A New Federal Convention James Schouler, 1898

White Balance Justin Gomer, 2020-04-17 The racial ideology of colorblindness has a long history In 1963 Martin Luther King famously stated I have a dream that my four little children will one day live in a nation where they will not be judged by the color of their skin but by the content of their character However in the decades after the civil rights movement the ideology of colorblindness co opted the language of the civil rights era in order to reinvent white supremacy fuel the rise of neoliberalism and dismantle the civil rights movement's legal victories without offending political decorum Yet the spread of colorblindness could not merely happen through political speeches newspapers or books The key Justin Gomer contends was film as race conscious language was expelled from public discourse Hollywood provided the visual medium necessary to dramatize an anti civil rights agenda over the course of the 70s 80s and 90s In blockbusters like Dirty Harry Rocky and Dangerous Minds filmmakers capitalized upon the volatile racial social and economic struggles in the decades after the civil rights movement shoring up a powerful bipartisan ideology that would be wielded against race conscious policy the memory of black freedom struggles and core aspects of the liberal state itself

Law's Allure Gordon Silverstein, 2009-02-09 Law's Allure explains how when and why America's reliance on legal rules and judicial decisions shapes constrains saves and sometimes even kills politics

Packing the Court James Macgregor Burns, 2009-06-25 From renowned political theorist James MacGregor Burns an incisive critique of the overreaching power of an ideological Supreme Court For decades Pulitzer Prize winner James MacGregor Burns has been one of the great masters of the study of power and leadership in America In Packing the Court he turns his eye to the U S Supreme Court an institution that he believes has become more powerful and more partisan than the founding fathers ever intended In a compelling and provocative narrative Burns reveals how the Supreme Court has served as a reactionary force in American politics at critical moments throughout the nation's history and concludes with a bold proposal to rein in the court's power

The Savage Side B. Jill Carroll, 2001 In this book B Jill Carroll uses the nature writing of Annie Dillard and the philosophical categories of Emmanuel Levinas to critique the models of God that drive

contemporary political theologies especially feminist and liberation theologies These political theologies ignore the amoral and often harsh aspects of our existence in the natural world even though they often align God with the cosmos Political theologies excise from their models of God all notions of violence indifference to social justice or general amorality in favor of models that support and advance specific social political and economic ideologies Such domestication of God does not do justice to the hard facts of our existence in the natural world nor does it fully plumb the depths of using nature to metaphorize God Furthermore Carroll argues that current political models of God do not survive the most important critiques of religion in the modern era namely those leveled by Feuerbach Freud and Nietzsche Instead the God of the oppressed stands tall among any number of gods that exist primarily as projections of our best selves illusions rooted in wish fulfillment and attempts to further our own personal goals by claiming the universe is on our side The Savage Side offers us a glimpse of a natural theology uninterested in apologetics but thoroughly obsessed with using the natural world as a springboard for describing God The God that emerges is wildly beautiful terrifyingly indifferent to political or moral ideology the consummate Other and the ultimate ground of our being This book demands to be read by anyone interested in the relationship between religion and politics especially those who have given themselves to the cause of social justice in the name of God Readers will be challenged to let go of comfortable but outdated notions of deity despite their convenience for the advancement of certain social and political goals like gay and lesbian rights women's rights or third world liberation Indeed the claim that God is on our side emerges as the most problematic claim of contemporary constructive theology

Legitimation by Constitution
Frank Michelman, Alessandro Ferrara, 2021-11-22 Legitimation by Constitution is the phrase coined by distinguished authors Frank Michelman and Alessandro Ferrara for a key idea in Rawlsian political liberalism of a reliance on a dualist form of democracy a subjection of ground level lawmaking to the constraints of a higher law constitution that most citizens could find acceptable as a framework for their politics as a response to the problem of maintaining a liberally just stable and oppression free democratic government in conditions of pluralist visionary conflict Legitimation by Constitution recalls collects and combines a series of exchanges over the years between Michelman and Ferrara inspired by Rawls encapsulation of this conception in his proposed liberal principle of legitimacy From a shared standpoint of sympathetic identification with the political liberal statement of the problem for which legitimation by constitution is proposed as a solution these exchanges consider the perceived difficulties arguably standing in the way of this proposal's fulfillment on terms consistent with political liberalism's defining ideas about political justification The authors discuss the mysteries of a democratic constituent power the tensions between government by the people and government by consent the challenges posed to concretization by judicial authorities of national constitutional law and the magnification of these tensions and challenges under the lenses of ambition towards transnational legal ordering These discussions engage with other leading contemporary theorists of liberal democratic constitutionalism including Bruce Ackerman Ronald Dworkin and Jürgen Habermas

Away With All Gods! Bob Avakian, 2008-04-01 Is believing in gods actually harmful How has Christianity for centuries served as an ideology of conquest and subjugation Why is the Bible Belt in the U S also the lynching belt Why is there a rise of religious fundamentalism throughout the world In the intensifying conflict between U S imperialism and Islamic fundamentalism is the only choice to take one side or the other Why is patriarchy and the oppression of women foundational to so many religions Can people be good without god These are just some of the questions explored in this provocative work by Bob Avakian Bringing a unique revolutionary communist voice to the current discourse about god atheism and morality Avakian demystifies religious belief and examines how even in its most progressive interpretations religion stands in the way of the emancipation of humanity A thread deeply woven throughout Away With All Gods is the need to fully rupture with all forms of superstition and to take up instead a truly scientific approach to understanding and transforming reality Whether you believe in god or are an agnostic or an atheist Bob Avakian will challenge you with his powerful critique of long established traditions and his liberating vision of a radically different world State of White Supremacy Moon-Kie

Jung, João H. Costa Vargas, Eduardo Bonilla-Silva, 2011-03-07 The deeply entrenched patterns of racial inequality in the United States simply do not square with the liberal notion of a nation state of equal citizens Uncovering the false promise of liberalism State of White Supremacy reveals race to be a fundamental if flexible ruling logic that perpetually generates and legitimates racial hierarchy and privilege Racial domination and violence in the United States are indelibly marked by its origin and ongoing development as an empire state The widespread misrecognition of the United States as a liberal nation state hinges on the twin conditions of its approximation for the white majority and its impossibility for their racial others The essays in this book incisively probe and critique the U S racial state through a broad range of topics including citizenship education empire gender genocide geography incarceration Islamophobia migration and border enforcement violence and welfare
