The Triumph of the Thriller Patrick Anderson, 2007-02-06 There's been a revolution in American popular fiction The writers who dominated the bestseller lists a generation ago with blockbuster novels about movie stars and exotic foreign lands have been replaced by a new generation writing a new kind of bestseller one that hooks readers with crime suspense and ever increasing violence Patrick Anderson *The Washington Post's* man on the thriller beat calls this revolution the triumph of the thriller and lists among its stars Thomas Harris Michael Connelly George Pelecanos Dennis Lehane Sue Grafton and Elmore Leonard In his provocative caustic and often hilarious survey of today's popular fiction Anderson shows us who the best thriller writers are and the worst He shows how Michael Connelly was inspired by Raymond Chandler how George Pelecanos toiled in obscurity while he mastered his craft how Sue Grafton created the first great woman private eye and how Thomas Harris transformed an insane cannibal into the charming man of the world who made FBI agent Clarice Starling his lover Anderson shows Scott Turow inventing the modern legal thriller and John Grisham translating it into a stunning series of bestsellers He casts a cold eye on Tom Clancy's militaristic techno thrillers and praises Alan Furst and Robert Littell as world class spy novelists He examines the pioneering role of Lawrence Sanders the offbeat appeal of Dean Koontz the unprecedented success of *The Da Vinci Code* and the emergence of the literary thriller Most of all Anderson demands that the best of these novelists be given their due not as genre writers but as some of the most talented men and women at work in American fiction Don't trust the literary elites to tell you what to read he warns make up your own minds *The Triumph of the Thriller* will convince many readers that we've entered an important new era in popular fiction This book can be your guide to it

Folklore and the Fantastic in Nineteenth-Century British Fiction Dr Jason Marc Harris,2013-04-28 Jason Marc Harris's ambitious book argues that the tensions between folk metaphysics and Enlightenment values produce the literary fantastic Demonstrating that a negotiation with folklore was central to the canon of British literature he explicates the complicated rhetoric associated with folkloric fiction His analysis includes a wide range of writers including James Barrie William Carleton Charles Dickens George Eliot Sheridan Le Fanu Neil Gunn George MacDonald William Sharp Robert Louis Stevenson and James Hogg These authors Harris suggests used folklore to articulate profound cultural ambivalence towards issues of class domesticity education gender imperialism nationalism race politics religion and metaphysics Harris's analysis of the function of folk metaphysics in nineteenth and early twentieth century narratives reveals the ideological agendas of the appropriation of folklore and the artistic potential of superstition in both folkloric and literary contexts of the supernatural

Timmer,2025-07-01 Few parts of the OT are more challenging to read than the prophets Not only are so called messianic passages relatively rare but apart from Jonah these books seem to present a message that is particularly negative if not xenophobic when it comes to the nations Daniel Timmer contends that this impression is not only mistaken but diametrically opposed to the books message Following the direction established by God's foundational promise to Abram in

Genesis 12 Timmer examines the presentation of the nations in the Latter Prophets in their original contexts through the NT and into the church's contemporary mission. He explains how the prophets' negative presentations of the nations fit into God's purpose to redeem people from every tribe and nation and explores the radical significance of the prophets' frequent predictions that non-Israelites will become integral members of God's chosen people. The volume also deals with practical issues including the place of ethnicity and nationality in Christian identity and the church's fraught relationships with secular and political power structures.

Hit and Run Nancy Griffin, Kim Masters, 2016-01-12 Hit and Run tells the improbable and often hilarious story of how two Hollywood film packagers went on a campaign to reinvent themselves as studio executives at Sony's expense. Veteran reporters Nancy Griffin and Kim Masters chronicle the rise of Jon Peters, a former hairdresser, seventh-grade dropout, and juvenile delinquent, and his soulless soul mate Peter Guber, and all the sex, drugs, and fistfights along the way. It is the story of the ultimate Hollywood con job and the standard by which every subsequent business blunder has been measured. Hit and Run delivers rock-solid business reporting liberally laced with inside gossip and outrageous scandal, plus a new afterword bringing us up to date on the latest fallout from the Guber-Peters legacy.

Contemporary Literary Criticism Daniel G. Marowski, 1986-12 Entries include critical commentary, brief biographical information, a portrait when available, a list of principal works, and may also include a further reading section.

A History of Law in Canada, Volume One Philip Girard, Jim Phillips, R. Blake Brown, 2018-12-21 A History of Law in Canada is an important three-volume project. Volume One begins at a time just prior to European contact and continues to the 1860s. Volume Two covers the half-century after Confederation, and Volume Three covers the period from the beginning of the First World War to 1982, with a postscript taking the account to approximately 2000. The history of law includes substantive law, legal institutions, legal actors, and legal culture. The authors assume that since 1500 there have been three legal systems in Canada: the Indigenous, the French, and the English. At all times these systems have co-existed and interacted with the relative power and influence of each being more or less dominant in different periods. The history of law cannot be treated in isolation, and this book examines law as a dynamic process shaped by and affecting other histories over the long term. The law guided and was guided by economic developments; was influenced and moulded by the nature and trajectory of political ideas and institutions; and variously exacerbated or mediated intercultural exchange and conflict. These themes are apparent in this examination and through most areas of law, including land settlement and tenure, and family, commercial, constitutional, and criminal law.
