**Preparing For Power** Peter W Cookson Jr, Caroline Hodges Persell, 2008-08-04 Why do private boarding schools produce such a disproportionate number of leaders in business government and the arts In the most comprehensive study of its kind to date two sociologists describe the complex ways in which elite schools prepare students for success and power and they also provide a lively behind the scenes look at prep school life and underlife *Preparing For Power* Peter W. Cookson Jr, Caroline Hodges Persell, 1987-09-30 Why do private boarding schools produce such a disproportionate number of leaders in business government and the arts In the most comprehensive study of its kind to date two sociologists describe the complex ways in which elite schools prepare students for success and power and they also provide a lively behind the scenes look at prep school life and underlife Preparing for Power Peter Cookson (W., Jr), 1985 *The Best of the Best* Rubén A. Gaztambide-Fernández, 2010-01-30 For two years Rub n Gaztambide Fern ndez shared the life of what he calls the Weston School an elite New England boarding school Vividly describing the pastoral landscape and graceful buildings the rich variety of classes and activities and the official and unofficial rules that define the school The Best of the Best reveals a small world of deeply ambitious intensely pressured students For Gaztambide Fern ndez Weston is daunting yet strikingly bucolic inspiring but frustratingly incurious and sometimes especially for young women a gilded cage for a gilded age *Educating Elites* Adam Howard, Rubén A. Gaztambide-Fernández, 2010-10-16 The gaze of educational researchers has traditionally been turned down toward the experiences of communities deemed at risk presumably with the purpose of improving their plight Indeed theorizing about the relationship between education culture and society has typically emerged from the study of poor and marginalized groups in public schools Seldom have educational researchers considered class privilege and educational advantage in their attempts at understanding inequality and fomenting social justice This collection of groundbreaking studies breaks with this tradition by shifting the gaze of inquiry up toward the experiences of privilege in educational environments characterized by wealth and the abundance of material resources This edited volume brings together established and emerging scholars in education and the social sciences working critically to interrogate a diversity of educational environments serving the interests of influential groups both within and beyond schools The authors investigate the power relations that underlie various contexts of class privilege They shed light into the ways in which the success of a few relates to the failure of many **Privilege, Agency and Affect** C. Maxwell, P. Aggleton, 2013-10-22 Drawing on a range of theoretical perspectives and engaging with new empirical evidence from around the world this collection examines how privilege agency and affect are linked and where possibilities for social change might lie *American Educational History Journal* Paul J. Ramsey, 2012-10-01 The American Educational History Journal is a peer reviewed national research journal devoted to the examination of educational topics using perspectives from a variety of disciplines The editors of AEHJ encourage communication between scholars from numerous disciplines nationalities institutions and backgrounds Authors

come from a variety of disciplines including political science curriculum history philosophy teacher education and educational leadership Acceptance for publication in AEHJ requires that each author present a well articulated argument that deals substantively with questions of educational history
