**Overcoming Modern Confusion** Adolfo

Critto,1999-04-15 Overcoming Modern Confusion calls for a conscious and proper exercise of consistency to systematize the process of making choices so that better decisions can be made to improve social norms and life in general Adolfo Critto brings together the suggestions of scholars in nearly every discipline to propose the best possible method for integrating a consistency model He proposes a process of freely shaping thoughts desires decisions and actions in accordance with an overarching system of reality to successfully achieve human development and fulfillment Critto also warns against potential misuses of consistency citing cases from the past Overall he encourages the building of broad consistent frameworks that reflect the all encompassing system of reality stressing the integration of findings by various groups to advance the highest quality of information from research and leading to the most accurate decision making

**Choosing Models of Society and Social Norms** Adolfo Critto,1999 Choosing Models of Society and Social Norms offers an innovative approach to social norms and decision making that encourages the identification of social norms along with their causes and consequences Adolfo Critto points out that social norms condition behavior but are also conditioned by human decisions He notes that social norms generally only provide partial and temporary solutions to human needs and problems so must be critically analyzed in order to understand their relationship to decision making Critto approaches this relationship through sacred focused on transcendent ends and expedient focused on efficient means value orientations warning that a one sided focus on either of these orientations leads to inconsistency He stresses the importance of language communication and education showing how they relate to social norms Through his analysis the author provides an understanding of the creation of social norms what influences them and the evaluation of those that already exist

**Consistency** Adolfo Critto,2000 Each day human beings are faced with innumerable choices In Consistency Adolfo Critto argues that human beings seldom consider their options rationally within a proper context Rather than considering fragments of information as absolutes such as power money prestige etc this book demonstrates how critical judgement involves questioning assumptions and integrating them into a unified whole A practical work it is a coherent guide to contemporary sociological issues
