**The Oxford Companion to Twentieth-century Literature in English** Jenny Stringer, 1996 Survey of twentieth century English language writers and writing from around the world celebrating all major genres with entries on literary movements periodicals more than 400 individual works and articles on approximately 2 400 authors *Harper's Magazine* Lee Foster Hartman, Frederick Lewis Allen, 1960-07 Important American periodical dating back to 1850 *A Reference Guide for English Studies* Michael J. Marcuse, 2023-11-15 *Medieval French Literary Culture Abroad* Jane Gilbert, Simon Gaunt, William Burgwinkle, 2020-02-27 The monograph series Oxford Studies in Medieval Literature and Culture showcases the plurilingual and multicultural quality of medieval literature and actively seeks to promote research that not only focuses on the array of subjects medievalists now pursue in literature theology and philosophy in social political jurisprudential and intellectual history the history of art and the history of science but also that combines these subjects productively It offers innovative studies on topics that may include but are not limited to manuscript and book history languages and literatures of the global Middle Ages race and the post colonial the digital humanities media and performance music medicine the history of affect and the emotions the literature and practices of devotion the theory and history of gender and sexuality ecocriticism and the environment theories of aesthetics medievalism The field of medieval francophone literary culture outside France was for many years a minor and peripheral sub field of medieval French literary studies or in the case of Anglo Norman of English studies The past two decades however have seen a major reassessment of the use of French in England in the Low Countries in Italy and in the eastern Mediterranean and this impacts significantly upon the history of literature in French more generally This book is the first to look at the question overall rather than just at one region It also takes a more sustained theorised approach than other studies drawing particularly on Derrida and on Actor Network Theory It discusses a wide range of texts some of which have hitherto been regarded as marginal to French literary history and makes the case for this material being more central to the literary history of French than was allowed in more traditional approaches focused narrowly on France Many of the arguments in *Medieval French Literary Culture Abroad* are

grounded in readings of texts in manuscript rather than in modern critical editions and sustained attention is paid throughout to manuscripts that were produced or travelled outside the kingdom of France

Duggan, 2021-08-27 The original edition of *Salonnières Furies and Fairies* published in 2005 was a pathbreaking work of early modern literary history exploring women's role in the rise of the fairy tale and their use of this new genre to carve out roles as major contributors to the literature of their time This new edition with a new introduction and a forward by acclaimed

scholar Allison Stedman emphasizes the scholarly legacy of Anne Duggan's original work and its continuing field changing implications. The book studies the works of two of the most prolific seventeenth century women writers Madeleine de Scudéry and Marie Catherine d'Aulnoy. Analyzing their use of the novel, the chronicle and the fairy tale, Duggan examines how Scudéry and d'Aulnoy responded to and participated in the changes of their society but from different generational and ideological positions. This study also takes into account the history of the salon, an unofficial institution that served as a locus for elite women's participation in the cultural and literary production of their society. In order to highlight the debates that emerged with the increased participation of aristocratic women within the public sphere, the book also explores the responses of two academicians, Nicolas Boileau and Charles Perrault.

The Philosophy of life and the Contemporary Relevance of R.L. Stevensons essays Poorva Bhonde, 2021-01-05

Robert Louis Stevenson (1850-1894), a Victorian essayist, novelist, and poet, is an ardent advocate of courage and optimism. His philosophy of life, as reflected in his highly popular essays included in *Virginibus Puerisque*, *Memories and Portraits*, and *Familiar Studies of Men and Books*, acts as a panacea for the evils of Modern Age, characterized by materialism and overall pessimism. The study of Victorian English Literature is incomplete without studying Stevenson's essays. They are highly anthologized all over the world. Hence, the present book will be of immense help to the students, academicians, and the lovers of literature who wish to appreciate Stevenson's essays critically, with the focus on his philosophy of life.
