Louis XIV Historical Association Pamphlets:

Louis XIV J. H. Shennan, 2005-07-26 Looks at the king and his beliefs domestic problems and foreign policy *Historical Association Pamphlets* Historical Association (Great Britain), 1909 **Historical Association Leaflet**, 1924 **Louis XIV** Richard Wilkinson, 2017-09-19 Louis XIV ruled France for more than half a century and is typically remembered for his absolutism his patronage of the arts and his lavish lifestyle culminating in the building of Versailles This original and lively biography focuses on Louis s personal life while keeping the needs of the history student at the forefront featuring analysis of Louis s wider significance in history and the surrounding historiography This book balances the undeniable cultural achievements of the reign against the realities of Louis s egotism and argues that when viewed critically Louis s rule 1643 1715 personified the disadvantages of absolute monarchy and inexorably led to social and political blunders resulting in the suffering of millions Richard Wilkinson demonstrates that while Louis excelled as a self publicist he fell far short of being a great monarch This second edition includes an up to date and accessible biography further sections on the women at Louis s court France in an international context and new material looking at Louis s involvement in ballet This book is essential reading for all history students and those with a general interest in one of history s most colourful rulers **The Making of Modern Europe, 1648-1780** Geoffrey Treasure, 2003-12-16 In 1640 the term Europe was without real political significance In the following years the idea of Europe came to mean much more a period documented in this fascinating book **Age of Louis XIV** William James Roosen, 2017-07-12 William James Roosen has written the first general study of European diplomacy in the age of Louis XIV which is based on the actual practices and institutions of that era rather than on the writing of early theoreticians Though the seventeenth century may not have been a period of great innovations in international diplomacy it provides us with an important illustration of the workings of a system which was well suited to the gradually changing needs of its time and which has been called the best form of diplomacy ever developed Dr Roosen demonstrates both the obvious differences and the many similarities between diplomatic procedures and practices of the seventeenth century and the twentieth Any student of diplomacy and international relations will gain valuable insight and understanding from this study of the early modern diplomatic personalities institutions and practices One of Dr Roosen s goals in writing this book has been to discover the relationships between the ideological and socioeconomic structures and the diplomatic personalities who have influenced modern diplomacy Further he supplies the only available study of the realities of diplomatic practices in seventeenth century Europe and provides an excellent basis for comparison with twentieth century international relations in the hope that studying early modern diplomatic personalities institutions and practices should increase our understanding of international relations today There are chapters on The States of Europe Kings and Ministers Ambassadors Second Class Diplomats A Typical Early Modern Embassy Information Important Objective of Diplomatic Activity and The Variety of Diplomatic Duties **Louis XIV** G.R.R. Treasure, 2018-10-24 Louis IV represents the

apogee of French royal power and the Ancien Regime Having restored the nation's finances and rebuilt the army he embarked on a series of wars of conquest which made France universally feared and respected as the central power of continental Europe In the age of Moliere Corneille Racine et al French culture blossomed at the court of Versailles The counterpoint to these achievements was the emasculation of the political and legal institutions that might have limited the exercise of the royal will In this new history Geoffrey Treasure explores a unique combination of a personal philosophy moulded by absolutist thinking and propaganda and by Marzarin's deliberate training He examines the influences and traits which permitted the growth of this particular exercise of power and its descent into an absolutism that ultimately set France on the road to 1789 Power and Politics in Old Regime France, 1720-1745 Peter Campbell, 2003-10-04 First Published in 2004 Routledge is an imprint of Taylor Francis an informa company **Proceedings of the Massachusetts Historical Society** Massachusetts Historical Society, 1885 *Catalogue of the library of the State historical society of Wisconsin, by D.S. and I.
