Drawing the Line
Doreen Fowler,2013-05-06 In an original contribution to the psychoanalytic approach to literature Doreen Fowler focuses on the fiction of four major American writers William Faulkner Richard Wright Flannery O Connor and Toni Morrison to examine the father s function as a border figure Although the father has most commonly been interpreted as the figure who introduces opposition and exclusion to the child Fowler finds in these literary depictions fathers who instead support the construction of a social identity by mediating between cultural oppositions Fowler counters the widely accepted notion that boundaries are solely sites of exclusion and offers a new theoretical model of boundary construction She argues that boundaries are mysterious dangerous in between places where a balance of sameness and difference makes differentiation possible In the fiction of these southern writers father figures introduce a separate cultural identity by modeling this mix of relatedness and difference Fathers intervene in the mother child relationship but the father is also closely related to both mother and child This model of boundary formation as a balance of exclusion and relatedness suggests a way to join with others in an inclusive multicultural community and still retain ethnic racial and gender differences Fowler s model for the

father's mediating role in initiating gender race and other social differences shows not only how psychoanalytic theory can be used to interpret fiction and cultural history but also how literature and history can reshape theory

Shakespeare's Tercentenary Monika Smialkowska, 2023-12-21 The worldwide commemorations of the three hundredth anniversary of Shakespeare's death were held amid the global upheaval of the First

World War As empires battled for world domination and nations sought self determination diverse communities vied to claim Shakespeare as their own to underpin their sense of collective identity and cohesion Unearthing previously unknown Tercentenary events in Europe the British Empire and the USA Monika Smialkowska demonstrates that the 1916 Shakespeare commemorators did not speak with one unified voice Tributes by marginalised social ethnic and racial groups often challenged the homogenising narratives of the official celebrations Rather than the traditionally patriotic Bard used to support totalising versions of national or imperial identity this study reveals Shakespeare as a site of debate and contestation in which diverse voices local and global nationalist and universalist militant and pacifist combined and clashed in a fascinating open ended dialogue
