Pabaggio A Occidente Filosofia E Globalizzazione:

Passaggio a Occidente Giacomo Marramao, 2021-07-08T00:00:00+02:00 Secondo Giacomo Marramao che affronta in questo libro lo straordinario mutamento di scala che accompagna i fenomeni politici della nostra epoca il ricorso alle categorie di mondializzazione o globalizzazione non ha solo un significato tecno economico Siamo di fronte a un passaggio destinato a trasformare tutte le culture che chiama in causa una riconversione di concetti fondamentali come identità e differenza contingenza e necessità nonché per cominciare locale e globale Rispetto a diagnosi apparentemente antitetiche come quelle di Fukuyama omologazione universale e Huntington conflitto delle civiltà per Marramao necessario demistificare due false opposizioni Stato mercato e Oriente Occidente A tale scopo il libro tenendo costantemente sullo sfondo la grande discussione sulla globalizzazione avviata fra le due guerre da autori come Spengler Jürgen Schmitt e Heidegger sviluppa la sua proposta muovendo dal disincanto della categoria di mercato operato da Polanyi e da una profonda revisione dell'approccio comparativo delle culture operato da Weber L'esigenza avanzata in conclusione attraverso un serrato confronto con le posizioni di Habermas e di Derrida di una politica universalista della differenza viene formulata in base a un radicale riesame critico delle pretese di universalità delle stesse categorie tipicamente occidentali di democrazia e filosofia Contemporary Italian Philosophy, *New Perspectives in Italian Cultural Studies* Graziella Parati, 2012-07-13 *New Perspectives in Italian Cultural Studies Volume 1 Definitions Theory and Accented Practices* is a collection of essays that identifies a number of different approaches in cultural studies and in Italian cultural studies in particular It highlights that history of cultural studies and new developments in the field as well focuses on practicing cultural studies with essays devoted to Italian hip hop culture postcolonial Italy and queer diaspora Occidentalism in Japan Italian racism and colonialism Philosophy of Globalization Concha Roldán, Daniel Brauer, Johannes Rohbeck, 2018-06-11 Not so long ago it seemed the intellectual positions on globalization were clear with advocates and opponents making their respective cases in decidedly contrasting terms Recently however the fronts have shifted dramatically The aim of this publication is to contribute philosophical depth to the debates on globalization conducted within various academic fields principally by working out its normative dimensions The interdisciplinary nature of this book's contributors also serves to scientifically ground the ethical philosophical discourse on global responsibility Though by no means exhaustive the expansive scope of the works herein encompasses such other topics as the altering consciousness of space and time and the phenomenon of globalization as a discourse as an ideology and as a symbolic form **Handbook of Culture and Globalization** Roudometof, Victor N., Dessì, Ugo, 2022-05-17 Discourse based approaches to studying organizations have grown in significance over the last 25 years This accessible and insightful book exemplifies how to use a discursive approach to study organizations By drawing on her own empirical research Cynthia Hardy aligns key theoretical assumptions with a range of case studies to demonstrate the value and adaptability of a discursive approach **Legal Positivism in a Global and Transnational Age** Luca Siliquini-Cinelli, 2019-08-30 A theme of

growing importance in both the law and philosophy and socio legal literature is how regulatory dynamics can be identified that is conceptualised and operationalised and normative expectations met in an age when transnational actors operate on a global plane and in increasingly fragmented and transformative contexts A reconsideration of established theories and axiomatic findings on regulatory phenomena is an essential part of this discourse There is indeed an urgent need for discontinuity regarding what we think we know about among other things law legality sovereignty and political legitimacy power relations institutional design and development and pluralist dynamics of ordering under processes of globalisation and transnationalism Making an important contribution to the scholarly debate on the subject this volume features original and much needed essays of theoretical and applied legal philosophy as well as socio legal accounts that reflect on whether legal positivism has anything to offer to this intellectual enterprise This is done by discussing whether global and transnational cultural socio political economic and juridical challenges as well as processes of diversification fragmentation and transformation significantly de formalisation reinforce or weaken legal positivists assumptions claims and methods The themes covered include but are not limited to absolute and limited state sovereignty the new international legal positivism Hartian legal positivism and the normative positivist account the relationship between modern secularisation social conventionalism and meta ontological issues of temporality in postnational jurisprudence the social positivisation of human rights the formation and content of jus cogens norms feminist critique the global and transnational migration of principles of justice and morality the Vienna Convention on the Law of Treaties rule of interpretation and the responsibility of

transnational corporations Power and Secularization Giacomo Marramao, 2025-03-04 This book offers a genealogical understanding of the condition of our time by reconstructing the complex story of the transition from the cyclical time of the classic era to the linear and infuturant time of the modern world Time is therefore understood not as a simple vector but as a trans political form par excellence which involves the fundamental philosophical and political categories of the modern constellation beginning with the concepts of progress revolution liberation and alternative Arguing that the process of secularization in its broadest sense is dependent on the modern notion of cumulative and irreversible time together with the temporalization of history Power and Secularization constitutes a conceptual history that will appeal to scholars of social and political theory and philosophy with interests in intellectual history and the genealogical method **La deriva**

Ideologies and the European Union Carlo Invernizzi

Accetti, Jonathan White, 2021-05-13 This volume examines what the concept of ideology can add to our understanding of the European Union and the way in which the process of European integration has inflected the ideological battles that define contemporary European politics both nationally and transnationally. Contemporary debates on the nature and value of the European Union often touch on the notion of ideology. The EU's critics routinely describe it as an ideologically motivated project associating it from the left with a form of neo-liberal capitalism or from the right with liberal multiculturalism. Its defenders often praise it in explicitly post or anti-ideological terms as a regulatory body focused on the production of output legitimacy or as a bulwark against dangerous ideological revivals in the form of nationalism and populism. Yet the existing academic literature linking the study of the EU with that of ideologies is surprisingly thin. This volume brings together a number of original contributions by leading international scholars and takes an approach that is both historical and conceptual, probing the EU's ideological roots while also laying the grounds for a reappraisal of its contemporary ideological make-up. The chapters in this book were originally published as a special issue of the Journal of European Public Policy.

Il lungo addio della filosofia politica contemporanea. Processi storici e questioni epistemologiche Francesco

Giacomantonio, 2018-12-19 Il paradosso della politica: la sua assenza di fondamento proprio. Jacques Rancière. La filosofia politica da sempre ha costituito un campo di ricerca articolato e problematico: la realtà di cui essa si occupa incarna una parte caleidoscopica dell'esperienza dell'uomo. Questo testo si impegna a mettere a fuoco in particolare le fondamentali evoluzioni e oscillazioni della filosofia politica attraverso il XX secolo sino ai giorni nostri. Una sorta di lungo addio a particolari elementi come la relazione con la Storia, lo status epistemologico rispetto ai suoi temi, il rapporto con la Ragione, il ruolo degli intellettuali. Il percorso di lettura proposto evoca tappe teoriche fondamentali: da Rawls a Habermas, da Weber a Schmitt, da Arendt a Derrida, da Strauss a Nozick, da Taylor a Rancière, da Foucault a i cenni come pure contesti storico-sociali di riferimento. Si delinea così un possibile laboratorio di riflessioni in cui poter sperimentare confronti e ipotesi di ricerca su questioni e concetti cruciali per la comprensione politica dell'epoca che attraversiamo. E abbiamo una grande necessità di conoscerla meglio per governarla.

Nell'età post-ideologica, quale identità per i partiti? Renata Natili Micheli, 2009 **Europe and Asia beyond East and West** Gerard

Delanty, 2006-10-03 This major new book tackles key questions on Europe in the context of shifting parameters of East and West The contributors sociologists anthropologists philosophers and historians show from a variety of different perspectives that the conventional equation of Europe with the West must be questioned Featuring four thematically organized chapters the book looks at a post Western world Asia in Europe encounters in history between Europe and Asia otherness in Europe and Asia Exploring new expressions of European self understanding in a way that challenges recent ideological notions of the clash of civilizations this outstanding work draws on recent scholarship that shows how Europe and Asia were mutually linked in history and in contemporary perspective It argues that as a result of current developments and the changing geopolitical context both Europe and Asia have much in common and that it is possible to speak of cosmopolitan links rather than clashes This book will be of great value to students and researchers in the fields of sociology European politics and history and cultural theory **L'ultimo classico** Antonio De Simone, 2020-04-01 T00:00:00+02:00 Nelle gradazioni del possibile in cui si configura l'orizzonte di senso della realtà dove si rappresentano le immagini del mondo e si interpretano nella storia le forme della soggettività e della politica ovvero le frequenze i casi e i destini dell'umano evento Max Weber si

appalessa come un classico nostro contemporaneo forse l'ultimo classico che pur nelle sue interne e irresolubili contraddizioni vitali e di pensiero pu ancora rappresentare una guida essenziale per comprendere la complessità costitutiva dell'agire umano dotato di senso. Il paradigma weberiano con i suoi sviluppi critici e problematici entro e oltre il Novecento non ha smesso anche nelle trasformazioni della filosofia della politica e delle scienze umane e sociali contemporanee di declinarci con la sua originale *Zeitdiagnose* nella nostra ontologia dell'attualità quali sono i problemi rilevanti del conflitto della ragione nel disincanto moderno. Nelle pagine di questo libro Antonio De Simone ricostruisce i motivi salienti in cui si articolano gli esercizi di pensiero nei quali rilegge alcuni dei principali temi che possono nel loro insieme restituire i diagrammi principali dell'antropologia dell'umano che Weber diagnostica criticamente nella sua enciclopedica opera filosofica politica storica giuridica etica e sociologica. Un'analisi e un'ermeneutica della modernità che con accenti diversi hanno continuamente attratto l'attenzione dei grandi interpreti contemporanei che all'opera di Weber hanno rivolto il loro ascolto per decifrarne l'ineffabile destino e che questo volume recepisce non solo nella sua storica e determinata *Wirkungsgeschichte* ma anche come lascito problematico di una grande lezione e di una difficile e indispensabile eredità di pensiero di un genio poliedrico inteso appunto come filosofo politico e sociologo.

The Passage West Giacomo Marramao, 2014-06-10 In this ambitious work Giacomo Marramao proposes a radical reconceptualization of the world system in our era of declining state sovereignty. He argues that globalization cannot be reduced to mere economics or summarized by phrases such as the end of history or the westernization of the world. Instead we find ourselves embarking on a passage to a new post nation state age destined to transform all civilizations and to disrupt Western geopolitical dominance. To confront the challenges of this interregnum one must think in terms of a new and radical universalism: a universalism of difference able to revitalize politics and to demythologize identity. Building on the great interwar discussion between Spengler, Junger, Schmitt and Heidegger, Marramao's new work engages with Habermas, Derrida and post colonialism. Arguing against the classic Western pretension to universal norms of democracy and reason, he develops instead the idea of a universal politics of difference.

La sua azione ideativa e le sue determinazioni materiali creano e organizzano spazi e luoghi che sono anche politici. I grandi progetti dell'architettura del pensiero e della società appaiono sostenuti in modo particolare in questi anni da considerazioni che vedono delinearsi in primo piano l'esigenza di nuovi principi ordinatori delle politiche del territorio che non solo si confrontano nell'insieme delle infrastrutture e della dotazione di servizi ma incidono anche sui grandi temi del rapporto tra tutela della natura e ambiente.

costruito della realizzazione della città multietnica e multiculturale del senso e delle prerogative dei suoi spazi di vita e di socializzazione. Se la riflessione sul rapporto tra architettura e politica prende avvio intorno al difficile interrogativo di cosa sia la realtà attuale occorre sottolineare come le componenti interpretative della filosofia della psicologia delle scienze sociali nei confronti dello spazio architettonico e della città siano essenziali al pari di quelle operative del progetto e della pianificazione per giungere a formulare proposte condivise e soprattutto indirizzate ad una rinnovata qualità dell'esistenza individuale e associata.
