from contemporary cultural criticism Mercer challenges approaches to educational and liturgical practices with children in congregations that segregate children from the rest of the church and its key practices of service mission worship care and learning She reframes ministries with children as processes through which the church as a community of practice forms children into an alternative identity that resists surrounding consumerist culture and walks in the ways of Jesus This book offers strategies for educational practices with children in congregations as it seeks to address the question What might educational practices that welcome children and contribute to their flourishing look like in the context of a faith community where children's learning happens in collaboration with experienced practitioners of faith Outlining a feminist practical theology of childhood it explores five basic theological claims 1 children as gifts and parenting as a religious practice of stewardship 2 welcoming those who welcome and care for children 3 children as already fully human 4 children as part of the purposes of God and 5 acknowledging and transforming the sufferings of children *Children's Mental Health* Leonard Saxe,1987 **Children's mental health : problems and services.** , Moral Politics George Lakoff,2010-12-15 In this classic text the first full scale application of cognitive science to politics George Lakoff analyzes the unconscious and rhetorical worldviews of liberals and conservatives discovering radically different but remarkably consistent conceptions of morality on both the left and right For this new edition Lakoff adds a preface and an afterword extending his observations to major ideological conflicts since the book's original publication from the impeachment of Bill Clinton to the 2000 presidential election and its aftermath The SAGE Encyclopedia of Classroom Management W.
