Pabions Promise:

Coronet, 1960-02 Wilhelm Reich, Biologist James E. Strick, 2015-04-06 Refuting allegations of pseudoscience that have long dogged Reich's research the author argues that Reich's lab experiments in the mid 1930s represented the cutting edge of light microscopy and time lapse micro cinematography and deserve to be taken seriously as legitimate scientific contributions Publisher's description *War Poster Collections* Princeton University. Library, 1920 **Resources in Education**, 1994-10 **Air University Periodical Index**, 1961 *Medical Firsts* Tish Davidson, 2023-06-15 Profiling 60 medical innovations and milestones from the 11th through 21st centuries this book highlights the people and stories behind these key moments while also exploring their historical context and enduring legacy *Medical Firsts* Innovations and Milestones That Changed the World brings together a carefully curated collection of turning points in the history of medicine over the last millennium These firsts are drawn from a wide array of medical fields from surgery to genetics dentistry and psychiatry Firsts are arranged chronologically but a thematic listing has also been included to allow readers to focus in on particular subject areas such as trailblazing individuals groundbreaking drugs and treatments pioneering diagnostic tools and life saving medical procedures Each entry begins with a description of how the first came to be followed by discussion of the historical context in which it emerged and its continued impact on the world of medicine Sources for further information are provided at the end of each entry and serve as a gateway to further study We take many modern medical devices and techniques for granted but everything from hypodermic needles and baby incubators to organ transplants antibiotics and hearing aids began simply as ideas in someone's mind And while such concepts as formal medical education methodical clinical trials and universal healthcare may seem commonplace today this wasn't always the case In some cases milestones centered around key people and institutions rather than technologies or ideas Do you know who the first woman to win the Nobel Prize in Physiology or Medicine was or where the oldest medical school still in existence resides Medical history comes to life in this captivating volume **The Zebrafish: Genetics, Genomics and Informatics** H. William Detrich, Monte Westerfield, Leonard I. Zon, 2011-09-14 This volume on genetics genomics and informatics will cover new technologies in forward and reverse genetics transgenesis the zebrafish genome and mapping technologies informatics and comparative genomics and Infrastructure This volume of *Methods in Cell Biology* will prove valuable both to seasoned zebrafish investigators as well as to those who are newly adopting the zebrafish model as part of their research armamentarium **Consumer Credit Industry** United States.
