The Art of Recollection in Jena Romanticism Laurie Ruth Johnson, 2015-02-06 This exploration of Romantic depictions of memory as a faculty of body as well as of mind analyzes representations of remembrance in Jena Romantic texts When these texts pose questions about memory's employment and depiction in art about the aestheticization of recollection they reveal serious doubt about the explanatory ability of the philosophical psychological and aesthetic discourses against which Romantic and modern thought is constructed

History, Memory, and the Literary Left John Lowney, 2006-10 In this nuanced revisionist history of modern American poetry John Lowney investigates the Depression era's impact on late modernist American poetry from the socioeconomic crisis of the 1930s through the emergence of the new social movements of the 1960s Informed by an ongoing scholarly reconsideration of 1930s American culture and concentrating on Left writers whose historical consciousness was profoundly shaped by the Depression World War II and the Cold War Lowney articulates the

Left's challenges to national collective memory and redefines the importance of late modernism in American literary history. The late modernist writers Lowmyer studies most closely Muriel Rukeyser, Elizabeth Bishop, Langston Hughes, Gwendolyn Brooks, Thomas McGrath, and George Oppen are not all customarily associated with the 1930s nor are they commonly seen as literary peers. By examining these late modernist writers comparatively, Lowmyer foregrounds differences of gender and sexuality, race and ethnicity, and social class and region while emphasizing how each writer developed poetic forms that responded to the cultural politics and socioaesthetic debates of the 1930s. In so doing, he calls into question the boundaries that have limited the scholarly dialogue about modern poetry. No other study of American poetry has considered the particular gathering of careers that Lowmyer considers. As poets whose collective historical consciousness was profoundly shaped by the turmoil of the Depression and war years and the Cold War's repression or rewriting of history, their diverse talents represent a distinct generational impact on U.S. and international literary history.

Memory in Early Modern Europe, 1500-1800 Judith Pollmann, 2017-08-05 For early modern Europeans, the past was a measure of most things good and bad. For that reason, it was also hotly contested, manipulated, and far too important to be left to historians alone. **Memory in Early Modern Europe** offers a lively and accessible introduction to the many ways in which Europeans engaged with the past and practised memory in the three centuries between 1500 and 1800. From childhood memories and local customs to war traumas and peacekeeping, it analyses how Europeans tried to control, mobilize, and reconfigure memories of the past. Challenging the long-standing view that memory cultures transformed around 1800, it argues for the continued relevance of early modern memory practices in modern societies.

Holocaust Consciousness in Contemporary Britain Andy Pearce, 2014-06-05 The Holocaust is a pervasive presence in British culture and society. Schools have been legally required to deliver Holocaust education; the government helps to fund student visits to Auschwitz; the Imperial War Museum's permanent Holocaust Exhibition has attracted millions of visitors; and Britain has an annually commemorated Holocaust Memorial Day. What has prompted this development? How has it unfolded, and why has it happened now? How does it relate to Britain's post-war history, its contemporary concerns, and the wider globalisation of Holocaust memory? What are the multiple shapes that British Holocaust consciousness assumes, and the consequences of their rapid emergence? Why have the so-called lessons of the Holocaust enjoyed such popularity in Britain? Through analysis of changing engagements with the Holocaust in political, cultural, and memorial landscapes over the past generation, this book addresses these questions, demonstrating the complexities of Holocaust consciousness and reflecting on the contrasting ways that history is used in Britain today.

The Promise of Memory Lorna Martens, 2011-10-10 We once believed in the power of Proust's madeleine and Wordsworth's boyhood memories before literary culture began to defer to Freud's questioning of adult memories of childhood. In this first sustained look at childhood memories as depicted in literature, Lorna Martens reveals how much we may have lost by turning our attention the other way.

History and memory Geoffrey Cubitt, 2013-01-18 In recent years, memory has become a

central though also a controversial concept in historical studies a term that denotes both a new and distinctive field of study and a fresh way of conceptualizing history as a field of inquiry more generally This book which is aimed both at specialists and at students provides historians with an accessible and stimulating introduction to debates and theories about memory and to the range of approaches that have been taken to the study of it in history and other disciplines Contributing in a wide ranging way to debate on some of the central conceptual problems of memory studies the book explores the relationships between the individual and the collective between memory as survival and memory as reconstruction between remembering as a subjective experience and as a social or cultural practice and between memory and history as modes of retrospective knowledge Memory Laws, Memory Wars Nikolay Koposov, 2018 A major contribution to our understanding of present day historical consciousness through a study of memory laws across Europe
