Paths To Regionalisation:

Paths to Regionalisation Sophie Boisseau Du Rocher, Bertrand Fort, 2005 The aim of this book is to explain the different experiences in region building in Europe and East the two regions of the world that are making major contributions to the experience and theory of region building Europe and East Asia have evolved in different ways with different logics and mechanisms but it does not mean they do not have common interests or things to learn from one another This book seeks to contribute to a better understanding of the experiences and challenges in both regions and to stimulate a much needed reflection of the benefits of regions to harness globalisation

OECD Multi-level Governance Studies Decentralisation and Regionalisation in Portugal What Reform Scenarios? OECD, 2020-02-17 The report presents a diagnosis of Portugal multi level governance in international perspectives and highlights the strengths and challenges of the system It then presents three potential policy paths of regional reform for Portugal As the options are not mutually exclusive they could work as complements to each other The report analyses the conditions under which the reforms may deliver more economic efficiency and regional equity

The Belt and Road Initiative as Epochal Regionalisation Xiangming Chen, Julie Tian Miao, Xue Li, 2021-04-08 The Belt and Road Initiative BRI launched by China in 2013 carries and projects powerful regional dimensions and transformations with short and long term global national and local consequences The BRI s regional significance lies in its designation and creation of several cross border corridors that originate from inside China and extend out into its neighbouring countries and those farther afield in Asia Africa and Europe Through driving and facilitating new trade and infrastructure connections along and beyond these corridors the BRI has begun to reshape the master processes of globalisation urbanisation and development by affecting the economic social and spatial fortunes of many countries and cities This book serves two purposes First through a new framework and three case studies it examines the BRI s impacts on globalisation urbanisation and development via the China Europe Freight Train the paired construction of a new city and railway across the China Laos borderland and the port park city development corridor between Djibouti and Ethiopia Second the comparative analysis and evidence guide the book to advance policy recommendations for targeted stakeholders that can potentially turn the BRI into a global public good with greater benefits and fewer risks

Regionalisation of Globalised Innovation Ulrich Hilpert, 2003-10-23 While processes of innovation are increasingly realised globally they can also take a highly regionalised expression In this book the global networks that link regions are set against the local aspects of innovation With contributions from international experts this book examines local Islands of Innovation where research and industrial expe

Regional Pathways to Nuclear Nonproliferation Wilfred Wan, 2018 This book makes a case for a reorientation of the nuclear nonproliferation regime posing an alternative conceptualization of nuclear order centered on the regional level It draws on an array of theoretical tools from the literatures on regionalism security governance and international institutions developing a framework that analyzes the conditions that would allow for more robust regional

nuclear cooperation These include the presence of 1 institutional architecture 2 political economic and military relations among states and 3 fundamental regional awareness and identity Wan then deploys this theoretical approach to several case studies including Northeast Asia Southeast Asia and the Middle East focusing on two interrelated questions First what is the viability of a stronger regional nuclear order in the region Second what form would such an order most likely take In the process the book identifies the magnitude and character of the proliferation challenge specific to each region It also considers the existing character of nuclear cooperation at the regional level Wan presents the historical development of regional nuclear order in Latin America as a model for the rest of the world In this area regional institutions ranging from organizations to dialogues to ad hoc arrangements gradually became more involved across economic environmental and human security domains providing the foundation for multilateral cooperation in the nuclear arena As his analysis shows in light of the contemporary proliferation landscape the establishment and strengthening of such regional nuclear orders is essential

Regionalism and Regional Self-Government in South-East Europe Vedran Đulabić, 2024-11-15 The book analyses state of play regarding regional level of government in the countries of South East Europe particularly countries succeeding former Yugoslavia Slovenia Croatia Bosnia and Herzegovina Serbia Montenegro Kosovo and North Macedonia using the research methods from the fields of Law Public Administration and Political Science The book offers fresh analytical perspective of the regional self government issues in these countries out of which every country has particular issues to deal with Be it controversial territorial restructuring debate Croatia complex institutional system B H dealing with territorial concentrated ethnic minorities Serbia Kosovo North Macedonia or the issue of small size and non existence of regional forces Slovenia Montenegro Besides the introductory methodological and concluding synthesis trends and issues for further research chapters the book contains country chapters written by experts from a particular country in the region who follow the same chapter structure which allows further comparisons Besides that the book contains three chapters on several cross cutting issues such as position of ethnic minorities and their territorial regional concentration and institutional representation in the overall system of local and regional self government analysis of regional political parties and movements that influence the debate in these countries and the analysis of position and interplay of deconcentrated state administration and regional self government in analysed countries

Drivers of Integration and Regionalism in Europe and Asia Louis Brennan, Philomena Murray, 2015-05-22 This book examines the drivers of regionalism and integration in both Europe and Asia and seeks to forge comparative perspectives between the two regions Comprising contributions from scholars analysts and policymakers this volume explores and debates how and why regional bodies such as the European Union EU and the Association of Southeast Asian Nations ASEAN are formed and sustained Furthermore it examines the drivers of and impediments to regionalism and integration The debates regarding what and who constitute drivers are presented in a fresh thematic and comprehensive manner Leadership and core states are also critically examined whilst

material ideational and normative factors are all assessed comparatively. Significantly in light of the global financial crisis the book considers the role of crisis as a driver of regionalism and integration. This book will be of interest to students, scholars and policymakers interested in Asian and European politics and comparative politics. **Paths of Development in**

Arunachal Pradesh Ravi S. Singh, 2005. Comprehensive geographical background of Arunachal Pradesh. Developing and understanding of existing land use patterns and factors responsible for changes among land use categories. Identification of levels of agricultural development and regionality. Infrastructure: roads, telecommunications, post offices, banks, electrification, growth and intra-state distribution. Under-utilisation of education and health opportunities crucially shaping general development. Gender situation in Arunachal: analysing sex ratio, education and economic participation. *East Asian Regionalism* Christopher M. Dent, 2008-02-19. East Asia is a region that holds much fascination for many people. It is one of the world's most dynamic and diverse regions and is also becoming an increasingly coherent region through the interplay of various integrative economic, political and socio-cultural processes. Such a development is generally referred to as regionalism, which itself has become a defining feature of the contemporary international system, and this book explores the various ways in which East Asian regionalism continues to deepen. Focusing on the main themes of the East Asia region and the study of regionalism: economic regionalism and East Asia's new economic geography, Southeast Asia and the Association of Southeast Asian Nations (ASEAN), trans-regionalism, East Asia's new free trade agreement, trends and key transnational issues in East Asia such as international migration and energy security. *East Asian Regionalism* will be an essential text for courses on East Asian regionalism, Asian politics and Asian economics. Key pedagogical features include end-of-chapter study questions, case studies that discuss topical issues with study questions also provided, useful tables and figures which illustrate key regional trends in East Asia, extensive summary conclusions covering the chapter's main findings from different international political economy perspectives. **Territorial Policy and Governance** Iain Deas, Stephen Hincks, 2017-02-24. In response to both policy and conceptual debates, alternative narratives have begun to emerge about territorial governance and policymaking. As local and regional policy actors strive to respond to the geographically uneven effects of the economic crises of the early twenty-first century, a crucial question emerges: what are the opportunities and challenges presented by alternative forms of territorially based governance and policy? The aim of this edited volume therefore is critically to explore the opportunities and challenges presented by different forms of territorial policy and governance. Drawing on conceptual debates and empirical research from the United Kingdom and other international contexts, the contributors engage with issues around the politics and governance of territorial development, economic development, planning and regeneration and the environment. *Territorial Policy and Governance* addresses the question of how alternative forms of territorial governance and policy can help to shape patterns of urban and regional development, highlighting the related opportunities, constraints and challenges that confront their operationalisation. This book will be essential reading for international audiences with an

interest in territorial development governance politics human geography and planning and regeneration *The Seismic Wavefield: Volume 2, Interpretation of Seismograms on Regional and Global Scales* B. L. N. Kennett, 2001 Guide to understanding of seismograms for graduate students researchers professionals in academia and petroleum industry **The Geopolitics of Region Building in the Black Sea** Yannis Tsantoulis, 2020-12-17 Offering theoretical insights on region building this book explores the attempts to formulate a political and institutional vision for the Black Sea region in the post 9 11 era and in the context of the enlargements of the EU and NATO It investigates in depth these attempts viewed as a failure by the key actors involved in order to understand how regions emerge in international politics as well as how and why they may fail to come into being To this end the book explores a range of factors that impacted region building in the Black Sea considering the role of region builders involved their practices and the context of their actions and the spatial representations and security discourses that were integral to the region building process Hence attention is paid to how these factors both enabled and constrained the discursive construction of the Black Sea region thus identifying the elements that distinguish the Black Sea from other successful cases of region building Based on critical approaches towards international relations and political geography this book both expands and deepens the scope and understanding of regions and will thus appeal to academics and students in the fields of International Relations Security Studies Political Geography and Regional Integration *Regional Economic Integration and the Global Financial System* Sorhun, Engin, Hac'o?lu, Ümit, Dinçer, Hasan, 2014-11-30 In theory regionalism and globalization are intended to be viewed as two separate concepts However as long as the approaches complement each other considering these paradigms in tandem can have significantly positive effects on the overall status of the world economy Regional Economy Integration and the Global Financial System addresses recent trends in regional integration projects and the strides that such projects are making on the road toward globalization Focusing on a range of economic projects emerging supranational units and possible implications for future trends this book is an essential reference source for professionals scholars and institutions interested in the dynamic effects of regionalism and globalization Urban Regionalisation Processes Francesco Lo Piccolo, Marco Picone, Vincenzo Todaro, 2021-01-28 This book explores the issues of transformation phenomena of the urban dimension regionalization processes that traditional scientific literature fails to describe appropriately So far scholars have adopted a widespread dominant perspective that proved unable to grasp the essence of post modern complexities that urban spaces imply The book provides a taxonomy in order to describe the rules of these new and peculiar cities by using the living dimension as a device for the epistemological breaking down of traditional socio spatial analyses After a thorough theoretical introduction it describes two Sicilian case studies that prove particularly relevant to the construction of a new alternative urban regionalization theory These two areas Palermo and South Eastern Sicily are described through several aspects such as the role of migrants and migrations in defining urban regionalization the power of fiction and the new urban forms that are

slowly emerging in Sicily Overall this book provides a refreshing view of what Sicily has been and is becoming by deconstructing most of its clichés and suggesting theoretical perspectives grounded in both quantitative and qualitative analyses
