Excerpt from *Select Poems of Thomas Gray* Many editions of Gray have been published in the last fifty years some of them very elegant and some showing considerable editorial labor but not one so far as I am aware critically exact either in text or in notes No editor since Mathias A D 1814 has given the 2d line of the Elegy as Gray wrote and printed it while Mathias s mispronunciation of the 123d line has been copied by his successors almost without exception Other variations from the early editions are mentioned in the notes It is a curious fact that the most accurate edition of Gray s collected poems is the editio princeps of 1768 printed under his own supervision The first edition of the two Pindaric odes *The Progress of Poesy* and *The Bard Strawberry Hill* 1757 was printed with equal care and the proofs were probably read by the poet The text of the present edition has been collated line by line with that of these early editions and in no instance I have adopted a later reading All the MS variations and the various readings I have noted in the modern editions are given in the notes Pickering s edition of 1835 edited by Mitford has been followed blindly in nearly all the more recent editions and its many errors see pp 84 and 105 foot notes have been faithfully reproduced Even its blunders in the indenting of the lines in the corresponding stanzas of the two Pindaric odes which any careful proof reader ought to have corrected have been copied again and again as in the Boston 1853 reprint of Pickering the pretty little edition of Bickers any imperfections that remain are intentionally left to preserve the state of such historical works **Select Poems of Thomas Gray** Thomas Gray, 2019-11-21

Select Poems of Thomas Gray is a compelling anthology that encapsulates the intricate beauty and poignant melancholy characteristic of Gray s work This collection features some of his most renowned poems including *Elegy Written in a Country Churchyard* and *Ode on a Distant Prospect of Eton College* Gray s distinctive literary style marked by its rich imagery and reflective tone emerges against the backdrop of the 18th century English poetic landscape which often grappled with themes of mortality nature and the passage of time His mastery of form and meter reveals a deep engagement with classical influences while also showcasing an emerging Romantic sensibility Thomas Gray 1716 1771 was a pivotal figure in the transition from Neoclassicism to Romanticism heavily influenced by his own experiences of loss and the melancholy of life s fleeting moments Educated at Eton and later at Cambridge his scholarly pursuits intertwined with poetic expression reflecting his profound engagement with the philosophical inquiries of his time His personal correspondence and legacy reveal a sensitive soul contemplative and deeply aware of the human condition elements that resonate within his poetry Readers seeking a profound exploration of life s transience and beauty will find
