Oxford Guide To Literature In English Translation:

The Oxford Guide to Literature in English Translation Peter France, 2000 Translation has been a crucial process in world culture over the past two millennia and more. In the English speaking cultures many of the most important texts are translations from Homer to Beckett, the Bible to Freud. Although recent years have seen a boom in translation studies, there has been no comprehensive yet convenient guide to this essential element of literature in English. Written by eminent scholars from many countries, the Oxford Guide to Literature in English Translation meets this need and will be essential reading for all students of English and comparative literature. It highlights the place of translation in our culture, encouraging awareness of the issues raised, making the translator more visible. Concentrating on major writers and works, it covers translations out of many languages from Greek to Korean, from Swahili to Russian. For some works, e.g. Virgil's *Aeneid*, which have been much translated, the discussion is historical and critical, showing how translation has evolved over the centuries and bringing out the differences between versions. Elsewhere, with less familiar literatures, the Guide examines the extent to which translation has done justice to the range of work available. The Guide is divided into two parts. Part I contains substantial essays on theoretical questions, a pioneering outline of the history of translation into English, and discussions of the problems raised by specific types of text, e.g. poetry, oral literature. The second, much longer part consists of entries grouped by language of origin; some are devoted to individual texts, e.g. *The Thousand and One Nights*, or writers, e.g. Ibsen, Proust, but the majority offer a critical overview of a genre, e.g. Chinese poetry, Spanish Golden Age drama, or of a national literature, e.g. Hungarian, Scottish Gaelic. There is a selective bibliography for each entry and an index of authors and translators.

The Oxford Guide to Literature in English Translation Peter France, 2000 **The Oxford Guide to Literature in English Translation** Peter France, 2005 *Literary Translation* Ida Klitgård, 2006 This volume of *Angles on the English Speaking World* discusses the intriguing inter-relatedness between the concepts and phenomena of world literature and translation. The term *worlding*, presented by Strur Eysteinnsson in this collection, is coined by Sarah Lawell in her book *Reading World Literature* 1994, where it denotes the reader's pleasurable reading of the meeting of worlds in a literary translation, i.e. the meeting of the different cultural environments embodied in a translation from one language into another. Through such reading, the reader in fact participates in creating true world literature. This is a somewhat unorthodox conception of world literature, conventionally defined as great literature shelved in a majestic canonical library. In the opening article, sparking off the theme of this collection, Eysteinnsson asks: Which text does the concept of world literature refer to? It can hardly allude exclusively to the original, which the majority of the work's readers may never get to know. On the other hand, it hardly refers to the various translations as seen apart from the original. It seems to have a crucial bearing on the border between the two and on the very idea that the work merits the move across this linguistic and cultural border to reside in more than two languages. Picking up on this question at issue, all the essays in this collection throw light on the

problematic mechanics of cultural encounters when reading the world in literary translation i.e. in the texts themselves as well as in the ways in which they have become institutionalised as world literature The Vision of Dante Edoardo Crisafulli, 2003 The popular and critically acclaimed translation of Dante's Divine Comedy into English was carried out by the Anglican Reverend H.F. Cary. He has an honoured place in the rediscovery of Dante's masterpiece in Romantic Britain. Shelley, Byron, Wordsworth and Coleridge lavished praise upon his translation and it was through Cary's *The Vision of Dante* that the beauty and intricacies of the Italian poem were brought to the English reader. The book examines crucial aspects of British culture in the 19th Century and throws light on the manifold transformations of Dante's imagery into English poetry **Translating Others (Volume 1)** Theo Hermans, 2014-04-08 Both in the sheer breadth and in the detail of their coverage the essays in these two volumes challenge hegemonic thinking on the subject of translation. Engaging throughout with issues of representation in a postmodern and postcolonial world *Translating Others* investigates the complex processes of projection, recognition, displacement and othering effected not only by translation practices but also by translation studies as developed in the West. At the same time the volumes document the increasing awareness that the world is peopled by others who also translate, often in ways radically different from and hitherto largely ignored by the modes of translating conceptualized in Western discourses. The languages covered in individual contributions include Arabic, Bengali, Chinese, Hindi, Irish, Italian, Japanese, Latin, Rajasthani, Somali, Swahili, Tamil, Tibetan, and Turkish, as well as the Europhone literatures of Africa, the tongues of medieval Europe, and some major languages of Egypt's five thousand year history. Neighbouring disciplines invoked include anthropology, semiotics, museum and folklore studies, librarianship, and the history of writing systems. Contributors to Volume 1: Doris Bachmann-Medick, Cosima Bruno, Ovidi Carbonell, Martha Cheung, G. Gopinathan, Eva Hung, Alexandra Lianeri, Carol Maier, Christi Ann Marrill, Paolo Rambelli, Myriam Salama Carr, Ubaldo Stecconi, and Maria Tymoczko English Renaissance Translation Theory Neil Rhodes, Gordon Kendal, Louise Wilson, 2013 This volume is the first attempt to establish a body of work representing English thinking about the practice of translation in the early modern period. The texts assembled cover the long sixteenth century, from the age of Caxton to the reign of James I, and are divided into three sections: *Translating the Word of God*, *Literary Translation*, and *Translation in the Academy*. They are accompanied by a substantial introduction, explanatory and textual notes, and a glossary and bibliography. Neil Rhodes is Professor of English Literature and Cultural History at the University of St Andrews and Visiting Professor at the University of Granada. Gordon Kendal is an Honorary Research Fellow in the School of English, University of St Andrews. Louise Wilson is a Leverhulme Early Career Fellow in the School of English, University of St Andrews **Tradition, Tension and Translation in Turkey** Şehnaz Tahir Gürçaglar, Saliha Paker, John Milton, 2015-07-15 The articles in this volume examine historical, cultural, literary and political facets of translation in Turkey, a society in tortuous transformation since the 19th century, from empire to nation-state. Some draw attention to tradition in Ottoman practices and agents of translation and interpreting, while others explore the

republican period starting in 1923 with the revolutionary change in script from Arabic to Roman coming in 1928 making a powerful impact on publication and translation practices Areas covered include the German Jewish academic involvement in translation traditional and current practices of translating from Kurdish into Turkish censorship of translated literature intralingual translations from Ottoman into modern Turkish pseudotranslation ideological manipulation and resistance in translation imitativeness vs originality and metonymics of literary reviewing

Thomas Mann in English David Horton, 2013-04-11 Thomas Mann owes his place in world literature to the dissemination of his works through translation Indeed it was the monumental success of the original English translations that earned him the title of the greatest living man of letters during his years in American exile 1938-52 This book provides the first systematic exploration of the English versions illustrating the vicissitudes of literary translation through a principled discussion of a major author The study illuminates the contexts in which the translations were produced before exploring the transformations Mann's work has undergone in the process of transfer An exemplary analysis of selected textual dimensions demonstrates the multiplicity of factors which impinge upon literary translation leading far beyond the traditional preoccupation with issues of equivalence Thomas Mann in English thus fills a gap both in translation studies where Thomas Mann serves as a constant but ill defined point of reference and in literary studies which has focused increasingly on the author's wider reception
