Emma Hughes-Evans,Simon Brownhill,2019-01-25 Stimulating Non Fiction Writing Inspiring Children Aged 7 11 offers innovative and exciting ways to engage children in non fiction writing giving professionals the confidence and practical advice that they need to support children in producing quality non fiction texts in the classroom Packed full of interesting ideas resource suggestions and practical activities the book explores the various ways professionals can purposefully encourage child authors to develop their non fiction writing skills Tried and tested resources Gold star tips and practical suggestions are underpinned by research informed teaching strategies and academic information to strengthen professional practice associated with the teaching of non fiction writing By taking a stimulating approach to each text type and linking activities to known texts and stimuli the book offers differentiated advice for working with children in Lower and Upper Key stage 2 Chapters consider text types that include Instructions Persuasive texts Non chronological reports Correspondence texts Discussion texts This new text is the perfect guide for inspiring children aged 7 11 in the classroom and will energise and enrich classroom provision and practice by being an essential resource for teachers and students on teacher training courses

Primary Mathematics for Trainee Teachers Marcus Witt,2014-11-19 With chapter sequencing following the new Curriculum this book supports trainee Primary school teachers to make use of the opportunities presented in the new National Curriculum for effective and engaging Mathematics teaching Covering all of the areas of the new Curriculum for primary mathematics and offering insight into effective teaching this book helps students connect what they need to teach with how it can be taught Exploring opportunities in the new curriculum for creative and imaginative teaching it shows readers how to capitalize on opportunities to develop children s reasoning and problem solving skills It explores how to make links between mathematics and children s lived experiences to enhance their learning and enables trainees to develop an ability to plan with discernment making the most of existing thinking and research as well as building confidence in adapting and customizing ideas Includes the full National Curriculum Programme of Study for Maths key stages 1 and 2 as a useful

reference for trainee teachers Other books in this series include Primary English for Trainee Teachers El diccionario escolar de ciencia: un aliado en el aula Rosa Estopà Bagot,2021-05-10 El aprendizaje del vocabulario especializado es progresivo y está relacionado con el rendimiento académico Un vocabulario amplio es uno de los mayores activos que puede tener un niño Este libro parte de la idea de que el conocimiento científico técnico empieza en la palabra en edades muy tempranas Desde los primeros cursos escolares el trabajo específico con los términos de una materia permite asegurar su asimilación adecuada Por eso contar con recursos para realizar actividades enfocadas a consolidar el léxico específico en cualquier materia curricular es básico ya que no existe ciencia sin lenguaje ni conocimiento académico sin terminología La autora realiza un viaje iniciático por el léxico especializado siempre con una mirada puesta en las necesidades de los escolares En este viaje el diccionario especializado escolar se convierte en un aliado que debemos llevar en la mochila En el libro se defiende la idea de que una de las llaves de la puerta del conocimiento científico es el léxico de una lengua El diccionario especializado escolar como cualquier recurso léxico que ayude a fortalecer los vínculos entre el conocimiento y el lenguaje es un gran amigo en el camino de la ciencia y de la lengua Un camino fascinante que no concluye jamás pero que seguramente empieza en la escuela How to Survive your Nursing or Midwifery Course Monica Gribben,Stephen McLellan,Debbie McGirr,Sam Chenery-Morris,2017-02-09 Nursing and midwifery are inspiring and amazing professions but as you face the realities of juggling work study and life you may now be thinking what did I let myself in for This book is designed to help anyone who is struggling and needs a little or a lot of guidance It's packed with useful information and practical exercises to help nursing and midwifery students cope with all the major sources of stress including juggling time succeeding in assignments and exams understanding what's expected in real life and on placements managing finances coping with stress applying for jobs and more Written by authors who have helped countless students from a wide range of backgrounds conquer their problems this book will help you to succeed in your journey to becoming a registered nurse or midwife

Teaching Mathematics Through Story Caroline McGrath,2014-06-27 This book explores the exciting ways in which story can be used as a flexible resource to facilitate children's mathematical thinking It looks at the potential relationship between story and mathematics and practically demonstrates how they can be combined to help children connect understand and express mathematical ideas using story language This book draws on practical work with children educators parents professional storytellers and trainee practitioners who bring theoretical ideas to life and offer insight into their mathematical story experiences It is a must have for all those who want to make mathematics relevant accessible and imaginative for young children Primary Mathematics: Teaching for Understanding Patrick Barmby,Lynn Bilsborough,Tony Harries,Steve Higgins,2009-09-16 One feature of this book that sets it apart from others is the care that is taken to clarify the authors interpretation of the phrase teaching for understanding Each component of this interpretation connections representations reasoning communication and misconceptions is then successfully incorporated as a theme in the subsequent chapters that

develop important mathematical topics Ian Thompson Visiting Professor at Edge Hill University and Northumbria University UK This important book aims to support and develop teachers understanding of the key primary mathematics topics It takes an innovative approach by defining exactly what is meant by understanding and uses this model to examine and explain various mathematical topics The authors emphasize the importance of the different representations that can be used for mathematical concepts and inform the reasoning process By focusing on understanding the book also draws attention to common misconceptions that teachers may encounter in the classroom Key features Specific focus on understanding to offer new insights in to how to teach the topics Case studies to demonstrate how to communicate mathematical topics in the classroom End of chapter questions to stimulate discussion The authors integrate research and theory throughout to highlight core issues This theoretical background is also linked directly to classroom practice and informs suggestions for how topics can be communicated in the classroom This offers valuable guidance to trainee teachers on how to teach the topics and presents experienced teachers with the opportunity to develop their subject and pedagogical knowledge

oxford primary maths dictionary english-arabic ,2008 *Reasons to Reason in Primary Maths and Science* Alison Borthwick,Alan Cross,2018-06-11 This book explores what reasoning is and what it is not It includes background theory and a rationale for primary teachers alongside examples of how reasoning in primary mathematics and science classes can develop

The History of Oxford University Press Ian Anders Gadd,Simon Eliot,Keith Robbins,William Roger Louis,2013 The history of Oxford University Press spans five centuries of printing and publishing This fourth volume explores the Press s modern history as an unsubsidized business with significant educational and cultural responsibilities and how it maintained these through economic turbulence political upheaval and rapid technological innovation Oxford Primary Illustrated Science
