course real estate through the lens of mothers and daughters At eighteen Sarah Payne Stuart fled her mother and all the other disapproving mothers of her too perfect hometown of Concord Massachusetts only to return years later when she had children of her own Whether to defy the previous generation or finally earn their approval and enter their ranks she hurled herself into upper crust domesticity full throttle In the twenty years Stuart spent back in her hometown in a series of ever more magnificent houses in ever grander neighborhoods she was forced to connect with the cultural tradition of guilt and flawed parenting of a long legacy of local literary women from Emerson's wife to Hawthorne's to the most famous and imposing of them all Louisa May Alcott's iconic guilt tripping Marmee When Stuart's own mother dies she realizes that there is no one left to approve or disapprove And so with her suddenly grown children fleeing as she herself once did Stuart leaves her hometown for the final time bidding good bye to the cozy ideals invented for her by Louisa May Alcott so many years ago which may or may not ever have been based in reality *Thoreau's Democratic Withdrawal* Shannon L. Mariotti, 2010-01-21

Best known for his two year sojourn at Walden Pond in Massachusetts Henry David Thoreau is often considered a recluse who emerged from solitude only occasionally to take a stand on the issues of his day In *Thoreau's Democratic Withdrawal* Shannon L. Mariotti explores Thoreau's nature writings to offer a new way of understanding the unique politics of the so called hermit of Walden Pond Drawing imaginatively from the twentieth century German social theorist Theodor W. Adorno she shows how withdrawal from the public sphere can paradoxically be a valuable part of democratic politics Separated by time space and context Thoreau and Adorno share a common belief that critical inquiry is essential to democracy but threatened by modern society While walking huckleberrying and picking wild apples Thoreau tries to recover the capacities for independent perception and thought that are blunted by Main Street conventional society and the rapidly industrializing world that surrounded him Adorno's thoughts on particularity and the microscopic gaze he employs to work against the alienated experience of modernity help us better understand the value of Thoreau's excursions into nature Reading Thoreau with Adorno we see how periodic withdrawals from public spaces are not necessarily apolitical or apathetic but can revitalize our capacity for the critical thought that truly defines democracy In graceful readable prose Mariotti reintroduces us to a celebrated American thinker offers new insights on Adorno and highlights the striking common ground they share Their provocative and challenging ideas she shows still hold lessons on how we can be responsible citizens in a society that often discourages original critical analysis of public issues **The Americas** Trudy Ring, Noelle Watson, Paul

famous residents as a product of family and community activism and presents the civic context in which their outspoken abolitionism evolved In this historic locale radical abolitionism crossed racial class and gender lines as a confederation of neighbors fomented a radical consciousness and Petrulionis documents how the Thoreaus Emersons and Alcotts worked in tandem with others in their community including a slaveowner's daughter and a former slave Additionally she examines the basis on which Henry Thoreau who cherished nothing more than solitary tramps through his beloved woods and bogs has achieved lasting fame as a militant abolitionist This book marshals rich archival evidence of the diverse tactics exploited by a small coterie of committed activists largely women who provoked their famous neighbors to action In Concord the fugitive slave Shadrach Minkins was clothed and fed as he made his way to freedom In Concord the adolescent daughters of John Brown attended school and recovered from their emotional distress after their father's notorious public hanging Although most residents of the town maintained a practiced detachment from the plight of the enslaved women and men whose sole objective was the moral urgency of abolishing slavery at last prevailed on the philosophers of self culture to accept the responsibility of their reputations *Bibliographies of New England History* Roger N. Uneven Land Stephanie L. Sarver,1999-01-01 Uneven Land explores the ambiguous conceptual position of agriculture and nature in American literature during the late nineteenth and early twentieth centuries Focusing on the work of Ralph Waldo Emerson Hamlin Garland Frank Norris William Ellsworth Smythe and Liberty Hyde Bailey Stephanie L Sarver reveals a range of views about agriculture its value to the individual and its relationship to nature Sarver proposes that agricultural practices require a relationship with nature that is simultaneously material and spiritual as well as economic and social Emerson interprets the relationship between the farmer and nature in several ways confirming that the farmer enjoys a privileged connection to nature Garland and Bailey continue in Emerson's tradition but present the farmer's relationship to nature as always compromised by the commercial character of farming In contrast Norris and Smythe minimize the individual spiritual experiences of nature in farming They abstract agrarian land suggesting that the farm is a stage on which human dramas are enacted Out of this study emerges a complex picture of America's uncertain relationship with nature and agriculture
