Heelas and Woodhead's *Spiritual Revolution* project, arriving at a provocative conclusion. Rather than abandoning Christianity for alternative spirituality practices, McMinnville citizens still feel strongly about their Christian faith, taking their spiritual walk to a more personal level than ever before in church history. Utilizing both quantitative and qualitative research along with personal stories of faith and exploration from McMinnville residents themselves, *Sacro Egoism: The Rise of Religious Individualism in the West* tells a story of radical individualists who have become the highest religious authority in their lives, even over the church, the Bible, and traditional Christian society.
