Zohar Shavit,2009-11-01 Since its emergence in the seventeenth century as a distinctive cultural system children s literature
has had a culturally inferior status resulting from its existence in a netherworld between the literary system and the
educational system In addition to its official readership children it has to be approved of by adults Writers for children
explains Zohar Shavit are constrained to respond to these multiple systems of often mutually contradictory demands Most
writers do not try to bypass these constraints but accept them as a framework for their work In the most extreme cases an
author may ignore one segment of the readership If the adult reader is ignored the writer risks rejection as is the case of
popular literature If the writer utilizes the child as a pseudo addressee in order to appeal to an adult audience the result can
be what Shavit terms an ambivalent work Shavit analyzes the conventions and the moral aims that have structured children s
literature from the fairy tales collected and reworked by Charles Perrault and the Brothers Grimm in particular Little Red
Riding Hood through the complex manipulations of Lewis Carroll in Alice s Adventures in Wonderland to the subversion of
the genre s canonical requirements in the chapbooks of the eighteenth century and in the formulaic Nancy Drew books of the
twentieth century Throughout her study Shavit explores not only how society has shaped children s literature but also how
society has been reflected in the literary works it produces for its children **Clue of the Broken Locket-Promo ND #11**
