Political Learning In The Historical Context International Studies In Political Socialization Vol 9:

The Politics of Education Reform in China's Hong Kong Sonny Shiu-Hing Lo, Chung Fun Steven Hung, 2022-03-31 Education reform has become a highly political issue in the Hong Kong Special Administrative Region HKSAR since the transfer of sovereignty to the People's Republic of China PRC Lo and Hung focus on the political struggles among stakeholders including the government of Hong Kong the Catholic Church parents students teachers the central authorities of Beijing and even the bureaucratic politics between Beijing the Hong Kong government and the Examination Authority They examine the key elements of education reform in the HKSAR including language and curriculum reform national security education civic and patriotic education the rise of the pro Beijing education elites and interest groups and the revamp of examination questions and examination authority The entire education reform in the HKSAR has pushed the Hong Kong education system toward a process of mainlandization making Hong Kong's education system more similar to the mainland system with emphasis on political correctness in the understanding of Chinese national security history and culture Highlighting the political struggles among the various stakeholders this book is essential for scholars of Hong Kong and China especially those with an interest in the relationship between education and politics

Teaching Politics Beyond the Book Robert W. Glover, Daniel Tagliarina, 2012-11-22 To teach political issues such as political struggle justice interstate conflict etc educators rely mostly on textbooks and lectures However many other forms of narrative exist that can elevate our understanding of such issues This innovative work seeks new ways to foster learning beyond the textbook and lecture model by using creative and new media including graphic novels animated films hip hop music Twitter and more Discussing the opportunities these media offer to teach and engage students about politics the work presents concrete ways on how to use them along with teaching and assessment strategies all tested in the classroom The contributors are dedicated educators from various types of institutions whose essays span a variety of political topics and examine how non traditional texts can promote critical thinking and intellectual growth among students in colleges and universities The first of its kind to discuss a wide range of alternative texts and media the book will be a valuable resource to anyone seeking to develop innovative curricula and engage their students in the study of politics

Subject Guide to Books in Print, 1997 *Essays on Political Education* Bernard Crick, Derek Benjamin Heater, 2012 In the 1960s and 1970s there was a remarkable development of interest in political education not only in Britain but also in other countries namely the USA Germany and Australia This volume provides scholars and teachers in this field with a picture of British work in the area of political education

Resources in Education, 1998 *Research in Education*, 1973-12 *New Zionism and the Foreign Policy System of Israel (RLE Israel and Palestine)* Ofira Seliktar, 2015-05-22 The invasion of Lebanon was the culmination of an extraordinary change which New Zionism created in Israel's foreign policy system This book first published in 1986 examines how New Zionism came to dominate Israeli politics and it investigates the implications of this new ideology for the future of the Middle

East The author agrees that after the creation of the State of Israel the belief system of the evolving society gradually changed After the Six Day War the ideology of Socialist Zionism became increasingly discredited and replaced by the New Zionist quest for Eretz Israel Hardened by the harsh experience of the continuing Arab Israeli conflict and enhanced by the threatening image of the enemy the political culture in Israel became less tolerant and more receptive to the language of New Zionism As a result Begin s Likud came to power in 1977 and quickly changed the whole basis of Israel s foreign policy Instead of the cautious pragmatism of Socialist Zionism the Begin government pursued the grand design that had enjoyed a long tradition in Revisionist thinking Although General Sharon was responsible for the actual conduct of the war it was the New Zionist propensity to use military force to introduce a new order in the Middle East which was responsible for the invasion The book suggests that it is still too early to assess the full impact of the war in Lebanon on New Zionism Although the war failed to validate any of the grand design tenets of New Zionism the violent Shiite response in Southern Lebanon may serve to strengthen the New Zionist hard line This could hasten the annexation of the occupied territories as the final stage of turning the State of Israel into the Land of Israel Nationalism, Ethnicity, and Identity Russell F. Farnen, 2017-07-05

Nationalism national identity and ethnicity are cultural issues in contemporary Western societies Problems in the United States the Netherlands Germany Austria Turkey Poland Croatia Ukraine Hungary and Bulgaria illustrate both large scale internal variations in these phenomena and their cross national relevance for teaching research and educational development on such subjects as multiculturalism ethnic diversity and socialization Nationalism Ethnicity and Identity now in paperback reflects the consequences of rapid change as well as the impact of longstanding social values Contributors from a number of different countries use a variety of methodological approaches empirical quantitative qualitative historical and case study among others to analyze important issues These include anti-Semitism stereotyping militarism authoritarianism postmodernism moral development gender patriarchy theory of the state critical educational theory Europeanization and democratic public policy options as related to competing choices among monocultural and multicultural policy options In addition contributors examine the situation of minorities in their respective national settings Chapters cover the impact of mass media culture patriotism and other universal values This cross national study is a unique addition to the literature on multiculturalism **UNITED STATES POLITICAL SCIENCE DOCUMENTS**, 1989 National Identity and Geopolitical Visions Gertjan Dijink, 2002-11-01 From the Third Reich to Bosnia nationalism a sense of a nation s place in the world has been responsible for much bloodshed Nationalism may be manipulated by political leaders or governments but it springs from the people Something in the history and environment of a national group creates it This volume aims to locate and analyze the myth of national identity and its value in creating pride deflecting fear or legitimating aggression A range of essays on Britain the United States Germany Russia Iraq Serbia Argentina Australia and India illustrate the different manifestations of the geographical imagination across the countries of the world *Power, Economics, And Security* Henry

Bienen, 2019-10-16 This volume is dedicated to the memory of Klaus E Knorr This is fitting for a number of reasons The collaborative work here was done under the auspices of the Center of International Studies at Princeton University which Klaus Knorr directed from 1961 until 1968 The concerns of this book are to analyze the relationships among economic and military power and national security to explore the ways economic power and economic decline relate to international hegemony and to examine our understanding of concepts such as power security and burden sharing These concerns ranked high on Klaus Knorr's research agenda during his productive and fruitful life *Making the World Global* Isaac A. Kamola, 2019-06-07 Following World War II the American government and philanthropic foundations fundamentally remade American universities into sites for producing knowledge about the world as a collection of distinct nation states As neoliberal reforms took hold in the 1980s visions of the world made popular within area studies and international studies found themselves challenged by ideas and educational policies that originated in business schools and international financial institutions Academics within these institutions reimagined the world instead as a single global market and higher education as a commodity to be bought and sold By the 1990s American universities embraced this language of globalization and globalization eventually became the organizing logic of higher education In *Making the World Global* Isaac A Kamola examines how the relationships among universities the American state philanthropic organizations and international financial institutions created the conditions that made it possible to imagine the world as global Examining the Center for International Studies Harvard Business School the World Bank the Social Science Research Council and NYU Kamola demonstrates that how we imagine the world is always symptomatic of the material relations within which knowledge is produced *Political Culture and Leadership in India* Bharati Mukherjee, 1991-01-01 [American Book Publishing Record](#), 2005 *The Oxford Handbook of Political Executives* Rudy B. Andeweg, Robert Elgie, Ludger Helms, Juliet Kaarbo, Ferdinand Müller-Rommel, 2020 This Handbook provides definitive reference work on political executives and their key role in political systems It records the current theoretical and methodological debates and sets the agenda for future research in this prominent and extremely wide ranging field of research *Reversing Ethnic Cleansing through Minority Returns* Rebecca A. Brubaker, 2025-02-07 Ethnic conflict is not new Nor are international attempts to prevent or contain it *Reversing Ethnic Cleansing through Minority Returns* examines whether and how ethnic religious and political minorities should be returned and reintegrated after conflict Its main focus is the unprecedented international attempt to re mix ethnic groups in Bosnia following the war The book scrutinizes the puzzle of why states and international organizations pursued a re mixing policy in response to ethnic cleansing in Bosnia There were multiple policy alternatives on the table at the start of the conflict Compared to these re mixing was an unlikely choice politically it was risky locally it was unpopular financially it was expensive and practically it ultimately failed Yet Washington and the United Nations chose to prioritize re mixing nonetheless justifying their choice on the grounds that it was essential for reversing ethnic cleansing and thereby re establishing a multi

ethnic Bosnia More generally this book offers insights into how refugee return policies emerge evolve and solidify in a European context In doing so it contributes to a better understanding of how normative discourses transform into policy as well as offers policy recommendations for approaching the challenge of facilitating returns and reintegration following a war s end Understanding how and why such unintended norm diffusion emerged is a crucial addition to the historical record and provides an important correction to the lessons normally drawn from this precedent breaking case *Gender in the Political Science Classroom* Ekaterina M. Levintova, Alison Kathryn Staudinger, 2018-07-12 A collection of studies examining the role of gender in teaching and learning in the traditionally male dominated field of political science *Gender in the Political Science Classroom* looks at the roles gender plays in teaching and learning in the traditionally male dominated field of political science The contributors to this collection bring a new perspective to investigations of gender issues in the political behavior literature and feminist pedagogy by uniting them with the Scholarship of Teaching and Learning SoTL The volume offers a balance between the theoretical and the practical and includes discussions of issues such as curriculum class participation service learning doctoral dissertations and professional placements The contributors reveal the discipline of political science as a source of continuing gender based inequities but also as a potential site for transformative pedagogy and partnerships that are mindful of gender While the contributors focus on the discipline of political science their findings about gender in higher education are relevant to SoTL practitioners other social science disciplines and the academy at large A bold and compelling collection that asks important questions about the ways in which the teaching of Political Science reproduces gender inequities Aeron Haynie **The Baltic States from the Soviet Union to the European Union** Richard Mole, 2012-05-23 The Baltic States are unique in being the only member states of the EU to have fought to regain their sovereignty from the Soviet Union only then to cede it to Brussels in certain key areas Similarly no member states have had to struggle as hard as Estonia Latvia and Lithuania to preserve their identity after fifty years of Soviet nationality policy in the face of sub state and supra state challenges The post communist experience of the Baltic States thus allows us to examine debates about identity as a source of political power the conditioning and constraining influence of identity discourses on social political and economic change and the orientation and outcome of their external relations In particular the book examines the impact of Russian and Soviet control of Estonia Latvia and Lithuania the Baltic independence movements of the late 1980s early 1990s the citizenship debates relations with Russia vis vis the withdrawal of the troops of the former Soviet Army drawing of the shared boundary and the rights of Russian speaking minorities as well as the efforts undertaken by the three Baltic States to rebuild themselves modernise their economies cope with the ensuing social changes and facilitate their accession to the EU and NATO Technical Report Wisconsin Research and Development Center for Cognitive Learning, 1968 *Political Participation in the USSR* Theodore H. Friedgut, 2014-07-14 Theodore H Friedgut scrutinizes mass political participation in the Soviet system examining in detail the electoral process the local councils and

the neighborhood committees from 1957 to the present Originally published in 1979 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
