Pensar sobre los medios : comunicación y crítica social Armand Mattelart,1987 *Pensar sobre los medios* Armand Marttelart,2009 **Pensar sobre los medios** Armand Mattelart,Michèle Mattelart,1987 *Pensar sobre los medios* Armand Mattelart,Michele Mattelart,1989 **Gramsci and the Southern Question** Juan José Gómez Gutiérrez,Carlo Verri,Tommaso Baris,2025-02-24 This book looks at the Southern question in Antonio Gramsci It takes this as an opportunity to reflect on the special nature of his thought linked to the concepts of hegemony subalternity and the critique of the particular culturalidentitarian and ideological forms of the South and its historical development Although the category was originally applied to the politics and history of Italy the debates on the Southern question have in recent times gained wider relevance combining with today s more general analyses relating for example to European geopolitics globalisation and the various global Souths to media and mass culture etc In other areas the Southern question in Gramsci has taken the form of a materialist epistemology connected to the historical phenomenon of the splitting of consciousness as opposed to its unity on a theoretical level Elsewhere it has become a programme for the application of a strategy of the international left based on the building of alliances between different groups of subalterns Over time Gramsci s thought has come into contact with other partly converging perspectives such as critical urban theory and cultural and subaltern studies This has given rise to numerous fruitful lines of research in which the Southern question has been extended from Italy s own North South divide to other contexts What aspect of Gramsci s thought could justify this issue taking on such importance Gramsci and the Southern Question Global Readings Interpretations and Uses aims to answer this question by combining general theoretical approaches with studies on the reception of Gramscian concepts in the world s Souths **The SAGE Handbook of Television Studies** Manuel Alvarado,Milly Buonanno,Herman Gray,Toby Miller,2014-12-09 Genuinely transnational in content as sensitive to the importance of production as consumption covering the full range of approaches from political economy to textual analysis and written by a star studded cast of contributors Emeritus Professor Graeme Turner University of Queensland Finally we have before us a first rate and wide ranging volume that reframes television studies afresh boldly synthesising debates in the humanities cultural studies and social sciences This volume should be in every library and media scholar s bookshelf Professor Ravi Sundaram Centre for the Study of Developing Societies Bringing together a truly international spread of contributors from across the UK US South America Mexico and Australia this Handbook charts the field of television studies from issues of ownership and regulation through to reception and consumption Separate chapters are dedicated to examining the roles of journalists writers cinematographers producers and manufacturers in the production process whilst others explore different formats including sport novella and soap opera news and current affairs music and reality TV The final section analyses the pivotal role played by audiences in the contexts of gender race and class and spans a range of topics from effects studies to audience consumption The SAGE Handbook of Television Studies is an essential

reference work for all advanced undergraduates graduate students and academics across broadcasting mass communication and media studies Power, Media, Culture Luis Albornoz, 2015-07-06 This book updates and revalidates critical political economy of communication approaches It is destined to become a work of reference for those interested in delving into debates arising from the performance of traditional and new media cultural and communication policy making or sociocultural practices in the new digital landscape **Materiales para la investigación comunicacional** Erick R. Torrico Villanueva, 2016-08-15 **Epistemología de la comunicación** Efendy Maldonado, 2015 El libro trata la dimensión comunicacional para ser conocida problematizada teorizada investigada y trabajada en perspectiva transformadora y crítica requiere de la confluencia de métodos y teorías El trabajo de producción de conocimiento e información en la línea transmetodológica exige una praxis teórica metodológica que actúa a partir de las estructuras de origen de cada disciplina que son reconstruidas y atravesadas lógicas en concurrencia y confrontación en un montaje singular exigido por el problema objeto investigado En estos movimientos los mosaicos y las mezclas transmetodológicas orientan la investigación y potencializan producciones y resultados significativos **Armand Mattelart, crítica y pensamiento para la liberación en América Latina** Javier Moreno Galvez, 2016-05-02 Selection of texts published in the Chasqui magazine between 1987 and 2011 **Search for A Global Media Ethic** JMME, 2020-08-26 Less than two months after the September 11 tragedies a group of scholars gathered at Washington and Lee University to advance ideas on whether there can be a universal set of moral values toward which media professionals may look for guidance Those conference scholars whose works appear in this special issue both challenge and reinforce conventional wisdom An entertaining and useful centerpiece launches the discussion suggesting four standards that tend to be universal but need discussion to attach themselves to journalism This is followed by a look at the ambiguity of codes relative to those who use them In a more abstract approach the September 11 attacks are seen as creating the need for a commitment to global communitarianism to align powerful western media and the rest of the world The next article examines the aftermath of a code drafting program for Central American journalists declaring that long term effects have been minimal An excerpt from the keynote speaker concludes the conference texts citing the relationship between listener and radio and posing the choice for the listener as one between ignorance and freedom **Acts** Justo L. González, 2001 The book we call Acts of the Apostles is really the Acts of the Holy Spirit an insight that has stood the test of time and which proves the key to this vital book Justo Gonzalez takes this insight deeper inserting the Gospel of the Spirit into its social context Each verse is discussed in terms of both its social and theological implications Book jacket From the Chilean Laboratory to World-Communication Mariano Zarwosky, 2025-09-29 From the Chilean Laboratory to World Communication follows Armand Mattelart's intellectual trajectory through Cold War geopolitics and the rise of critical communication studies in Latin America and Europe First published in Spanish Mariano Zarowsky's study traces Mattelart's path from his early work in demography and law through his political engagement in Salvador Allende's
