America's Overpopulation Predicament: Blindsiding Future Generations Frosty Wooldridge,2021-03-02 America's Overpopulation Predicament Blindsiding Future Generations The subject of this book will profoundly and adversely affect every man woman and child on earth by 2050 Most of us have experienced a situation when we or someone we know has some critical knowledge to share that needs immediate action only to be told to wait our turn as other irrelevant topics are given attention This author asks for his findings to be heard against an ocean of mediocrity as he relates his personal eye opening experiences from all over the world with similar emotion I suspect as Newton felt when he suddenly understood the force of gravity or that of Archimedes when he shouted Eureka as he suddenly understood the method for measuring precious metal content in an object Like the seer who catches a glimpse into the future Wooldridge finds it hard to limit his efforts to the written word For here we find as compelling a case for massive and immediate action as ever there was one Here is a subject matter so extraordinary that it should be shouted from every rooftop The information this book contains is imperative and irrefutable It destroys the impotent etchings of any clay or gold tablets as a roadmap for humanity Man or woman young or old it will entreat you to look ahead without bias to the stark reality of what is ahead for our nation and our world Packed with references to support his case and literally floating above contrary voices like whitecaps on the ocean Wooldridge advances the case for the salvation of modern civilization He suggests courses of action that will ultimately prove to be the only way to prevent humanity from vanishing like dust in the wind K R Hampshire Researcher and Entrepreneur Denver Colorado **The Origins of Living Planets** Alexander J. Endress,2019-12-05 I try to convince my reader that Earth is so special and unique that it's worth saving I do this by starting out with space travel distance to other planets the very low likelihood of aliens visiting us The book comes in two sections first section is about the unlikelihood and difficulties of space travel the second section is about environmental damage and species endangerment We can't just pick up and move to another planet Powerful Times Eamonn Kelly,2005-09-22 Understand the most revolutionary human transformation in four centuries and prepare for it We're not just living through an age of change we're living through a change of age the most profound inflection point in human history since the Enlightenment That's the thesis of Eamonn Kelly's remarkable new book Powerful Times From terrorism and nuclear proliferation to emerging technologies and economic globalization Kelly weaves together 7 powerful dynamic tensions that will reshape human life in the coming decades Kelly offers breakthrough insights into how these tensions will conflict and how they'll resonate creating giant waves of change beyond anything we've ever faced He takes on the truly big questions To answer pivotal questions Kelly draws on breakthrough scenario planning

techniques he pioneered techniques hundreds of top organizations now rely on Simply put this book will help you prepare for humanity's most profound transition in 400 years For every executive strategist manager entrepreneur public policymaker and citizen interested in the trends that will most powerfully impact business and life in the coming decades Eamonn Kelly the CEO and president of Global Business Network the renowned future oriented network and consulting firm has for over a decade and has been at the forefront of exploring the emergence of a new knowledge intensive economy and its far reaching consequences for society organizations and individuals He has consulted with senior executives at dozens of the world's leading corporations in virtually every leading business sector with key global and national public agencies and with major philanthropic foundations Kelly co authored *What's Next Exploring the New Terrain for Business and The Future of the Knowledge Economy* and authored *GBN's 2003 Scenario Book* **American Book Publishing Record** ,2002

Environmental Issues Surrounding Human Overpopulation Singh, Rajeev Pratap, Singh, Anita, Srivastava, Vaibhav, 2016-12-12 There are many factors to be considered when examining the current state of environmental problems in the modern world By addressing these causes the preservation of ecosystems and environmental resources can be maintained *Environmental Issues Surrounding Human Overpopulation* is an authoritative reference source for the latest scholarly research on the depletion of natural resources due to overpopulation and presents insights on how these environmental threats can be addressed Highlighting technological economic and social perspectives this book is ideally designed for policymakers researchers academics students and practitioners interested in better understanding the current state of the global environment *Forsaken Earth: The Ongoing Mass Extinction* Paul Sequoia Rauch, 2016-07-28 The Ongoing Mass Extinction of species is the most overriding issue on Earth transcending and encompassing all others It's already proven there's no debate It is a monumental event occurring right now and escalating its culmination set to happen within most of our lives *Forsaken Earth* delves deeply into this matter like no other that the worst of this earth shattering extinction event might still be avoided *Forsaken Earth* fully reveals that humans are undeniably causing and allowing this event to happen and that we are the only ones who can and must stop it Everything you ever wanted to know about our gorgeous Earth to the history of the cultural ideology at the root of the problem to the effect upon every ecosystem of Earth is written in this one potent volume *Forsaken Earth* provides more solutions than any yet offered and leads us to discover and activate our most meaningful purpose individually and as humanity to participate and truly support the healing of life on Earth now *Rationing Earth* Herb Bentz, 2016-12-12 Our economy has spiralled out of control with too much focus on the quantity of production The way to reduce this wasteful overproduction of goods and services is to increase their quality In this groundbreaking book industrial designer Herb Bentz explains how to fix the economy and break the environment versus economy deadlock Bentz tells us how the use of good design can improve the quality of what we produce and how a beneficial growth in quality can substitute for the destructive increase in quantity Tying together many diverse aspects of the

economy economic growth unemployment the welfare state and the need to ration Rationing Earth provides a critical analysis and a way forward at this crucial moment Despite high wealth in rich countries there is still poverty and inadequate funding for social programs This unjustified austerity has resulted in a persistence of economic insecurity the proliferation of poor quality products and inadequate action on environmental problems Bentz provides an economic solution from a designer's perspective By using elements of design thinking to achieve an overarching synthesis of the world's challenging problems including effectiveness of government the opposing demands of capital and labour positive and negative effects of technology and the absolute boundaries of a finite earth he presents practical solutions to the conflicting needs for economic growth full employment and reduced consumption In each of these areas Rationing Earth addresses the toughest questions How will we adapt to less economic growth How do we solve unemployment What is the proper role of government And how can we create an economy that effectively rations scarce resources without reducing prosperity Bentz blends an entertaining style with a concise but broad analysis that is provocative informative and pertinent to anyone interested in economic change that has a positive impact on the environment

What Can I Do to Help Heal the Environmental Crisis? Haydn

Washington, 2019-10-01 The culmination of over three decades of writing by environmental scientist and writer Haydn Washington this book examines the global environmental crisis and its solutions Many of us know that something is wrong with our world that it is wounded At the same time we often don't know why things have gone wrong or what can be done Framing the discussion around three central predicaments the ecological the social and the economic Washington provides background as to why each of these are in crisis and presents steps that individuals can personally take to heal the world Urging the reader to accept the reality of our problems he explores practical solutions for change such as the transition to renewable energy rejection of climate denial and the championing of appropriate technology as well as a readjustment in ethical approaches The book also contains 19 solution boxes by distinguished environmental scholars With a focus on positive personal solutions this book is an essential read for students and scholars of environmental science and environmental philosophy and for all those keen to heal the world and contribute towards a sustainable future
