Natural Selections National Parks In Atlantic Canada 1935 197:

Natural Selections Alan MacEachern, 2001-04-23 *Natural Selections* traces the history of the first four parks in Atlantic Canada through the selection expropriation development and management stages Alan MacEachern shows how the Parks Branch's preconceptions about the landscape and people of the region shaped the parks created there In doing so he details the evolution of the park system from the conservation movement early in the century to the rise of the ecology movement MacEachern analyzes Parks Canada's efforts to fulfill its twin mandates of preservation and use arguing that the agency never favoured one over the other but oscillated between more or less interventionist in ensuring both Touching on a wide range of matters from landscape aesthetics to tourism promotion from DDT to Martin Luther King *Natural Selections* expands our understanding of the relation between nature and culture in the twentieth century Canadians and the Natural Environment to the Twenty-First Century Neil S Forkey, 2012-06-20 *Canadians and the Natural Environment to the Twenty First Century* provides an ideal foundation for undergraduates and general readers on the history of Canada's complex environmental issues Through clear easy to understand case studies Neil Forkey integrates the ongoing interplay of humans and the natural world into national continental and global contexts Forkey's engaging survey addresses significant episodes from across the country over the past four hundred years the classification of Canada's environments by its earliest inhabitants the relationship between science and sentiment in the Victorian era the shift towards conservation and preservation of resources in the early twentieth century and the rise of environmentalism and issues involving First Nations at the end of the century *Canadians and the Natural Environment to the Twenty First Century* provides an accessible synthesis of the most important recent work in the field making it a truly state of the art contribution to Canadian environmental history Wildlife, Conservation, and Conflict in Quebec, 1840-1914 Darcy Ingram, 2013-04-29 Despite the popular assumption that wildlife conservation is a recent phenomenon it emerged over a century and a half ago in an era more closely associated with wildlife depletion than preservation In *Wildlife Conservation and Conflict in Quebec* Darcy Ingram explores the combination of NGOs fish and game clubs and state administered leases that formed the basis of a unique system of wildlife conservation in North America Inspired by a longstanding belief in progress improvement and social order based on European as well as North American models this system effectively privatized Quebec's fish and game resources often to the detriment of commercial and subsistence hunters and fishers J.B. Harkin E. J. Hart, 2010-01-19 Rigorous biography of a prime mover in Canadian parks recreation and wildlife stewardship and conservation **States of Nature** Tina Loo, 2011-11-01 Since the early days of the fur trade wildlife has been powerfully and inspiringly emblematic of Canada Yet the story of saving Canada's wildlife is largely unknown *States of Nature* is one of the first books to trace the development of Canadian wildlife conservation from its social political and historical roots While noting the influence of celebrity conservationists such as Jack Miner and Grey Owl Tina Loo emphasizes the impact of ordinary people on the

evolution of wildlife management in Canada She also explores the elements leading up to the emergence of the modern environmental movement ranging from the reliance on and practical knowledge of wildlife demonstrated by rural people to the more aloof and scientific approach of state sponsored environmentalism Illustrated with evocative images of the Canadian wilderness of yesteryear and supported by historical case studies States of Nature will appeal to historians policy makers and wildlife managers as well as to general readers fascinated by the natural world and its champions Hunters at the Margin John Sandlos,2011-11-01 Hunters at the Margin examines the conflict in the Northwest Territories between Native hunters and conservationists over three big game species the wood bison the muskox and the caribou John Sandlos argues that the introduction of game regulations national parks and game sanctuaries was central to the assertion of state authority over the traditional hunting cultures of the Dene and Inuit His archival research undermines the assumption that conservationists were motivated solely by enlightened preservationism revealing instead that commercial interests were integral to wildlife management in Canada Creating a Modern Countryside James Murton,2011-11-01 In the early 1900s British Columbia embarked on a brief but intense effort to manufacture a modern countryside The government wished to reward veterans of the Great War with new lives soliders and other settlers would benefit from living in a rural community considered a more healthy and moral alternative to urban life But the fundamental reason for the land resettlement project was the rise of progressive or new liberal thinking as reformers advocated an expanded role for the state in guaranteeing the prosperity and economic security of its citizens This ideological shift pushed the government to intervene directly in the management of not only society but also the natural environment As most arable accessible land in British Columbia was already being farmed by 1919 the state had to undertake environmental engineering projects on a scale not yet attempted in the province Creating a Modern Countryside examines how this process unfolded identifies its successes and failures and demonstrates how the human environment relationship of the early twentieth century shaped the province as it is today □ □□□□□□□□□□□ □□□,2021-07-01 Choice ,2001 **Subject Guide to Books in Print** ,1991 Field & Stream ,1986-06 FIELD STREAM America s largest outdoor sports magazine celebrates the outdoor experience with great stories compelling photography and sound advice while honoring the traditions hunters and fishermen have passed down for generations **Field & Stream** ,1986-06 FIELD STREAM America s largest outdoor sports magazine celebrates the outdoor experience with great stories compelling photography and sound advice while honoring the traditions hunters and fishermen have passed down for generations **Popular Mechanics** ,1935-07 Popular Mechanics inspires instructs and influences readers to help them master the modern world Whether it s practical DIY home improvement tips gadgets and digital technology information on the newest cars or the latest breakthroughs in science PM is the ultimate guide to our high tech lifestyle Canadiana ,1985 *Handbook of the Birds of the World: New world vultures to guineafowl* Josep del Hoyo,Andrew Elliott,Jordi Sargatal,1992 New World Vultures to Guineaafowl Pr logo sobre la organizaci n de la informaci n en el Handbook
