On Being Human And Pleasure And Pain Two Humanistic Works:

On Being Human and Pleasure and Pain Marian G. Kinget, 1999-06-24 In this volume G Marian Kinget's classic work *On Being Human* can be read for the first time in light of a second previously unpublished work *Pleasure And Pain Taken* together these two works offer a new generation of readers a comprehensive picture of the insights principles and goals of humanistic psychology *On Being Human* Kinget's pioneering work which arose from the original humanistic revolution in psychology systematically describes the characteristics that make human beings different from all other forms of life In this work Kinget explores man in his full nature not solely as a biological organism modified by experience and culture She presents a person as a symbolic entity capable of pondering his existence and lending it meaning and direction Man is the only animal who knowingly exists in space and time manifesting transcendental and metaphysical concern throughout history and culture *On Being Human* presents the fundamentals of any valid approach to psychology as well as to other fields concerned with the individuality of the human being It describes the specific human capacities for reflective thought and declarative language and it discusses the unique ability of humans to devise culture and question origins *Pleasure and Pain* considers the interdependence of human pleasure and pain This idea which leads to unnecessary fears and unwarranted expectations goes unrecognized in a contemporary western society focused on the accumulation of pleasure without any awareness of the duality of the pleasure pain experience Kinget refutes the widespread fallacy that fun lies in the means when it actually lies in the subject and she discusses the human potential for autonomous management of the pleasure pain dimension of human existence

The Master-Myth of Modern Society Marian G. Kinget, 2000-01-10 *The Master Myth of Modern Society* extends the late Dr Kinget's life work as professor psychotherapist and author Defining myth as a perennial psycho social phenomenon that expresses an internal compulsion towards understanding the unknown Kinget one of the original humanistic psychologists argues that the rhetoric ideology and mystique surrounding modern science constitutes the master myth of our times She evaluates science as myth in terms of both its beneficial effects and its debilitating qualities Along these lines Kinget views the notion of objectivity as an essential element of this myth noting that the questions we ask and the answers we seek are constantly being reconstructed according to spiritual need With a bibliography of time honored authors this short work can serve as a springboard for further exploration of human beings traditional and modern mentality as expressed in myths society religion and psychological queries Relevant for understanding contemporary society this book will be of value to students of psychology sociology anthropology and integrated social sciences

Soul, God and Buddha in Language of Science Mathura Prasad, 2017-04-18 The Buddha answers all questions that a scientist like Stephen Hawking has in his mind Two beginning less self existent entities are the Universe and the Buddha Field At high energy level both covert in to each other The Buddha Field gives birth to physical and psychic particles souls At high energy level a soul converts in to the Buddha Field Mass is of two kinds Positive mass is due to souls A soul is cause of dark matter Gravitational force is repulsive in nature between two souls attractive between matters Outer region of the Universe is dark because here beings are without material bodies Here TIME does exist BUT without SPACE Psychic matter is the cause of Expanding Universe God s atom does exist All heavenly bodies including black holes are abodes of beings Stars are born due to gravitational instability in the Orion Nebula caused by God Number of God is uncountable in the Universe Very soon the world will see all religions barring Buddhism Marxism and all other Wrong Views dying of natural death I have dedicated this book to Stephen Hawking one of the brilliant theoretical physicists since Einstein

The Pool Group and the Quest for Anthropological Universality Betsy van Schlun, 2016-11-21 Pool was an avant garde group that originated in 1927 in Britain and was active under this name until 1933 The group consisted of the well known modernist poet H D the English writer Bryher and the young Scottish writer and artist Kenneth Macpherson All three were first and foremost writers who at one point discovered film as another modern experimental medium of artistic expression Pool associated with almost all the iconic modernists of their time with Ezra Pound Gertrude Stein Ernest Hemmingway James Joyce Marianne Moore William Carlos Williams T S Eliot and Virginia Woolf to name only a few In addition due to their interest in film they were also befriended with such influential filmmakers as Sergei Eisenstein and Georg Wilhelm Pabst and became closely associated

with Weimar Berlin film culture Pool unites classical Modernism and modernity two directions that are usually considered to be contradictory The Pool phenomenon opens a new perspective onto Modernism and prompts a reconsideration of its canonical texts and figures Contrary to many artists of Modernism who devised highly individualistic aesthetic styles the artists of Pool strove towards a universal art of humanity that was rooted in all human nature and psychology

Sociological Paradigms and Organisational Analysis Gibson Burrell, Gareth Morgan, 2017-03-02 The authors argue in this book that social theory can usefully be conceived in terms of four broad paradigms based upon different sets of meta theoretical assumptions with regard to the nature of social science and the nature of society The four paradigms Functionalist Interpretive Radical Humanist and Radical Structuralist derive from quite distinct intellectual traditions and present four mutually exclusive views of the social world Each stands in its own right and generates its own distinctive approach to the analysis of social life The authors provide extensive reviews of the four paradigms tracing the evolution and inter relationships between the various sociological schools of thought within each They then proceed to relate theories of organisation to this wider background This book covers a great range of intellectual territory It makes a number of important contributions to our understanding of sociology and organisational analysis and will prove an invaluable guide to theorists researchers and students in a variety of social science disciplines It stands as a discourse in social theory drawing upon the general area of organisation studies industrial sociology organisation theory organisational psychology and industrial relations as a means of illustrating more general sociological themes In addition to reviewing and evaluating existing work it provides a framework for appraising future developments in the area of organisational analysis and suggests the form which some of these developments are likely to take

responsibility CSR sustainability and responsible management After Taste Slavko Kacunko, 2021-06-03 After Taste is an inquiry into a field of study dedicated to the reconsideration reconstruction and rehabilitation of the concept of Taste Taste is the category whose systematic historical and actual dimensions have traditionally been located in a variety of disciplines The actuality and potential of the study is based on a variety of collected facts from readings and experiences which materialize in the following features One concept figurative Taste two thinking traditions analytic and synthetic continental and three interrelated dimensions systematic historic and actual are presented in three parts or volumes As such the study presents a salient comprehensive companion for wider readership of humanities approaching conceptions of Taste for the first time Moreover After Taste is intended for anyone who hopes to make a further contribution to the subject Since its appearance and apparently short triumph some 250 years ago the concept of non literary Taste remained the linchpin of aesthetic theory and practice but also a category outreaching aesthetics Taste as the personal unity of the production theory and criticism of art and literature which was still largely taken as a given in the eighteenth century has meanwhile given way to a highly differentiated art world in which aesthetic discourse is placed in such a way that it can seemingly no longer have a conceptual or linguistic effect on general opinion making After Taste fills the gaps of systematic research by a comprehensive tracing of the emergence of the doctrines discourses and disciplinary dimensions of Taste up to the peak of its systematic and historical trajectory in the eighteenth century and onwards into the present day The guiding goal is a post disciplinary rehabilitation of the contested category as a preparation for its productive usage in emerging academic and popular contexts It shows how the category of Taste became the foundation legitimation and the catalyst for the emerging division of labour faculties and disciplines confirming the hypothesis of the immense impact and actuality of Taste in the contemporary world
