The Avant-Garde and the Margin Sanja Bahun-Radunovic, V.G. Julie Rajan, 2009-03-26 The collection of essays *The Avant garde and the Margin* New Territories of the Modernist Avant garde refigures the critical and historical picture of the modernist avant garde by introducing a variety of less commonly discussed geo artistic sites and dynamics The contributors explore the multifaceted relations established between the avant garde centers France Germany England and others and their counterparts in the cultural periphery Greece India Japan Poland Quebec Romania and the former Yugoslavia as well as the unique artistic and literary dialogues which these encounters engendered The primary concern of the anthology is the set of relations established between the center and the margin the redefinition of which was pivotal for the formulation of the modernist avant garde aesthetic project itself While enriching the kaleidoscopic picture of modernism the essays in this collection also offer new methodological approaches to this polychrome cultural image In this way the collection avoids the pitfalls of both the traditional diffusionist Eurocentric model of the world and the more recent over relativization of the positions of the margin and the center In their stead the anthology proposes a hermeneutics of encounter that is simultaneously spatial and historical aware of its limits but convinced of its own necessity
