The Invisible

Brain Injury Aurora Lassaletta Atienza, 2019-11-01 The Invisible Brain Injury recounts in her own words the experience of Aurora Lassaletta a clinical psychologist who suffered a traumatic brain injury TBI after a traffic accident Presenting her unique dual perspective as both a patient and a clinician Aurora highlights the less visible cognitive emotional and behavioural symptoms common to acquired brain injury ABI This moving account showcases Aurora s growing awareness of her impairments their manifestation in daily life how they are perceived or not by others and the tools that helped her survive Each chapter combines Aurora s perspective with the scientific view of a professional neuropsychologist or physiatrist who provide commentaries on her various symptoms This book is valuable reading for professionals involved in neurorehabilitation and clinical neuropsychology and for clinical psychology students It is a must read for ABI survivors those around them and clinicians who are all an essential part of the rehabilitation adjustment and acceptance process involved with ABI

Contemplating Dis/Ability in Schools and Society David J. Connor, 2018-07-15 This book chronicles the professional life of a career long inclusive educator in New York City through eight different stages in special and general education Developing a new approach to research as part of qualitative methodology David J Connor merges the academic genre of autoethnography with memoir to create a narrative that engages the reader through stories of personal experiences within the professional world that politicized him as an educator After each chapter s narrative a systematic analytic commentary follows that focuses on teaching and learning in schools and universities the influence of educational laws specific models of disability and how influence educators and educational researchers and educational structures and systems including their impact on social political and cultural experiences of people with disabilities This autoethnographic memoir documents over three decades the relationship between special and general education the growth of the inclusion movement and the challenge of special education as a discrete academic field As part of a national group of critical special educators Connor describes the growth of counter theory through the inception and subsequent growth of DSE as a viable academic field and the importance of rethinking human differences in new ways

Blossoming Into Disability Culture

Following Traumatic Brain Injury Dee Phyllis Genetti, 2024-01-12 This book tells the author s story of her ten year journey of recovery and identity transformation from Traumatic Brain Injury TBI Dr Dee is a survivor who regained the ability to articulate what many TBI survivors cannot and this powerful account provided in real time portrays the many seemingly unrelatable symptoms of brain injury and subsequent post traumatic stress disorder PTSD Dr Dee portrays how events pushed her beyond her limits and resulted in life altering learning experiences revealing a process of first figuring out how to live then making meaning of her struggle When half way through her PhD program Dr Dee was crashed into by a car travelling at 65 miles per hour She suffered a TBI She lost her ability to read and write She had a severe speech impediment and significantly impaired memory Her journey of recovery described in the book as her trek spans four significant periods The road begins with the loss of most of herself Diagnosis and evolving symptoms show her broken pathway The author goes

through a rocky road of changes in her relationships and reidentification of herself as she finds her life coach re learns to read and write and deals with mental health issues that felt like the end of her recovery The final trek reveals hope and posttraumatic growth PTG and showcases the value of Disability Culture as a source of pride This story is for fellow TBI survivors their caretakers families and friends and professionals in the neurorehabilitation field It brings light to the daunting changes after TBI and give hope for all who tread on this challenging path *Traumatic Brain Injury Rehabilitation*

Christine Lefaivre,2014-08-07 The Lefaivre Rainbow Effect is a groundbreaking treatment for those suffering from a traumatic brain injury TBI This strategy is different from most others because it is individually designed for each client and focuses on the cognitive retraining of the brain based on pre injury lifestyle as well as the organic damage to the brain rather than *The Veterans and Active Duty Military Psychotherapy Treatment Planner* Bret A. The Oxford Handbook of Rehabilitation Psychology Paul Kennedy, 2012-08-16 Rehabilitation psychology is one of the fastest growing fields in applied psychology In this book the editor has successfully brought together a range of well established international and experienced researchers and practitioners to provide a guide to best practice clinical management and the wider professional themes and issues

Reconstructing Illness Anne Hunsaker Hawkins, 1999 Serious illness and mortality those most universal unavoidable and frightening of human experiences are the focus of this pioneering study which has been hailed as a telling and provocative commentary on our times As modern medicine has become more scientific and dispassionate a new literary genre has emerged pathography the personal narrative concerning illness treatment and sometimes death Hawkins's sensitive reading of numerous pathographies highlights the assumptions attitudes and myths that people bring to the medical encounter One factor emerges again and again in these case studies the tendency in contemporary medical practice to focus primarily not on the needs of the individual who is sick but on the condition that we call disease Pathography allows the individual person a voice one that asserts the importance of the experiential side of illness and thus restores the feeling thinking experiencing human being to the center of the medical enterprise Recommended for medical practitioners the clergy caregivers students of popular culture and the general reader *Reconstructing Illness* demonstrates that only when we hear both the doctor's and the patient's voice will we have a medicine that is truly human

Discovering My Life's Purpose: From Tragedy to Triumph! Bridgid Ruden ARNP, 2016-10-19 Bridgid's presentation as a Traumatic Brain Injury TBI survivor is profound miraculous and engaging Her voice of expression paints the terrain of every emotion that one goes through when life presents a major shift in who you are what you do and how you navigate through life one breath at a time Bridgid threads the lively and interactive presentation with truth tears laughter authenticity One walks away from her presentation marveling with awe at how strong and amazing she is to have survived such an intense journey of healing Perhaps we all are touched by an angel when you hear her story Dr Jane F Bourgeois Bridgid you are a miracle I remember as your physician telling you these words in our clinic as I reviewed your brain CT scan from your initial head injury Although you are not alone in suffering a significant traumatic head injury I believe that you are unique in your positive approach to your recovery your

dedication to sharing your experience and your commitment to helping and motivating others to overcome their own life obstacles and adversity As a physician I deeply and sincerely admire your efforts and your positive attitude in dealing with a truly difficult and challenging personal experience I am always pleased to hear of the many positive life changes that have occurred for you as you continue on your journey towards recovery I also always get a kick out of your ability to share your experiences with the medical system and in our clinic when you speak publically I wish you good luck and great success on your book Discovering a Life s Purpose and I hope that your message of hope recovery and optimism reaches as many people as possible so that they can benefit from your experience wisdom and wit Although we sometimes are witness to events that are miraculous sometimes the real miracles are people like you Dr Andrew Lee
