Cancer Doesn't Knock Verna Acker,2012-12-13 On April 27 2001 at 5 50 am cancer crashed into the near perfect world of Ivan and Verna Acker The doctor said the word cancer and nothing would ever be the same It had always been a word for other people Now it was a word for them The diagnosis was advanced Stage IV non small cell adenocarcinoma lung cancer with brain metastasis The prognosis was poor six to eight months was the expectation The Ackers fought the cancer together They loved and laughed They cried and they prayed Now perfect had a new meaning At 76 years old Ivan was the healthy and happy As patriarch of a huge family of children grandchildren and great grandchildren he had seemed to be invincible and timeless He met the cancer head on If its going to get me its going to have to work really hard This memoir gives the reader direct access to the harrowing struggle the Ackers lived from the day cancer crashed into their lives Walk with them hand in hand through eighteen months of their life Its a long walk Experience the highs and the lows the joys and the sorrows Learn with them There is a lot to learn The story goes beyond their physical and emotional battles It shows the devotion of two people and the power that love and prayer can have over even the greatest odds Walk with them Learn with them Its a long walk There is no map **Life and Loss** Linda Goldman,2013-11-20 Many clinicians recognize that denying or ignoring grief issues in children leaves them feeling alone and that acknowledging loss is crucial part of a child s healthy development Really dealing with loss in productive ways however is sometimes easier said than done For decades Life and Loss has been the book clinicians have relied on for a full and nuanced presentation of the many issues with which grieving children grapple as well as an honest exploration of the interrelationship between unresolved grief educational success and responsible citizenry The third edition of Life and Loss brings this exploration firmly into the twenty first century and makes a convincing case that children s grief is no longer restricted only to loss identified children Children s grief is now endemic it is global Life and Loss is not just the book clinicians need to understand grief in the twenty first century it s the book they need to work with it in constructive ways *Nathan and Oski's Hematology and Oncology of Infancy and Childhood E-Book*
