Oxford University Press An Informal History:

The Oxford University Press Peter Sutcliffe, Peter H. Sutcliffe, 1978 Oxford University Press is one of the oldest and best known publishing houses in the world This history originally published to mark 500 years of printing in Oxford traces the transformation of the Press from a lucrative Bible house into a great national and international publishing business Great names in the early history of the Press like Laud Fell and Blackstone laid sound foundations but as late as the 1890s the University was censured for sanctioning the publication of the secular and profane literature of Marlowe and Shakespeare

University Press: Volume I Ian Anders Gadd, Simon Eliot, William Roger Louis, Keith Robbins, 2013-11 The story of Oxford University Press spans five centuries of printing and publishing This first volume traces the beginnings of the University Press its relationship with the University and developments in printing and the book trade as well as the growing influence of the Press on the city of Oxford The Brain Takes Shape Robert L. Martensen, 2004-04-08 1 Bodies Words and Images 2

Matter Spirit and the Heart 3 The Human Mind and Gland H Cartesian Models of Mind Brain and Nerves 4 When the Brain Came Out of the Skull 5 Toward a New Physiology of Human Conduct 6 Body of Witnesses 7 The Transformation of Eve 8 Mind Without Brain John Locke Thomas Sydenham and the Constitutional Body of the British Enlightenment 9 On the Persistence of the Cerebral Model and Its Alternatives A Cultural Anthropology Perspective Dutch Messengers Cornelis

Dirk Andriess, 2008 In this pioneering work based upon interviews with many of the surviving protagonists Cornelis Cees Andriess tells the story of the role that Dutch publishing houses played in the rise of English language commercial science publishing after the Second World War that was preceded by the decline of science publishing in German Using the existing literature as well as many privately held archival sources the author follows the fortunes of the leading publishers Martinus Nijhoff Elsevier and North Holland while also briefly discussing smaller houses like Dr W Junk and Reidel The book contains lively portraits of the main characters involved and will no doubt stimulate further research and discussion of the role of publishing in the history of science The author's main thesis that successful publishing requires a strong fruitful partnership between an academic publisher and an academic editor will no doubt convince most readers This is a great book on the most productive friendships and partnerships in the history of science publishing *Ernest Gowers A.*

Scott, 2009-09-23 Draws on previously inaccessible family archives to penetrate the anonymity and public reticence of one of Britain's great twentieth century civil servants Gowers was highly influential in public policy throughout his long civil service career which began in 1903 and culminated in running London's civil defence throughout the Second World War **Book**

History Through Postcolonial Eyes Robert Fraser, 2008-08-18 This surprising study draws together the disparate fields of postcolonial theory and book history in a challenging and illuminating way Robert Fraser proposes that we now look beyond the traditional methods of the Anglo European bibliographic paradigm and learn to appreciate instead the diversity of shapes that verbal expression has assumed across different societies This change of attitude will encourage students and researchers to question developmentally conceived models of communication and move instead to a re formulation of just

what is meant by a book an author a text Fraser illustrates his combined approach with comparative case studies of print script and speech cultures in South Asia and Africa before panning out to examine conflicts and paradoxes arising in parallel contexts The re orientation of approach and the freshness of view offered by this volume will foster understanding and creative collaboration between scholars of different outlooks while offering a radical critique to those identified in its concluding section as purveyors of global literary power

The Social History of Crime and Punishment in America

Wilbur R. Miller,2012-07-20 Several encyclopedias overview the contemporary system of criminal justice in America but full understanding of current social problems and contemporary strategies to deal with them can come only with clear appreciation of the historical underpinnings of those problems Thus this five volume work surveys the history and philosophy of crime punishment and criminal justice institutions in America from colonial times to the present It covers the whole of the criminal justice system from crimes law enforcement and policing to courts corrections and human services Among other things this encyclopedia explicates philosophical foundations underpinning our system of justice charts changing patterns in criminal activity and subsequent effects on legal responses identifies major periods in the development of our system of criminal justice and explores in the first four volumes supplemented by a fifth volume containing annotated primary documents evolving debates and conflicts on how best to address issues of crime and punishment Its signed entries in the first four volumes supplemented by a fifth volume containing annotated primary documents provide the historical context for students to better understand contemporary criminological debates and the contemporary shape of the U S system of law and justice

A History of British Publishing John Feather,2003-09-02 This comprehensive history first published in 1987 covers the whole period in which books have been printed in Britain Though Gutenberg had the edge over Caxton England quickly established itself in the forefront of the international book trade The slow process of copying manuscripts gave way to an increasingly sophisticated trade in the printed word which brought original literature translations broadsheets and chapbooks and even the Bible within the purview of an increasingly broad slice of society Powerful political forces continued to control the book trade for centuries before the principle of freedom of opinion was established In the nineteenth and early twentieth centuries the competition from pirated USA editions where there were no copyright laws provided a powerful threat to the trade This period also saw the rise of remaindering cheap literature and many other modern features of the trade The author surveys all these developments bringing his history up to the present age

Chinese vs. Western

Perspectives Jinghao Zhou,2013-12-04 China is on the rise in the globalized world The relationship between China and the United States has become the most important global issue in the twenty first century It is urgent to understand what is happening in China and where China is heading However there are many misconceptions about China in the West which affect Westerners ability to objectively understand China and ultimately influence the making of foreign policy toward China The author attempts to challenge the misconceptions coming from both Western societies and China and offer an integrated

picture of contemporary China through systematically examining the major aspects of contemporary Chinese society and culture with the most recent data and presents convincing arguments in eighteen chapters for spurring mutual understanding between China and the West The author intends this book to be an interdisciplinary and comprehensive guide to China for a general audience and it covers a wide variety of topics including history family population Chinese women economy environmental issues politics religion media U S China relations and other subjects This book demonstrates the author s extensive research and thoughtful examination of many sides of controversial issues related to China with a nice balance of Western and Chinese scholarship This is one of the few that are authored by scholars who originate from China and have their professional career in the United States but it is distinctive from the rest of studies on this subject in that the author is committed to examining today s China from Chinese as well as Western perspectives This is not only a scholarly book but also is suitable for general classes on China Communications in Africa, 1880-1939 (set) David Sunderland,2018-10-24 This collection presents rare documents relating to the development of various forms of communication across Africa by the British as part of their economic investment in Africa Railways and waterways are examined *Communications in Africa, 1880-1939, Volume 1* David Sunderland,2019-01-15 This collection presents rare documents relating to the development of various forms of communication across Africa by the British as part of their economic investment in Africa Railways and waterways are examined
