Letters to Mother Петр Леонидович Капица, National Research Council of Canada, 1989 *International Books in Print*, 1991 **Paperbound Books in Print**, 1991 *Kapitza in Cambridge and Moscow* J.W. Boag, P.E. Rubinin, D. Shoenberg, 2012-12-02 The unusual career of the famous Soviet physicist Peter Kapitza was divided between Cambridge and Moscow In Cambridge he was a protege of Rutherford and while studying there he opened up a new area of research in magnetism and low temperature physics However in 1934 during a summer visit to the Soviet Union Kapitza was prevented from returning to Cambridge and remained in Moscow for the rest of his long life In spite of many ups and downs and considerable difficulties in his relations with top political figures in the Kremlin he continued to enhance his scientific reputation and late in life was awarded the Nobel Prize After an introductory biographical memoir the greater part of the book consists of extracts from the numerous letters Kapitza wrote throughout his life letters which are distinguished by their eloquence the originality of his opinions and his forthrightness His very interesting correspondence with Rutherford and above all his many letters to top political figures in the Soviet Union such as Molotov Stalin and Khrushchev on questions of scientific and industrial policy are all included in this unique document Together they provide a rounded picture of a remarkable personality who contributed so much to the scientific and cultural life of both

England and the Soviet Union This fascinating book is illustrated with an impressive collection of historical photographs and should be of interest to science historians to low temperature physicists and to Sovietologists but above all the book should appeal to the general reader for its human interest Some of the letters reveal his emotional reactions to the major blows he had to suffer on several occasions while others provide penetrating and often amusing comments on English life and institutions as seen by a Russian and on Soviet life from the inside **Canadiana** ,1990-03 Government of Canada Publications, Quarterly Catalogue ,1989 *Bulletin of the Atomic Scientists* ,1990-07 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world **Forthcoming Books** Rose Army,1989-09 *Collected Papers of P.L.
