Sex in Antiquity Mark Masterson, Nancy Sorkin Rabinowitz, James Robson, 2018-02-05 Looking at sex and sexuality from a variety of historical sociological and theoretical perspectives as represented in a variety of media Sex in Antiquity represents a vibrant picture of the discipline of ancient gender and sexuality studies showcasing the work of leading international scholars as well as that of emerging talents and new voices Sexuality and gender in the ancient world is an area of research that has grown quickly with often sudden shifts in focus and theoretical standpoints This volume contextualises these shifts while putting in place new ideas and avenues of exploration that further develop this lively field or set of disciplines This broad study also includes studies of gender and sexuality in the Ancient Near East which not only provide rich consideration of those areas but also provide a comparative perspective not often found in such collections Sex in Antiquity is a major contribution to the field of ancient gender and sexuality studies

Private Associations and Jewish Communities in the Hellenistic and Roman Cities Dr. Benedikt Eckhardt, 2019-07-01 In Private Associations and Jewish Communities in the Hellenistic and Roman Cities Benedikt Eckhardt brings together a group of experts to investigate a problem of historical categorization Traditionally scholars have either presupposed that Jewish groups were Greco Roman Associations like others or have treated them in isolation from other groups Attempts to begin a cross disciplinary dialogue about the presuppositions and ultimate aims of the respective approaches have shown that much preliminary work on categories is necessary This book explores the methodological dividing lines based on the common sense assumption that different questions require different solutions Re introducing historical differentiation into a field that has been dominated by abstractions it provides the debate with a new foundation Case studies highlight the problems and advantages of different approaches

Perspectives on New Testament Textual Criticism, Volume 2 Eldon Jay Epp, 2020-11-30 Eldon Jay Epp's second volume of collected essays consists of articles previously published during 2006 2017 All treat aspects of the New Testament textual criticism but focus on historical and methodological issues relevant to constructing the earliest attainable text of New Testament writings More specific emphasis falls upon the nature

of textual transmission and the text critical process and heavily on the criteria employed in establishing that earliest available text Moreover textual grouping is examined at length and prominent is the current approach to textual variants not approved for the constructed text for they have stories to tell regarding theological ethical and real life issues as the early Christian churches sought to work out their own status practices and destiny

Danish Contributions to Classical Scholarship, 1971-1991 Flemming Gorm Andersen, 2004 For generations the Royal Library in Denmark has contributed to or published bibliographies within the field of humanities and social sciences This bibliography of Classical studies is a continuation of P A Hansen s Bibliography of Danish Contributions to Classical Scholarship from the Sixteenth Century to 1970 Copenhagen 1977 continuing up to 1991 It restricts itself to Classical Antiquity from which follows the exclusion of Theology comprising works by or on Christian writers in antiquity as well as the Scriptures Middle Latin Byzantine Greek scholia on classical writers excepted the Classical tradition and the ancient cultures outside the classical world

The Colonizers' Idols Christina Harker, 2018-02-02 In this work Christina Harker deconstructs the prevailing treatment of the New Testament as anti imperial by contextualizing both New Testament scholarship and the Galatian experience within imperialist discourses that survived the dissolution of conventional empires in the twentieth century She critiques simplistic treatments of empire as post imperial that is replicating patterns of imperialist ideology albeit unwittingly To solve the problem a new interpretation of Galatians is proposed that reworks and complicates the portrait of the Galatians themselves rather than Paul within what then emerges as a diverse social world peopled by complex individuals with heterogeneous social and cultural identities The author is thus able to show how New Testament scholars who rehabilitate the Bible and Paul as anti empire perpetuate the same imperialist modes of interpretation they seek to repudiate

Early Manuscripts and Modern Translations of the New Testament Philip Wesley Comfort, 2001-12-17 Although valuable for their early witness to the text of the Greek New Testament the influence of the papyri on Bible translations in this century has largely gone unnoticed Early Manuscripts Modern Translations of the New Testament redresses this failure by providing a detailed profile of nearly 70 major New Testament papyri and assessing their effect on modern English Bible translations A five page bibliography on textual criticism and fourteen photos of ancient papyrus manuscripts round out this fascinating study
