Foreign Affairs, 1987 The Phantom in Focus: A Navigator's Eye on Britain's Cold War Warrior David Gledhill, 2014-03-26

Have you ever wondered what it was like to fly the Phantom This is not a potted history of an aeroplane nor is it Hollywood glamour as captured in Top Gun This is the story of life on the frontline during the Cold War told in the words of a navigator who flew the iconic jet Unique pictures many captured from the cockpit show the Phantom in its true environment and show why for many years the Phantom was the envy of NATO It also tells the inside story of some of the problems which plagued the Phantom in its early days how the aircraft developed or was neglected and reveals events which shaped the aircraft's history and contributed to its demise Anecdotes capture the deep affection felt by the crews who were fortunate enough to cross paths with the Phantom during their flying careers The nicknames the aircraft earned were not complimentary and included the Rhino The Spook Double Ugly the Flying Brick and the Lead Sled Whichever way you looked at it you could love or hate the Phantom but you could never ignore it for its sheer power and lethal payload The Phantom in Focus A Navigator's

Eye on Britain's Cold War Warrior is unique in that the author flew in the legendary Phantom in the front line and captured beautiful and amazing unpublished photographs that will appeal to historians military specialists and modellers alike

Maritime Security Natalie Klein, Joanna Mossop, Donald R. Rothwell, 2009-10-16 Maritime security is of vital importance to Australia and New Zealand as both countries depend on maritime transport for their economic survival Since the events of September 11th 2001 significant questions have been raised as to whether Australia and New Zealand are adequately prepared for the consequences of a major disruption to global shipping following a terrorist attack on a leading regional port such as Hong Kong or Singapore Considerable efforts have also been undertaken to improve responses to an array of maritime security threats such as transnational crime environmental pollution and piracy and armed robbery This volume identifies those issues that particularly affect Australia and New Zealand's maritime security evaluating the issues from legal and political perspectives and proposes methods for improving maritime security in the two countries While the focus is primarily on Australia and New Zealand the scope extends to regional considerations addressing matters related to Pacific Island states Southeast Asia and the Antarctic and sub Antarctic region The book also addresses strategic partnerships examining the influence of the United States and analyses issues within the broad framework of international law and politics *Maritime Security International Law and Policy Perspectives from Australia and New Zealand* will be of great interest to scholars of international law international relations and maritime affairs maritime industry professionals private and government lawyers as well as diplomats consuls and government officials
