Presenting Your Case To Europe:

A Guide to EC Environmental Law Dorothy Gillies, 2014-07-10 EC law is now a pervasive part of the legislation affecting business government agencies the voluntary sector and the individual citizen across the whole of the European Union This uniquely comprehensive and accessible guide provides a simple and practical explanation of the most important aspects of EC environmental law In straightforward terms it introduces the EC and its institutions and explains where EC environmental law and policy can be found It discusses the main environmental laws relating to air and noise chemicals and industrial risks nature conservation waste and water and explains how these laws can be used to ensure environmental protection The book also explains the EC's law making procedures and discusses the stages at which lobbying can be used to influence the content of future EC environmental laws Useful case studies and suggestions for further reading for those wishing to research a particular area are also included This book will be an invaluable source of reference and practical guidance for lawyers business local government environmental groups and all those needing to understand and use EC law in this area Dorothy Gillies is a lawyer and lecturer in law at the University of Glasgow She has worked in the European Parliament and in the European Commission's Directorate General XI for Environment Nuclear Safety and Civil Protection Originally published in 1998

European Regulation of Medical Devices and Pharmaceuticals Nupur Chowdhury, 2014-04-29 One of the primary functions of law is to ensure that the legal structure governing all social relations is predictable coherent consistent and applicable Taken together these characteristics of law are referred to as legal certainty In traditional approaches to legal certainty law is regarded as a hierarchical system of rules characterized by stability clarity uniformity calculable enforcement publicity and predictability However the current reality is that national legal systems no longer operate in isolation but within a multilevel legal order wherein norms created at both the international and regional level are directly applicable to national legal systems Also norm creation is no longer the exclusive prerogative of public officials of the state private actors have an increasing influence on norm creation as well Social scientists have referred to this phenomenon of interacting and overlapping competences as multilevel governance Only recently have legal scholars focused attention on the increasing interconnectedness and therefore the concomitant loss of primacy of national legal orders between the global European and national regulatory spheres through the concept of multilevel regulation In this project the author uses multilevel regulation as a term to characterize a regulatory space in which the process of rule making rule enforcement and rule adjudication the regulatory lifecycle is dispersed across more than one administrative or territorial level and amongst several different actors both public and private The author draws on the concept of a regulatory space using it as a framing device to differentiate between specific aspects of policy fields The relationship between actors in such a space is non hierarchical and they may be independent of each other The lack of central ordering of the regulatory lifecycle within this regulatory space is the most important feature of such a space The

implications of multilevel regulation for the notion of legal certainty have attracted limited attention from scholars and the demand for legal certainty in regulatory practice is still a puzzle The book explores the idea of legal certainty in terms of the perceptions and expectations of regulatees in the context of medical products specifically pharmaceuticals and medical devices which can be differentiated as two regulatory spaces and therefore form two case studies As an exploratory project the book necessarily explores new territory in terms of investigating legal certainty first in terms of regulatee perceptions and expectations and second because it studies it in the context of multilevel regulation **European Small Claims**

Procedure Great Britain: Parliament: House of Lords: European Union Committee,2006-02-15 The European Commission has recently adopted a proposal for the a Regulation crating a European Small Claims Procedure which seeks to secure consumers access to justice and settlement of disputes in the single market The ESCP would provide a procedure available in the courts of all Member States to deal with cross border cases and simple enforcement across national boundaries In its examination of the Regulation the Committee identifies three main difficulties differences between the Commission and Member States most importantly on costs the need for the practicalities of the scheme to be given more attention lack of clarity in some parts of the text of the Regulation Macmillan Directory of EC Industry Information Sources James Hogan,1992-09-15 With the completion of the single market an increasing number of unstructured information sources are available This Directory is therefore aimed at providing practical and comprehensive guidance on EC business information sources in an accessible format It provides information on legislative and consultative procedures and relevant published and organisational sources Entries are arranged under NACE classification the system which superseded the current UK SIC system during 1991 The Directory is an invaluable EC business reference source and complements its UK equivalent The Macmillan Directory of Business Information Sources UK EC Industry *Rick Steves Europe Through the Back Door* Rick Steves,2017-09-12 You can count on Rick Steves to tell you what you really need to know when traveling through Europe With Rick Steves Europe Through the Back Door you ll learn how to Plan your itinerary and maximize your time Pack light and right Find good value hotels and restaurants Travel smoothly by train bus car and plane Avoid crowds and tourist scams Hurdle the language barrier Understand cultural differences and connect with locals Save money while enjoying the trip of a lifetime After 30 years of exploring Europe Rick considers this travel skills handbook his life s work and with his expert introductions to the top destinations in Europe choosing your next trip will be easy and stress free Using the travel skills in this book you ll experience the culture like a local spend less money and have more fun **Jurisprudence of the**

International Criminal Courts and the European Court of Human Rights Vladimir Tochilovsky,2008 The book provides a comprehensive guide to the jurisprudence of the criminal tribunals for the former Yugoslavia and Rwanda Special Court for Sierra Leone the International Criminal Court and the European Court of Human Rights on procedural and evidential matters

European Communities John Paxton,1992-01-01 The establishment of the European Economic Community in 1958 was

one of the most remarkable developments in the history of the post World War II era It aimed for nothing less than a complete economic union so that goods people and capital would be able to pass over national boundaries of member countries as freely as they move within any one country As the Community's target date of 1992 for economic integration draws closer the need for information both current and historical becomes more urgent The aim of this annotated bibliography is to create a critical and descriptive list of books published mainly in English for businessmen and analysts combining older publications with new The literature on the EC is vast and issues The Community itself nearly 3000 publications a year The range of material covered in this volume is distinguished by its great scope Historical sections provide listings on the postwar years of economic recovery the development of the EC and biographies of the leading personalities involved Policy oriented sections encompass such subjects as labor transportation environment energy and education The political ramifications of economic union financial and fiscal affairs relations between the EC and the Third World and foreign relations in general are dealt with in separate sections The volume concludes with a listing of major European Community publications The sheer bulk of published material on the EC much of it duplication has made keeping up with its developments difficult for small and medium in Europe and elsewhere This invaluable sourcebook will provide the business community and the political establishments with better access to EC information as they grapple with the implications of 1992

A Green Dimension for the European Community David Judge, 2014-03-05 First Published in 1993 A Green Dimension for the European Community is a collection of nine essays from a range of contributors separated into two parts political issues and processes The theme discusses the idea that the introduction of the Single Market marks a particularly appropriate time to consider the political issues and processes affecting environmental policy in the European Community EC The contributors argue that at such a time and in the face of such threats an understanding of the green dimension of the EC is more than an academic exercise This title concludes with a comprehensive index

Self-Evaluation in European Schools Lars Jakobsen, 2003-09-02 In a political and economic climate in which school performance is made public performance tables and inspectors reports can only tell a partial story This is a unique book It tells the story of one school seen through the eyes of a pupil a parent a teacher a headteacher and a critical friend The story is a compelling journey through the process of school improvement theories of school effectiveness and school improvement are progressively clarified This book is based on a well known and well documented research project that represents eighteen European countries which clearly sets it in a European Policy context It includes a wealth of practical tools for raising standards for teachers and school managers to refer to and guidance on how to use them This eagerly awaited follow up to Schools Must Speak for Themselves by John MacBeath RoutledgeFalmer 1999 is a vital and useful source of good ideas challenging insights and practical strategies for real schools
