In the Beginning Jerrold E. Levy, 2023-04-28 Jerrold E Levy's masterly analysis of Navajo creation and origin myths shows what other interpretations often overlook that the Navajo religion is as complete and nuanced an attempt to answer humanity's big questions as the religions brought to North America by Europeans Looking first at the historical context of the Navajo narratives Levy points out that Navajo society has never during its known history been either homogeneous or unchanging and he goes on to identify in the myths persisting traditions that represent differing points of view within the society The major transformations of the Navajo people from a northern hunting and gathering society to a farming then herding then wage earning society in the American Southwest were accompanied by changes not only in social organization but also in religion Levy sees evidence of internal historical conflicts in the varying versions of the creation myth and their reflection in the origin myths associated with healing rituals Levy also compares Navajo answers to the perennial questions about the creation of the cosmos and why people are the way they are with the answers provided by Judaism and Christianity And without suggesting that they are equivalent Levy discusses certain parallels between Navajo religious ideas and contemporary scientific cosmology The possibility that in the future Navajo religion will be as much altered by changing conditions as it has been in the past makes this fascinating account all the more timely This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1998 Jerrold E Levy

Wearing the Morning Star Brian Swann, 2005-08-30 With Wearing the Morning Star Brian Swann presents a collection of more than one hundred Native American songs that celebrate the rich and vibrant oral traditions of the Indigenous peoples of North America. These are songs of the earth and the sky, songs of mourning and of love, parts of ceremonies and rites and rituals. Some have familiar themes; others illuminate the complexities and differences of the Native cultures. The collection includes songs of derision and threat, ribald songs, hunting chants, and a song sung by an Inuit about the first airplane he ever saw. Swann has provided an authoritative introduction and notes for each selection that place the songs in their cultural contexts. He has reworked the original translations where appropriate to allow the modern reader to appreciate and enjoy these remarkable works and provides a new preface for this Bison Books edition. **Psychoanalytic Approaches to Myth**
