Fables and the Art of Leadership Ian I. Mitroff, Donna Mitroff, 2012-12-05 Fred Rogers is one of the great icons of American culture and the values and philosophy for which he is famous have stood the test of time. Fables and the Art of Leadership brings those same values and philosophy to the workplace where they're now needed more than ever. This unique and timely work is for everyone who aspires to become and be a better leader. Mister Rogers didn't expound abstract principles to help children face up to the problems they faced; instead, he created and told countless fables and stories. Ian and

Donna Mitroff's book uses those fables to help managers master the most difficult challenges they face achieving significant change fostering creativity curbing rudeness promoting leadership managing crises and many more It is their new interpretations for the workplace that will make *Fables and the Art of Leadership* a classic in business studies **Aesop's Fables** Aesop, 2002-07-18 The story goes that a sow who had delivered a whole litter of piglets loudly accosted a lioness How many children do you breed asked the sow I breed only one said the lioness but it is very well bred The fables of Aesop have become one of the most enduring traditions of European culture ever since they were first written down nearly two millennia ago Aesop was reputedly a tongue tied slave who miraculously received the power of speech from his legendary storytelling came the collections of prose and verse fables scattered throughout Greek and Roman literature First published in English by Caxton in 1484 the fables and their morals continue to charm modern readers who does not know the story of the tortoise and the hare or the boy who cried wolf This new translation is the first to represent all the main fable collections in ancient Latin and Greek arranged according to the fables contents and themes It includes 600 fables many of which come from sources never before translated into English ABOUT THE SERIES For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe Each affordable volume reflects Oxford's commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more *Selected Fables [of] Jean de la Fontaine* Jean de La Fontaine, 1968 **Fables and Fabulists, Ancient and Modern** Thomas Newbigging, 1896 *Fables and Fabulists Ancient and Modern* The Fable or Apologue has been variously defined by different writers Mr Walter Pater paraphrasing Plato's definition says that fables are medicinable lies or fictions with a provisional or economized truth in them set forth under such terms as simple souls can best receive The sophist Aphthonius taking the same view defines 3 the fable as a false discourse resembling truth The harshness of both these definitions is scarcely relieved by their quaintness To assert that the fable is a lie or a falsehood does not fairly represent the fact A lie is spoken with intent to deceive A fable in its relation can bear no such construction however exaggerated in its terms or fictitious in its characters The meanest comprehension is capable of grasping the humour of the situation it creates Even the moral that lurks in the narration is often clear to minds the most obtuse This is at least true of the best fables Dr Johnson in his *Life of Gay* remarks that A fable or epilogue seems to be in its genuine state a narrative in which beings irrational and sometimes inanimate quod arbores loquantur non tantum fer are for the purpose of moral instruction feigned to act and speak with human interests and passions Dodsley says that tis the very essence of a fable to convey some moral or useful truth beneath the shadow of an allegory Boothby defines the 4 fable as a maxim for the use of common life exemplified in a short action in which the inhabitants of the visible world are made the moral agents G Moir Bussey states that the object of the author is to convey some moral truth to the reader or auditor without usurping the province of the professed lecturer or pedant The

lesson must therefore be conveyed in an agreeable form and so that the moralist himself may be as little prominent as possible Mr Joseph Jacobs says that the beast fable may be defined as a short humorous allegorical tale in which animals act in such a way as to illustrate a simple moral truth or inculcate a wise maxim These various definitions or descriptions apply more especially to the sopian fable and it is with this that we are dealing at present which is par excellence the model of this class of composition Steele declares that the virtue which we gather from a fable or an allegory is like the health we get by hunting as we are engaged in an agreeable pursuit that draws us on with pleasure and makes us insensible of the fatigues that accompany it This is applied to the longer fable or epic such as the Iliad and Odyssey of Homer or the 5 Faerie Queen of Spenser rather than to the fable as the term is generally understood otherwise the simile is somewhat inflated One more definition may be attempted The sopian fable or apologue is a short story either fictitious or true generally fictitious calculated to convey instruction advice or reproof in an interesting form impressing its lesson on the mind more deeply than a mere didactic piece of counsel or admonition is capable of doing We say a short story because if the narration is spun out to a considerable length it ceases to be a true fable in the ordinary acceptation of the term and becomes a tale such for example as a fairy tale Now a fairy or other fanciful tale usually or invariably contains some romance and much improbability it often deals largely in the superstitious and it is not necessarily the vehicle for conveying a moral The very opposite holds good of a fable Although animals are usually the actors in the fable there is an air of naturalness in their assumed speech and actions The story may be either highly imaginative or baldly matter of fact but it never wanders beyond the range of intuitive as opposed to actual or natural experience and it always contains a moral In a word a fable is or ought to be the very quintessence of common sense and wise counsel couched in brief narrative form It partakes somewhat of the 6 character of a parable though it can hardly be described as a parable because this is more sedate in character has human beings as its actors and is usually based on an actual occurrence Though parables are not fables in the strict and limited meaning of the term they bear a close family relationship to them Parables may be defined as stories in allegorical dress The Scriptures both old and new abound with them The most beautiful example in the Old Testament is that of Nathan and the ewe lamb in which David the King is made his own accuser This was a favourite mode of conveying instruction and reproof employed by our Lord Christ often spake in parables and with what feelings of reverential awe must we regard the parables of the Gospels coming as they did from the lips of our Saviour

Monkey Tales Around the World Terry L. Norton,2024-12-03 Here are 63 traditional stories from world folklore about our nearest relatives monkeys and apes As with many tales about other animals those about monkeys and apes sometimes reflect what we as humans admire about ourselves However the stories more frequently embody features that we dislike Whether they depict monkeys and apes as annoying or clever pranksters imitative nuisances and troublemakers loyal and wise friends or heroic and noble characters who sacrifice themselves for others the selections in this anthology about our closest primate kin can tell us much about ourselves and what it means to be human
