People Nation And State:

People, Nation and State Edward Mortimer, Robert Fine, 1999-12-31 Nations in the developed world are no less immune from these complex issues whether they involve Scottish nationalism the rival national identities of Northern Ireland the uneasy integration of former GDR citizens into a united Germany the perennial problems of Afro Americans and Hispanics in the USA not to mention the myriad factors raised by the disappearance of the Soviet Union Citizenship, Belonging, and Nation-States in the Twenty-First Century Nicole Stokes-DuPass, Ramona Fruja, 2017-07-15 Citizenship Belonging and Nation States in the Twenty First Century contributes to the scholarship on citizenship and integration by examining belonging in an array of national settings and by demonstrating how nation states continue to matter in citizenship analysis Citizenship policies are positioned as state mechanisms that actively shape the integration outcomes and experiences of belonging for all who reside within the nation state This edited volume contributes an alternative to the promotion of post national models of membership and emphasizes that the most fundamental facet of citizenship a status of recognition in relationship to a nation state need not be left in the relic galleries of an allegedly outdated political past This collection offers a timely contribution both theoretical and empirical to understanding citizenship nationalism and belonging in contexts that feature not only rapid change but also levels of entrenchment in ideological and historical legacies The State, Non-State Organizations and Livelihood Outcomes in Sub-Saharan Africa Roland Azibo Balgah, Emmanuel Yenshu Vubo, 2024-02-06 The discussion on the role of the state and non state actors in the improvement of livelihoods in Sub Saharan Africa SSA where economic and social development is slowest has been characterized by a disjoint between theory and empirical research This volume sets out to revisit this question by examining the place of the two types of actors in the development process and the increasing influence of public private partnerships in livelihood outcomes The book combines theoretical reflections and empirical studies on a wide variety of initiatives in several domains that seek to improve wellbeing and livelihoods with a focus on the Sub Saharan country of Cameroon The book will provide insights on an area which has been both neglected with the rise of neo liberalism and also revived by the recent introduction of the global development goals **Nation, State, and Territory** George W. White, 2004 Nation State and Territory shows that national identities are as potent as ever Today many conflicts rage over places and territories of historical linguistic and religious significance Most analyses of conflicts only consider the economic and geostrategic value of territory George W White shows that national identity is intimately bound to specific places and territories by cultural ties Nation state and territory are mutually defining and reinforcing phenomena and through careful analysis White provides a better understanding of the interactions and conflicts of the world's nation states Jacket **Territorial Politics and Secession** Martin Belov, 2021-03-29 This book offers a broad perspective of revolutionary territorial politics by putting secession in the context of other forms of revolutionary territorial politics This allows for a more complex and profound account of secession and offers the reader a conceptual approach to politics of

revolutionary discontent with territorial status quo Second the book provides a multidiscursive approach which combines the efforts of constitutional and comparative constitutional law scholars with international lawyers EU lawyers and specialists in international relations This allows for multifaceted and in that regard more adequate balanced and rich analysis of secession and the other forms of revolutionary territorial politics

On Nations and the Churches: Ecumenical Responses to Nationalisms and Migration / Nationen und Kirchen: Ökumenische Antworten auf Nationalismus und Migration Jelle Creemers, Ulrike Link-Wieczorek, 2020-11-01 Kirchen in Europa haben eine spezifische Erfahrungsgeschichte mit ihrer Verhältnisbestimmung zur Nation Obwohl im Prinzip darüber einig dass der christliche Glaube in seiner Grundtendenz von einem internationalen ja universalistischen Charakter geprägt ist wird spätestens seit dem 19. Jahrhundert immer wieder gefragt ob nicht doch Nation und nationale Identität zur Schöpfung Gottes gehören Gegenwärtig wird das in den Kirchen Europas kontrovers diskutiert eng verbunden mit Erfahrungen von Migration Nation klingt anders für protestantische Minderheitskirchen als für orthodoxe oder römisch-katholische Kirche in ehemals kommunistischen Staaten und wieder anders für deutsche Kirchen die ihre Verquickung mit dem Nationalsozialismus verarbeiten müssen Können Nationalbewusstsein und gegenwärtige Migrationserfahrungen zusammengehen Haben die Kirchen in ökumenischer Perspektive dazu etwas Spezifisches zu sagen Mit diesen Fragen beschäftigt sich dieser Tagungsband der Societas Oecumenica Mit Beiträgen von Elżbieta Adamiak Niko Huttunen Petre Maican Ivana Noble Friederike Nessel Peter Phan Hector Scerri Peter Ben Smit Andrea Strind Ulrike Link-Wieczorek Kaholi Zhimomi Churches in Europe have specific historical experiences regarding their relationship with the nation Although in principle it is agreed that the Christian faith is in its basic tendency shaped by a supranational even universalistic character since the 19th century at the latest it has been repeatedly asked whether nation and national identity do not belong to God's creation At present this is controversially discussed in the churches of Europe closely connected with experiences of migration Can national consciousness and current migration experiences go together Do churches have anything specific to say about this in an ecumenical perspective These are the questions addressed in this conference volume of the Societas Oecumenica

Nation-Building as Necessary Effort in Fragile States René Grotenhuis, 2025-10-01 Policies intended to bring stability to fragile states tend to focus almost exclusively on building institutions and systems to get governance right Simply building the state is often seen as sufficient for making it stable and legitimate But policies like these René Grotenhuis shows in this book ignore the question of what makes people belong to a nation state arguing that issues of identity culture and religion are crucial to creating the sense of belonging and social cohesion that a stable nation state requires

Nation, Society and

the State Dr. Abraham Weizfeld, 2012-03-09 This work treats the European political philosophy that has engendered the Nation State concept considered to be the logical evolution of human history as a linear periodization into the Modern State This Modern State concept is treated as the end of history in liberal democratic theory in spite of it remaining a European phenomenon Where it has been imposed beyond the European political culture it has provoked a plague of civil wars and occupations such as in Palestine In Europe itself it has also resulted in such features as the Spanish Inquisition the latter day Spanish civil war and the fascist dictatorship that followed as well as the Nazi regime and its Holocaust in alliance with the various fascist allies seeking their own Nation State Various attempts have followed in Europe itself to overcome the Nation State itself by means of the European Union which sought to unite the Nation States with a federated effort to bring some stability to the economy and life of the region in light of the disastrous wars of the twentieth century The contradictions of the Nation State and Federalism become ever more apparent as the EU now descends into economic chaos This sub title invites a comparison and a contrast between the Jewish political culture and the Zionist movement One may consider political culture as encompassing Civil Society history religious theology and law comprising a collective consciousness this historical heritage forms a national identity which is currently oriented into nationalism by the State The endurance of national identity apart from the State and with the extinction of the State is projected as the basis of an independent Civil Society **ICILS**

Nationalism and Minority Identities in Islamic Societies Maya Shatzmiller, 2005-04-29 The essays focus on identity formation in five minority groups Copts in Egypt Baha'is and Christians in Pakistan Berbers in Algeria and Morocco and Kurds in Turkey and Iraq While every minority community is distinctive the experiences of these groups show that a state's authoritarian rule uncompromising attitude towards expressions of particularism and failure to offer tools for inclusion are all responsible for the politicization and radicalization of minority identities The place of Islam in this process is complex while its initial pluralistic role was transformed through the creation of the modern nation state the radicalization of society in turn radicalized and politicized minority identities Minority groups though at times possessing a measure of political autonomy remain intensely vulnerable
