*The Royal Over-seas League* Adele Smith, 2009-10-30 In 1910 when Evelyn Wrench founded the Royal Over Seas League King George V was on the throne the British Empire seemed invincible

and for most people international travel was a new and exciting opportunity One hundred years later the world and Britain's place in it has been transformed almost beyond recognition Yet the League has weathered all these changes and now enters its second century with a renewed sense of energy and purpose How has the ROSL developed since 1910 and responded to the fundamental shift from Empire into Commonwealth What are the enduring aims and values shared by all members of the League which inform its activities And how will it continue to evolve and find its place over the next hundred years This engaging and concise history of the first hundred years of the Royal Over Seas League is lavishly illustrated with images from all aspects of the League's life and full of lively anecdotes about the many distinguished figures who have played a part in its creation From Cecil Rhodes and John Ruskin sources of inspiration to Evelyn Wrench to Lord Northcliffe Lord Baden Powell and Earl Mountbatten amongst many others who have been active in the League's development the story also includes the many artists musicians and writers who owe much to Royal Over Seas League sponsorship of their early careers A delightful commemoration of the rich history of the Royal Over Seas League it will inform and entertain anyone who is curious to find out more about this distinctive and important organization

### **The History and Romance of Crime. Prisons Over Seas**

Arthur Griffiths, 2016-09-01 It will hardly be denied after an impartial consideration of all the facts I shall herein set forth that the British prison system can challenge comparison with any in the world It may be no more perfect than other human institutions but its administrators have laboured long and steadfastly to approximate perfection Many countries have already paid it the compliment of imitation In most of the British colonies the prison system so nearly resembles the system of the mother country that I have not given their institutions any separate and distinct description No doubt different methods are employed in the great Empire of India but they also are the outcome of experience and follow lines most suited to the climate and character of the people for whom they are intended Cellular imprisonment would be impossible in India Association is inevitable in the Indian prison system Again it is the failure to find suitable European subordinate officers that has brought about the employment of the best behaved prisoners in the discipline of their comrades a system as I have been at some pains to point out quite abhorrent to modern ideas of prison management As for the retention of transportation by the Indian government when so clearly condemned at home it is defensible on the grounds that the penalty of crossing the sea the Black Water possesses peculiar terrors to the Oriental mind and the Andaman Islands are moreover within such easy distance as to ensure their effective supervision and control Nearer home we may see Austria adopting an English method the movable or temporary prison by the use of which such works as changing the courses of rivers have been rendered possible and the prison edifices of Lepoglava Aszod and Kolosvar erected in imitation of Chattenden Borstal and Wormwood Scrubs

The History and Romance of Crime: Prisons Over Seas Arthur George Frederick Griffiths, 2020-09-28 It will hardly be denied after an impartial consideration of all the facts I shall herein set forth that the British prison system can challenge comparison with any in the world It may be no more perfect than other human institutions but its administrators have laboured long and

steadfastly to approximate perfection Many countries have already paid it the compliment of imitation In most of the British colonies the prison system so nearly resembles the system of the mother country that I have not given their institutions any separate and distinct description No doubt different methods are employed in the great Empire of India but they also are the outcome of experience and follow lines most suited to the climate and character of the people for whom they are intended Cellular imprisonment would be impossible in India Association is inevitable in the Indian prison system Again it is the failure to find suitable European subordinate officers that has brought about the employment of the best behaved prisoners in the discipline of their comrades a system as I have been at some pains to point out quite abhorrent to modern ideas of prison management As for the retention of transportation by the Indian government when so clearly condemned at home it is defensible on the grounds that the penalty of crossing the sea the Black Water possesses peculiar terrors to the Oriental mind and the Andaman Islands are moreover within such easy distance as to ensure their effective supervision and control Nearer home we may see Austria adopting an English method the movable or temporary prison by the use of which such works as changing the courses of rivers have been rendered possible and the prison edifices of Lepoglava Aszod and Kolosvar erected in imitation of Chatham Borstal and Wormwood Scrubs France has also constructed in the outskirts of Paris a new prison for the department of the Seine and she may yet find that the British progressive system is more effective for controlling habitual crime than transportation to New Caledonia In a country where every individual is ticketed and labelled from birth where police methods are quite despotic and the law claims the right in the interests of the larger number to override the liberty of the subject the professional criminal might be held at a tremendous disadvantage It is true that the same result might be expected from the Belgian plan of prolonged cellular confinement but as I shall point out this system is more costly and can only be enforced with greater or less but always possible risks to health and reason
