The Anti-Dumping Agreement and Developing Countries Aradhna Aggarwal,2006-10-20 In the era of globalization trade policy has become a key development tool and expanding exports a major policy objective for developing countries However pressures for protectionism are threatening to reverse the gains The surge of anti dumping practices in the 1990s in many countries have triggered an intense debate on the anti dumping agreement and its implementation This volume analyses the importance of anti dumping

from a developing country's perspective. The author investigates the use of anti dumping in a comparative framework and reviews the genesis and evolution of the Agreement and its legal provisions. She further discusses the economic and non economic justifications of anti dumping use and empirically analyses the macro economic factors motivating countries to use anti dumping. Finally she examines the wide ranging proposals to reform the WTO anti dumping code. The analysis brings out a bias against developing countries and stresses the need for fundamental reform of current anti dumping rules. The author also reflects on plausible approaches to refine existing provisions and explores the possibility of reform by including a Public Interest Test. She suggests updating the special and differential treatment provisions to remedy existing imbalances.

Design & Applied Arts Index, 1998 **Journal of the National Cancer Institute**, 2010 **Explaining ASEAN** Shaun Narine, 2002. Is ASEAN the foundation of a strong regional community in Southeast Asia? Or is it no more than an instrument used by its members to advance their individual interests? Addressing these questions, Shaun Narine offers a comprehensive political analysis of ASEAN from its creation in 1967 through the events of 2001. Reflecting both the accomplishments and the limitations of the organization, *Explaining ASEAN* explores issues of regional security, economic stability and the growing expectations of the international community. Narine's trenchant analysis makes it clear that unless ASEAN can resolve the problems of inadequate resources and disagreements among the member states, its future as an effective, active international regime is doubtful. **Financial Crisis and Institutional Change in East Asia** Jikun Lai, 2012-06-19.
