The Oxyrhynchus Papyri Volume 4, Nos. 654-839 Bernard Pyne Grenfell, 2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1904 edition Excerpt if KoiWior in Ibcr 66 7 is a corruption of Aovaot or KauciXtor there will be no conflict between Livy and Appian as to the predecessor of Fabius Servilianus Dismissing therefore the supposed Quinctius there still remains the governorship of Southern Spain for B C 143 to be accounted for The passage in Appian referring to Aemilianus successor Kourou Ylo xniuv ACXou is obviously quite corrupt The insertion of Tov before ASXov Schweighauser followed by Mendelssohn does little to mend matters There is no point in the mention of the father s praenomen and there is clearly a confusion in the text between this person and the KwWu nojiT7jio ACXu mentioned mlber 76 That Q Pompeius was consul in B c 141 and succeeded Q Metellus as governor of Northern Spain in the same year cf 1 174 His cognomen was Rufus so that editors bracket AffXp in ch 76 In any case this Quintus Pompeius cannot be the successor of Aemilianus in B c 143 and the best course seems to be to fall back on the statement of Valerius Maximus ix 3 7 v sup that Q Metellus governed utramque Hispaniam Seeing that Aemilianus governed both provinces for two years there is not the least difficulty in supposing that his successor did the same for one but that in the second year a separate governor was sent to the Southern province On this hypothesis we would suggest that Kourou no imji ou AvXou in Jber 65 is corrupt for Kotmov KnixtX ou MTiXXou and that the following words 6 Si dS p6s atrov Ma i ior At uXtaitSr which are simply omitted by editors really contained a reference to the brother of Q Metellus L Metellus The sentence is in that case incomplete and the lacuna may well have supplied some details about the events of B c 143 2

Early Manuscripts and Modern Translations of the New Testament Philip Wesley Comfort, 2001-12-17 Although valuable for their early witness to the text of the Greek New Testament the influence of the papyri on Bible translations in this century has largely gone unnoticed Early Manuscripts Modern Translations of the New Testament redresses this failure by providing a detailed profile of nearly 70 major New Testament papyri and assessing their effect on modern English Bible translations A five page bibliography on textual criticism and fourteen photos of ancient papyrus manuscripts round out this fascinating study [The English Catalogue of Books](#) Sampson Low, 1901 Volumes for 1898 1968 include a directory of publishers **The Oxyrhynchus Papyri, Vol. 4**

Bowie, 2023-07-27 In this book one of the world's leading Hellenists brings together his many contributions over four decades to our understanding of major genres of Greek literature above all the Greek novel but also Attic Comedy fifth century historiography and Hellenistic and Imperial Greek poetry Many are already essential reading such as the chapter on the figure of Lycidas in Theocritus Idyll 7 or two chapters on the ancient readership of Greek novels Discussions of Imperial Greek poetry published three decades ago opened up a world almost entirely neglected by scholars Several chapters address literary and linguistic issues in Longus novel Daphnis and Chloe complementing the author's commentary published in 2019 two contribute to a better understanding of the enigmatic Aethiopica of Heliodorus and many explore important questions arising from examination of the form of the Greek novel as a whole This is the second of a planned three volume collection

Simeon the Righteous in Rabbinic Literature Amram

Tropper, 2013-01-29 In *Simeon the Righteous in Rabbinic Literature A Legend Reinvented* Amram Tropper investigates the rabbinic traditions about Simeon the Righteous a renowned Jewish leader of Second Temple times Tropper not only interprets these traditions from a literary perspective but also deploys a relatively new critical approach towards rabbinic literature with which he explores the formation history of the traditions With the help of this approach Tropper seeks to uncover the literary and cultural matrices both rabbinic and Graeco Roman which supplied the raw materials and literary inspiration to the rabbinic authors and editors of the traditions Tropper's analysis reveals that in reinventing the legend of Simeon the Righteous the rabbis constructed the Second Temple past in the image of their own present

Schroter, 2021-11-19 The New Testament contains four accounts of the life of Jesus To some people in antiquity four was too many Disagreements in the Gospels over what Jesus said and did triggered debate between insiders and drew criticism from outsiders To other people four was not enough As early as the first century Christians wrote additional gospels each with their own portrayal of Jesus and depictions of his relationships with his family his followers and his Father While these gospels were not included in the New Testament canon many continued to be important for Christian thought and practice all these texts moreover are significant for the study of emergent Christianity This short accessible introduction draws on current scholarship on the various noncanonical or apocryphal gospels to present this fascinating literature to readers eager to learn more about their origins contents and meaning The book begins with a discussion of the distinction between gospels that became canonical and those that came to be regarded as apocryphal Then the gospels are presented in chapters arranged according to Jesus ministry from Infancy Gospels to texts about Jesus earthly career to his passion resurrection and postresurrection appearances This book demonstrates how early Christians confronted crises in their communities through story crafting new accounts of Jesus life that expanded upon and sometimes challenged the Gospels that became canonical The apocryphal gospels are not Scripture but they are no less valuable for understanding Christianity in its formative centuries and beyond **Paul's Understanding of the Church's Mission** Robert L. Plummer, 2006-06-01 Did Paul expect

his churches to engage in evangelistic activity which mirrored his own Or have modern readers of the Bible wrongly projected Paul's apostolic passion upon the communities that he founded Such is the charge of several recent authors and if their thesis is correct nothing could have larger implications for how the modern church engages in mission In this book Robert L Plummer engages in a careful study of Paul's letters to determine if the apostle expected the communities to which he wrote to engage in outward directed missionary activity Plummer helpfully summarizes the discussion to date on the debated issue judiciously handles contested texts and provides a way forward in addressing this critical question While admitting that Paul rarely explicitly commands the communities he founded to evangelize Plummer amasses significant incidental data to provide a convincing case that Paul did indeed expect his churches to engage in outward directed missionary activity Throughout the study Plummer progressively builds a theological basis for the church's mission that is both compelling and distinctively Pauline **Collecting Practices and Opisthographic Collections in Qumran and Herculaneum** Ayhan Aksu, 2024-12-16 In Collecting Practices and Opisthographic Collections in Qumran and Herculaneum Ayhan Aksu offers a new perspective on practices of collection in both the Dead Sea Scrolls and the Herculaneum papyri This study focuses on the intriguing question how ancient scribes and scholars used manuscripts to bring different texts in

conversation with each other Central to Aksu's approach are opisthographic manuscripts scrolls that contain text on both the front and back side Comparative research of the rich papyrus collection from Herculaneum reveals that scribes across various regions of the Mediterranean developed dynamic approaches to engage with their texts

Essays on Ancient Greek Literature and Culture Ewen Bowie, 2023-07-27 Assembles a major scholar's work on Hellenistic and Imperial Greek poetry and the novels over four decades illustrating its evolution

The Dividing Wall Martin Wright, 2021-05-20 This book argues for the integrity of the Pauline Corpus as a complex composite text Martin Wright critiques the prevailing tendency to divide the Corpus in two separating the undoubtedly authentic letters from those of disputed authorship Instead he advocates for a renewed canonical hermeneutic in which the Corpus as a whole communicates Paul's legacy and the authorship of individual letters is less important stressing that that current preoccupations with authorship have a distorting effect on exegesis and need to be reconsidered Wright uses Ephesians as a focal text to illustrate the exegetical potential of this approach He critically investigates the history of the prevailing hermeneutics of pseudonymity with particular attention to the theological and confessional partiality with which it is often inflected And constructively he proposes a new hermeneutical model in which the Pauline Corpus is read as a continuous interpretative dialogue leaving the question of authorship to one side In two substantial exegetical studies Wright offers new readings of passages from Ephesians and other Pauline letters amplifying the proposed approach and illustrating its value

Christianity, Book-Burning and Censorship in Late Antiquity Dirk Rohmann, 2016-07-25 It is estimated that only a small fraction less than 1 per cent of ancient literature has survived to the present day The role of Christian authorities in the active suppression and destruction of books in Late Antiquity has received surprisingly little sustained consideration by academics In an approach that presents evidence for the role played by Christian institutions writers and saints this book analyses a broad range of literary and legal sources some of which have hitherto been little studied Paying special attention to the problem of which genres and book types were likely to be targeted the author argues that in addition to heretical magical astrological and anti-Christian books other less obviously subversive categories of literature were also vulnerable to destruction censorship or suppression through prohibition of the copying of manuscripts These include texts from materialistic philosophical traditions texts which were to become the basis for modern philosophy and science This book examines how Christian authorities theologians and ideologues suppressed ancient texts and associated ideas at a time of fundamental transformation in the late classical world

New Approaches to Ancient Material Culture in the Greek & Roman World Catherine Cooper, 2020-11-16 New Approaches to Ancient Material Culture in the Greek Roman World is about Classical Archaeology at its broadest and is important reading to all Classicists As part of a recent movement to highlight the rich diversity of the subject it overcomes traditional disciplinary boundaries to show the variety of current approaches to the study of Classical Antiquity from the Late Bronze Age to the Late Antique period The multi-disciplinary papers deal with archaeology and art history museum objects and fieldwork data ancient texts

and material culture archaeological theory and historiography and technical and literary analysis The international contributors discuss a selection of methodologies currently used to study ancient material and illustrate their relevance through case studies which span the Greek and Roman world *Report of the Library Syndicate* Cambridge University Library, 1905
