Owl The Elephant And The Other Side Of The Mountain:

Respectfully Quoted James H. Billington, Library of Congress, 2010-01-01 A treasury of thought provoking declarations and observations features a splendid variety of political scientific social and literary voices Quoted historical figures include Paine Milton Emerson Marx Napoleon Dickens and Churchill **Annals of Iowa** ,2001 The Owl, the Elephant, and the Other Side of the Mountain Virgil Lagomarcino, 1997 A recollection of the life and experiences of Virgil Lagomarcino It includes real life anecdotes and examines Lagomarcino's wide experiences and travels but the centerpiece of the book is Iowa State where he served at the university there and tells with passion of the people he has known **Alone Among Friends** Robert Underhill, 1999 With a foreword by former Iowa Governor Robert D Ray Alone Among Friends takes a look at the fascinating life of W Robert Parks president of Iowa State University for over 20 years But as we discover very quickly the life of a president and the life of his university are intertwined In the first chapter we learn about the origin of the land grant university the idea that Iowa's sons and daughters deserved an opportunity for higher education In quick response to the Morrill Act of 1862 the Iowa Legislature pushed to form a bill that authorized a charter in spite of squabbles over location and debates over mission The subsequent history of the first land grant university in the United States serves as a backdrop to the arrival of the man who would guide the university through years as turbulent as any it would endure W Robert Parks came into the presidency during the upheaval of the 1960s a time when being a university president was a high risk profession A man of perseverance his personal and professional style displayed the strong values that guided many and inspired others in careers that contributed to the fields of education agriculture the humanities and engineering to name a few Alumni students and those who love Iowa will find rich nuggets of history and philosophy reflected in the life of such an inspiring man **The View from Afar** Claude Lévi-Strauss, 1992-12 This collection touches on a wide range of anthropological issues including family and marriage myths and rites the environment and its representation and constraint and freedom The essays encompass more than forty years of analysis and constrain arguments that are as relevant today as they were thirty years ago Hardly a field remains untouched sociobiology linguistics botany genetics psychiatry esthetics ecology politics neuroscience education morality psychology It's all breathtaking and alarming some of it wonderful some of it ridiculous At times the experience is exhilarating Richard A Shweder New York Times Book Review Readings for A History of Anthropological Theory Paul A. Erickson, Liam Donat Murphy, 2010-01-01 This comprehensive anthology presents 40 readings that are critical to an understanding of anthropological theory and the development of anthropology as an academic discipline The readings have broad anthropological appeal emphasizing social and cultural anthropology The third edition has been completely revised throughout and organized to work more closely alongside the companion overview text A History of Anthropological Theory It includes six new readings as well as two original essays written by contemporary anthropologists on Why Theory Matters These new essays help ground the more abstract readings in the collection The

glossary has been significantly expanded and the discussion questions have been revised The result is a volume that offers not only a strong foundation in the history of the discipline but also a good overview of developments in twentieth and twenty first century anthropological theory including feminist anthropology postmodernity medical anthropology globalization postcolonialism and public anthropology

Holy Cow! Boze Hadleigh, 2015-05-12 We love animals but insult humans by calling them everything from weasels or pigs to sheep mice chickens sharks snakes and bird brains Animal epithets words and phrases are so widespread we often take them for granted or remain ignorant of the fascinating stories and facts behind them Spanning the entire animal kingdom *Holy Cow* explains Why hot dogs are named after canines Why people talk turkey or go cold turkey Why curiosity killed the cat although dogs are more curious about us Why letting the cat out of the bag originally referred to a duped shopper What a horse of another color is what horse feathers politely alludes to why a mule is a lady's slipper and what horseradish has to do with horses Why the combination of humans and cows probably led to capitalism its name from Latin for head as in heads of cows Why holy cow and sacred cow have almost opposite meanings Whether people actually chewed the fat or ate crow and why it's a crowbar How a hog became a motorcycle and a chick a young woman What happens to freeze the balls off a brass monkey What buck has to do with being naked Why the birds and the bees Why a piggy bank and why one feeds the kitty What lame ducks have to do with U S presidents How red herring came about via activists opposed to fox hunting Where snake oil popular in the 1800s and rich in Omega 3 fatty acids came from That the proverbial fly in the ointment goes back to the Bible's Ecclesiastes 10:1 How Swiss watchmakers created teeny weeny coaches for fleas to pull in flea circuses And much much more Don't be a lame duck and get this book
