Presidential Transition in Higher Education James Martin, James E. Samels, 2006-01-04 Zimpher University of Wisconsin Milwaukee *Presidential Transition in Higher Education*, 2006 *The Cambridge Handbook of Organizational Community Engagement and Outreach* Joseph A. Allen, Roni Reiter-Palmon, 2019-01-03 This is an ideal reference for those looking to understand study and practice community engagement and outreach It discusses the different ways individuals including faculty administrators and management in organizations engage in their communities It supplies case studies best practices and theoretical approaches to the study of community engagement Scholars active in this field can use this book as an integration of the current knowledge concerning community engagement and as an inspiration for future research agendas Whilst directing how to implement effective community engagement practices the book also facilitates the application of organizational theory to community engagement It will appeal to academics who are interested in the theoretical background of community engagement Portraits in Leadership Arthur Padilla, 2005-01-01 Leading complex organizations is never easy or simple In this book Padilla uses the university as the organizational vehicle through which to examine the phenomenon of leadership and followership in complex entities The unique characteristics of universities as organizations are discussed and the leadership experiences of six well known university presidents are analyzed within an original framework of leadership Just as John Kennedy's Profiles in Courage considered the notion of political courage within the institutional setting of Congress this book explores leadership within the context of the modern American university The roles of persuasion and communication are highlighted as the author weaves the principal patterns from each of the six case studies to the situational conditions that faced these extraordinary individuals Padilla offers valuable suggestions on how to improve selection of leaders and increase organizational effectiveness The author's plan follows three circles that overlap to form its basic framework 1 The university as a complex organization 2 Leadership its patterns theories and commonalities and 3 Case studies of exemplary leaders which highlight their early experiences and actions The overlap of the three circles defines the conclusions and synthesis Each leader's story covers four areas Childhood background formal schooling education senior leadership roles and major defining events successes and failures and forecasts for higher education and its leadership The book includes an assortment of public and private universities which provides a diversity of leaders who face significant differences in terms of control financing and oversight This diversity allows for more useful comparisons and contrasts The author explains the enormous role that persuasion rather than domination or power plays in successful leadership It is clear that persuasion is effective in many settings and not just in the university environment but it is particularly effective **Searching for Higher Education Leadership** Jean A. Orphan, 2021-12-29 This groundbreaking resource highlights the unique mission and purpose of bachelor's degree granting accessible institutions BAIs exploring the challenges and opportunities present within these institutions and offering a counterpoint to the current dialogue that frames these institutions with a deficit perspective Featuring a broad range of esteemed and influential voices in the field of higher education policy research and administration this unique collection argues that BAIs are an important but overlooked category of institutions in American post secondary education and demonstrates the critical role that BAIs play in the higher education landscape distinct from traditional community colleges and elite universities Chapters cover key issues such as educational policy leadership opportunities faculty the role of geography racial equity and developmental education Ultimately this edited volume challenges damaging assumptions about the organizational nature purpose and role of BAIs in shaping educational opportunity for diverse student populations and therefore contributes valuable scholarship to the ongoing dialogue and debate around achieving equity in higher education access in the United States *Stepping Away* Lisa Jasinski, 2023-07-14 In no other professional field do senior leaders habitually return to the rank and file workforce in the twilight of their careers Corporate CEOs rarely conclude their working lives by resuming the duties of a mid level account executive on the verge of retirement four star generals do not return to the infantry But in academia former senior leaders often conclude their careers by reprising the roles and responsibilities of a professor Until now leaders and institutions have been left to navigate these transitions on their own often learning hard lessons that might have been avoided *Stepping Away* moves beyond the well worn clichés of stepping down to examine how senior leadership role changes impact individuals and the institutions they serve Drawn from empirical research involving more than fifty college presidents provosts and deans this book delivers fresh understanding of the challenges and opportunities leaders face as they assume a new place in the social architecture of their campus Bridging the gap between theory and practice *Stepping Away* translates research into practical strategies that leaders can use to make this change successfully providing guidance about when to speak up and when to remain quiet how to develop new relationships where to office whether to apply for new jobs and how to use their knowledge and skills to add value to their campus communities on campus and off **Iconic Leaders in Higher Education** Roger L. Geiger, 2011-12-31 Iconic leaders are those who have

become symbols of their institutions This volume of historical studies portrays a collection of college and university presidents who acquired iconic qualities that transcend mere identification with their institution The volume begins with Roger L Geiger s observation that creating and controlling one s image requires managing publicity Andrea Turpin describes how Mount Holyoke Seminar s evolution into a modern women s college required reshaping the image of Mary Lyon its founder Roger L Geiger and Nathan M Sorber show how College of Philadelphia provost William Smith s partisan politics and patronage tainted the college he symbolized Joby Topper reveals how presidents Seth Low of Columbia and Francis Patton of Princeton mastered the modern art of publicity Katherine Chaddock explains how John Erskine the Columbia University English professor responsible for the first Great Books program and his unusual career inverted the normal route to iconic status In contrast Christian Anderson s analysis of John G Bowman chancellor of the University of Pittsburgh shows how he substituted architectural vision for academic leadership James Capshew explores the background that made Herman Wells a revered leader of Indiana University Nancy Diamond details how building Brandeis University involved a challenging series of decisions successfully navigated by founding president Abram Sachar Finally Ethan Schrum depicts how Clark Kerr s controversial understanding of the role of contemporary universities was formed by his earlier career in industrial relations This study of iconic leaders probes new dimensions of leadership and the construction of institutional images

Presidential Transitions Patrick H. Sanaghan, Larry Goldstein, Kathleen D. Gaval, 2009-11-16 A presidential transition has a major impact on the life of an institution Hundreds of presidential transitions take place annually and when they are not amicable and carefully orchestrated they can scar both the institution and the president Sanaghan Goldstein and Gaval estimate that more than one third of the presidential transitions in higher education are involuntary and have a negative effect on the institution This book is designed to provide assistance to presidents trustees faculty and other important stakeholder groups and help them avoid the pitfalls of poorly managed transitions The authors discuss how with proper planning care and execution this presidential passage can be an opportunity for a transitioning president and those who surround him or her to write a positive chapter in the campus history Readers will discover that appropriately addressing the anxiety that accompanies major transitions_for both those joining the institution and those already present_is essential Dozens of presidents chancellors board members and other senior executives were interviewed for this book Each major chapter includes selected personal observations from these interviews which illustrate the critical issues addressed in the book
