Rose, 2013-10-04 Ancient Greek images of disability permeate the Western consciousness Homer Teiresias and Oedipus immediately come to mind But The Staff of Oedipus looks at disability in the ancient world through the lens of

disability studies and reveals that our interpretations of disability in the ancient world are often skewed These false assumptions in turn lend weight to modern day discriminatory attitudes toward disability Martha L Rose considers a range of disabilities and the narratives surrounding them She examines not only ancient literature but also papyrus skeletal material inscriptions sculpture and painting and draws upon modern work including autobiographies of people with disabilities medical research and theoretical work in disability studies Her study uncovers the realities of daily life for people with disabilities in ancient Greece and challenges the translation of the term *adunatos* unable as disabled with all its modern associations

Poems without Poets Boris Kayachev, 2021-03-31 The canon of classical Greek and Latin poetry is built around big names with Homer and Virgil at the center but many ancient poems survive without a firm ascription to a known author This negative category anonymity ties together texts as different as for instance the orally derived Homeric Hymns and the learned interpolation that is the Helen episode in Aeneid 2 but they all have in common that they have been maltreated in various ways consciously or through neglect by generations of readers and scholars ancient as well as modern These accumulated layers of obliteration which can manifest for instance in textual distortions or aesthetic condemnation make it all but impossible to access anonymous poems in their pristine shape and context The essays collected in this volume attempt each in its own way to disentangle the bundles of historically accreted uncertainties and misconceptions that affect individual anonymous texts including pseudepigrapha ascribed to Homer Manetho Virgil and Tibullus literary and inscribed epigrams and unattributed fragments Poems without Poets will be of interest to students and scholars working on any anonymous ancient texts but also to readers seeking an introduction to classical poetry beyond the limits of the established canon

Essays on Ancient Greek Literature and Culture: Volume 2, Comedy, Herodotus, Hellenistic and Imperial Greek Poetry, the Novels Ewen Bowie, 2023-07-27 In this book one of the world's leading Hellenists brings together his many contributions over four decades to our understanding of major genres of Greek literature above all the Greek novel but also Attic Comedy fifth century historiography and Hellenistic and Imperial Greek poetry Many are already essential reading such as the chapter on the figure of Lycidas in Theocritus Idyll 7 or two chapters on the ancient readership of Greek novels Discussions of Imperial Greek poetry published three decades ago opened up a world almost entirely neglected by scholars Several chapters address literary and linguistic issues in Longus novel Daphnis and Chloe complementing the author's commentary published in 2019 two contribute to a better understanding of the enigmatic Aethiopica of Heliodorus and many explore important questions arising from examination of the form of the Greek novel as a whole This is the second of a planned three volume collection

Perspectives on New Testament Textual Criticism, Volume 2 Eldon Jay Epp, 2020-11-30 Eldon Jay Epp's second volume of collected essays

consists of articles previously published during 2006 2017 All treat aspects of the New Testament textual criticism but focus on historical and methodological issues relevant to constructing the earliest attainable text of New Testament writings More specific emphasis falls upon the nature of textual transmission and the text critical process and heavily on the criteria employed in establishing that earliest available text Moreover textual grouping is examined at length and prominent is the current approach to textual variants not approved for the constructed text for they have stories to tell regarding theological ethical and real life issues as the early Christian churches sought to work out their own status practices and destiny

God's Library Brent Nongbri,2018-08-21 In this bold and groundbreaking book Brent Nongbri provides an up to date introduction to the major collections of early Christian manuscripts and demonstrates that much of what we thought we knew about these books and fragments is mistaken While biblical scholars have expended much effort in their study of the texts contained within the earliest Christian manuscripts there has been a surprising lack of interest in thinking about these books as material objects with individual unique histories We have too often ignored the ways that the antiquities market obscures our knowledge of the origins of these manuscripts Through painstaking archival research and detailed studies of the most important collections of early Christian manuscripts Nongbri vividly shows that the earliest Christian books are more than just carriers of texts or samples of handwriting They are three dimensional archaeological artifacts with fascinating stories to tell if we re willing to listen Public Spectacles in Roman and Late Antique Palestine Zeev Weiss,2014-03-24 Wishing to ingratiate himself with Rome Herod the Great built theaters amphitheaters and hippodromes to bring pagan entertainments of all sorts to Palestine Zeev Weiss explores how the indigenous Jewish and Christian populations responded as both spectators and performers to these cultural imports which left a lasting imprint on the region **Essays on Ancient Greek Literature and Culture** Ewen Bowie,2023-07-27 Assembles a major scholar s work on Hellenistic and Imperial Greek poetry and the novels over four decades illustrating its evolution *The Encyclopedia of New Testament Textual Criticism* Robert B. Waltz,2025-01-23 This is the final version of the Encyclopedia of New Testament Textual Criticism a web site that has been updated for several decades This version released January 2025 represents the final revision The goal is to provide as much information about the sources manuscripts versions etc used to reconstruct the original text of the New Testament Note that this version is more recent than the web site and represents a small update **Not by Paul Alone** David R. Nienhuis,2007 Not by Paul Alone explores the historical reasons for the creation of the book of James and the implications for the creation of the Christian canon Nienhuis makes a compelling case that James was written in the mid second century and is like 2 Peter an attempt to provide a distinctive shape to the emerging New Testament This book bolsters the claim that the Catholic Epistles not only have a distinct witness individually but that collectively they are also a considered theological agenda within the Christian church **Testimonies: Volume 1** J.
