Oxyrhynchus Papyri Volume 55:

The Staff of Oedipus Martha L. Rose, 2013-10-04 Ancient Greek images of disability permeate the Western consciousness Homer Teiresias and Oedipus immediately come to mind But The Staff of Oedipus looks at disability in the ancient world through the lens of disability studies and reveals that our interpretations of disability in the ancient world are often skewed These false assumptions in turn lend weight to modern day discriminatory attitudes toward disability Martha L Rose considers a range of disabilities and the narratives surrounding them She examines not only ancient literature but also papyrus skeletal material inscriptions sculpture and painting and draws upon modern work including autobiographies of people with disabilities medical research and theoretical work in disability studies Her study uncovers the realities of daily life for people with disabilities in ancient Greece and challenges the translation of the term *adunatos* unable as disabled with all its modern associations *In the Company of Many Good Poets. Collected Papers of Franco Montanari* Franco

Montanari, 2023-10-24 Volume I of Franco Montanari's *Kleine Schriften* comprises some 66 papers on ancient scholarship a topic which he decisively helped establishing as an extremely important field of study they include general surveys of Alexandrian and Pergamene philology major contributions to ancient Homeric scholarship with a particular emphasis on Aristarchus ancient scholarship on Hesiod and Aeschylus as well as an important number of editions and notes on papyrological scholarly texts Volume II consists of 42 contributions to Homer's Iliad and Odyssey Pindar Aeschylus Herodotus Euripides the Athenaion Politeia Lucian Nonnus philosophical papyri the reception of antiquity and portraits of contemporary scholars **The Oxford Handbook of Roman Egypt** Christina Riggs, 2012-06-21 This handbook arranged in seven thematic sections is unique in drawing together many different strands of research on Roman Egypt in order to suggest both the state of knowledge in the field and the possibilities for collaborative synthetic and interpretive research

Doctrine and Power Carlos R. Galvao-Sobrinho, 2021-03-16 During the fourth century a d theological controversy divided Christian communities throughout the Eastern half of the Roman Empire At stake was not only the truth about God but also the authority of church leaders whose legitimacy depended on their claims to represent that truth In this book Carlos R Galvao Sobrinho argues that out of these disputes was born a new style of church leadership one in which the power of the episcopal office was greatly increased He shows how these disputes compelled church leaders repeatedly to assert their orthodoxy and legitimacy tasks that required them to mobilize their congregations and engage in action that continuously projected their power in the public arena These developments were largely the work of prelates of the first half of the fourth century but the style of command they inaugurated became the basis for a dynamic model of ecclesiastical leadership found throughout late antiquity **The New Archeological Discoveries and Their Bearing Upon the New Testament and Upon the Life and Times of the Primitive Church** Camden McCormack Cobern, 1917 **Thebes in the Fifth Century (Routledge Revivals)** Nancy Demand, 2014-04-08 In the fifth century BC Thebes faced with the challenges

presented by defeat and disgrace in the Persian Wars it had sided with the invaders succeeded not only in regaining its former prominence but also in laying the groundwork for its hegemony of Greece in the early part of the fourth century In Thebes in the Fifth Century first published in 1982 Nancy Demand examines the political and military history of this renowned city as well as a number of other aspects of Theban culture and society its physical layout religious cults poetry and music arts crafts and philosophy Other topics of special interest include a chapter on Pythagoreanism in Thebes an appendix on the evidence for the participation of women in Pythagoreanism and an investigation extending throughout the book of the role of women in Theban society **The Antiquaries Journal**, 1990 **Perspectives on New Testament**

Textual Criticism, Volume 2 Eldon Jay Epp, 2020-11-30 Eldon Jay Epp's second volume of collected essays consists of articles previously published during 2006-2017 All treat aspects of the New Testament textual criticism but focus on historical and methodological issues relevant to constructing the earliest attainable text of New Testament writings More specific emphasis falls upon the nature of textual transmission and the text critical process and heavily on the criteria employed in establishing that earliest available text Moreover textual grouping is examined at length and prominent is the current approach to textual variants not approved for the constructed text for they have stories to tell regarding theological ethical and real life issues as the early Christian churches sought to work out their own status practices and destiny *The English Catalogue of Books* Sampson Low, 1911 Volumes for 1898-1968 include a directory of publishers **Environmental Archaeology: Meaning and Purpose** Umberto Albarella, 2013-04-17 Despite the fact that the human life of the past cannot be understood without taking into account its ecological relationships environmental studies are often marginalised in archaeology This is the first book that by discussing the meaning and purpose we give to the expression environmental archaeology investigates the reasons for such a problem This is achieved through the use of theoretical considerations and the aid of a number of case studies which by taking us from Anglo Saxon England to pre Columbian Venezuela and from Classical Greece to late Antique Egypt emphasise the potential of an integrated approach The book is written by archaeologists with different backgrounds and is addressed to all researchers who care about the past relationship between people and the rest of Nature Despite the complexity of some of the issues tackled the book is written in an accessible manner and should be of interest to all students who want to understand the essence of archaeology beyond the boundary of the individual sub disciplines **Christianity, Book-Burning and Censorship in Late Antiquity** Dirk

Rohmann, 2016-07-25 It is estimated that only a small fraction less than 1 per cent of ancient literature has survived to the present day The role of Christian authorities in the active suppression and destruction of books in Late Antiquity has received surprisingly little sustained consideration by academics In an approach that presents evidence for the role played by Christian institutions writers and saints this book analyses a broad range of literary and legal sources some of which have hitherto been little studied Paying special attention to the problem of which genres and book types were likely to be targeted

the author argues that in addition to heretical magical astrological and anti Christian books other less obviously subversive categories of literature were also vulnerable to destruction censorship or suppression through prohibition of the copying of manuscripts These include texts from materialistic philosophical traditions texts which were to become the basis for modern philosophy and science This book examines how Christian authorities theologians and ideologues suppressed ancient texts and associated ideas at a time of fundamental transformation in the late classical world *Collecting Practices and Opisthographic Collections in Qumran and Herculaneum* Ayhan Aksu,2024-12-16 In *Collecting Practices and Opisthographic Collections in Qumran and Herculaneum* Ayhan Aksu offers a new perspective on practices of collection in both the Dead Sea Scrolls and the Herculaneum papyri This study focuses on the intriguing question how ancient scribes and scholars used manuscripts to bring different texts in conversation with each other Central to Aksu s approach are opisthographic manuscripts scrolls that contain text on both the front and back side Comparative research of the rich papyrus collection from Herculaneum reveals that scribes across various regions of the Mediterranean developed dynamic approaches to engage with their texts *Tracking Hermes, Pursuing Mercury* John F. Miller,Jenny Strauss Clay,2019-01-31 Of all the divinities of classical antiquity the Greek Hermes Mercury in his Roman alter ego is the most versatile enigmatic complex and ambiguous The runt of the Olympian litter he is the god of lies and tricks yet is also kindly towards mankind and a bringer of luck His functions embrace both the marking of boundaries and their transgression but also extend to commerce lucre and theft as well as rhetoric and practical jokes In another guise he plays the role of mediator between all realms of human and divine activity embracing heaven earth and the netherworld Pursuing this elusive divinity requires a truly multidisciplinary approach reflecting his prismatic nature and the twenty contributions to this volume draw on a wide range of fields to achieve this from Greek and Roman literature epic lyric and drama epigraphy cult and religion to vase painting and sculpture In offering an overview of the myriad aspects of Hermes Mercury including his origins patronage of the gymnasium and relation to other trickster figures the volume attempts to track the god s footprints across the many domains in which he partakes Moreover in keeping with his deep connection to exchange commerce and dialogue it aims to exemplify and further encourage discourse between Latinists and Hellenists as well as between scholars of literary and material cultures **Acts: An Exegetical Commentary : Volume 4** Craig S. A series of case studies of the various agents involved in the legal transactions illuminates the legal culture of this community and its practice of law and justice.

Dionysius: The Epic Fragments: Volume 56, 2018-01-11. The epic poet Dionysius, who probably flourished in the first century CE, is a key transitional figure in the history of Greek poetry, sharing stylistic and thematic tendencies with both the learned Hellenistic tradition and the monumental epic poetry of the later Roman period. His *Bassarica* is the earliest known poem on the conquest of India by the god Dionysus and was an important model for Nonnus of Paros. His *Gigantias* related the battle of the giants against the Olympian gods and legends surrounding it, with particular focus on the figure of Heracles. This is the most comprehensive edition to date of his poetry, expanding the number of fragments available and providing a more reliable text based on a fresh inspection of the papyri. The volume includes a substantial introduction contextualising the poetry, a facing English translation of the text, and a detailed linguistic and literary commentary.

The Classical Review, 1928. **Old Testament Pseudepigrapha, vol. 1** Richard Bauckham, James R. Davila, Alex Panayotov, 2013-11-21. This work stands among the most important publications in biblical studies over the past twenty-five years. Richard Bauckham, James Davila, and Alexander Panayotov's new two-volume collection of Old Testament pseudepigrapha contains many previously unpublished and newly translated texts, complementing James Charlesworth's *Old Testament Pseudepigrapha* and other earlier collections. Including virtually all known surviving pseudepigrapha written before the rise of Islam, this volume, among other things, presents the sacred legends and spiritual reflections of numerous long-dead authors whose works were lost, neglected, or suppressed for many centuries. Excellent English translations, along with authoritative yet accessible introductions, bring those ancient documents to life for readers today.
