Proceedings of the ACSA Annual Meeting Association of Collegiate Schools of Architecture,2001 **Aldo Rossi** Aldo Rossi,1993 Admired as much for his artistic ability as for his architectural skill Rossi has exhibited at galleries around the world **The Urbanism of Frank Lloyd Wright** Neil Levine,2016 This is the first book devoted to Frank Lloyd Wright s designs for remaking the modern city Stunningly comprehensive The Urbanism of Frank Lloyd Wright presents a radically new interpretation of the architect s work and offers new and important perspectives on the history of modernism Neil Levine places Wright s projects produced over more than fifty years within their historical cultural and physical contexts while relating them to the theory and practice of urbanism as it evolved over the twentieth century Levine overturns the conventional view of Wright as an architect who deplored the city and whose urban vision was limited to a utopian plan for a network of agrarian communities he called Broadacre City Rather Levine reveals Wright s larger more varied interesting and complex urbanism demonstrated across the span of his lengthy career Beginning with Wright s plans from the late 1890s through the early 1910s for reforming residential urban neighborhoods mainly in Chicago and continuing through projects from the 1920s through the 1950s for commercial mixed use civic and cultural centers for Chicago Madison Washington Pittsburgh and Baghdad Levine demonstrates Wright s place among the leading contributors to the creation of the modern city Wright s often spectacular designs are shown to be those of an innovative precursor and creative participant in the world of ideas that shaped the modern metropolis Lavishly illustrated with drawings plans maps and photographs this book features the first extensive new photography of materials from the Frank Lloyd Wright Foundation Archives The Urbanism of Frank Lloyd Wright will serve as one of the most important books on the architect for years to come The Publishers' Trade List Annual ,1988 Intertwining: Steven Holl,1996-04 To his earlier articulated concept of anchoring which connects a construction with the history of the ground locale and region Holl adds the concept of intertwining which is illuminated by sensory perceptual conceptual and emotional experiences Illustrates with drawings plans and photographs projects in Japan Finland Germany Switzerland Holland Korea and Norway No index Annotation copyright by Book News Inc Portland OR

Kennedy assassination approaches the traumatic aspects of the tragedy continue to haunt our perceptions of the 1960s One reason for this lies in the home movie of the incident filmed by Abraham Zapruder a bystander who became one of the twentieth century s most important accidental documentarians The first book devoted exclusively to the topic Zapruder traces the journey of the film and its effect on the world s collective imagination Providing insightful perspective as an observer of American culture Norwegian media studies scholar yvind V gnes begins by analyzing three narratives that are projections of Zapruder s images performance group Ant Farm s video The Eternal Frame Don DeLillo s novel Underworld and an episode from Seinfeld Subsequent topics he investigates include Dealey Plaza s Sixth Floor Museum Zoran Naskovski s installation Death in Dallas assassin video games and other artifacts of the ways in which the footage has made a lasting impact on popular culture and the historical imagination V gnes also explores the role of other accidental documentarians such as those who captured scenes of 9 11 Zapruder s footage has never yielded a conclusive account of what happened in Dealey Plaza Zapruder thoroughly examines both this historical enigma and its indelible afterimages in our collective imagination

The New Tenement Florian Urban,2017-10-12 This book examines new tenements dense medium rise multi storey residences that have been the backbone of European inner city regeneration since the 1970s and came with a new positive view on urban living Focusing principally on Berlin Copenhagen Glasgow Rotterdam and Vienna it relates architectural design to an evolving intellectual framework that mixed anti modernist criticism with nostalgic images and strategic goals and absorbed ideas about the city as a generator of creativity locale of democratic debate and object of personal identification This book analyses new tenements in the context of the post functionalist city and its mixed use neighbourhoods redeveloped industrial sites and regenerated waterfronts It demonstrates that these buildings are both generators and outcome of an urban environment characterised by information exchange rather than industrial production individual expression rather than mass culture visible history rather than comprehensive renewal and conspicuous difference rather than egalitarianism It also shows that new tenements evolved under a welfare state that all over Europe has come under pressure but still to a certain degree balances and controls heterogeneity and economic disparities
