contrasted with Western constitutionalism A set of issues where the tension between sharica and human rights is accentuated is analysed against the backdrop of the main Islamic charters of rights Part II conducts a similar assessment based on the Constitutions of Tunisia and Egypt the two main epicentres of the Arab Spring Part III moves to two specific rights in the same countries from the twofold perspective of the Constitutions and international law the freedom from interference in one s intimate life with particular regard to homosexuality and the freedom of holding and expressing nonconventional beliefs deemed unacceptable from the point of view of traditional Islam These issues have been chosen as representative of the most controversial still considered taboo in both legal and social terms hence at the fringes of the debate on individual freedoms Focusing on two overlooked and underexplored issues the work thus pushes the boundaries of the human rights discourse in Muslim contexts

Islamic history from the life of Muhammad and the birth of Islamic ideals through Islam's phenomenal geographical expansion and cultural development to the creation of modern states and its role in today's global society. Written by a leading scholar of Islamic studies. Islam in America Craig Considine, 2019-10-25. A valuable resource for readers interested in the role of Islam in contemporary U.S. politics and society. This first of its kind reference synthesizes Islamic teachings, the example of Prophet Muhammad, and the vision of the Founding Fathers. Islam is the most misunderstood and misrepresented religious tradition in the United States, depicted as an oppressive and violent political system and its followers as backward and un-American. The stereotypes about Islam and Muslims in the U.S. call for a new sociological understanding that confronts the menacing bigotry and racism rising in the U.S. today. Through an overview essay, chronology, and roughly 50 alphabetically arranged entries, this reference explores the intersection of Islam, Muslims, and American national identity. The primary focus is contemporary issues and developments relating to Islam in the U.S., but the entries also incorporate a fuller picture of Islam in general and Muslims worldwide. Included are entries on history, race, and ethnicity, interfaith commonalities, politics, discrimination, and hate, and national identity. The entries cite works for further reading, and the book closes with an annotated bibliography of the most important resources. **Islam** Roger Allen, Shawkat M. Toorawa, 2011-03-03. In this straightforward and authoritative collection of fifteen essays, each by a different specialized expert in the field, readers will encounter all the major elements of Islam, including its history, its beliefs, its practices, and its interactions, notably with Christianity, Judaism, and the modern world. *Islam: A Short Guide to the Faith* will inform and enlighten all who wish to better understand this increasingly influential world religion.
